

SOVIETS MAKE BREAK NORTH, EAST OF OREL

(Continued From Page One)

north of Orel and captured over 50 populated places.

12-Mile Advance
The communique, broadcast from Moscow and recorded by the soviet monitor, said a second drive upon Orel from the east resulted in an advance of 12 to 15 miles on an 18-mile front and the capture of 80 inhabited localities.

Two thousand Germans were captured east of Orel and 12,000 killed, the announcement said. In the three-day drive, the district center of Ulyanovo and the large populated places of Staritsa, Sorokino, Molnovo, Budorovsky, Lukmily, Protivo, Shvanovo, Yagodnaya, Yelensk and Klen were captured north of Orel.

Reds Take Towns
East of Orel the red army occupied the large populated places of Yashik, Orlovka, Vysokoye, Pobednoye, Sykhukha and Brezovyyk.

In the course of the offensive the German 56th, 262nd and 293rd infantry divisions were routed along with the fifth and 18th tank divisions, it was said. Heavy losses also were inflicted on three other German infantry divisions and two motorized divisions.

Captured booty included 40 tanks, 210 guns and 187 mortars, the announcement said, and 109 tanks, 47 guns and 294 planes were destroyed.

"The offensive of our troops continues," the communique said in concluding its account of this sector, but it said Russian troops also had attacked the Germans to the south in the Orel-Kursk area and had repulsed German tank and infantry attacks in the Belgorod sector.

Father Draft May Be Held Until October

(Continued From Page One)

ducted before October at the earliest.

The classification 1-A is available for immediate service while 1-A-O denotes those who can be used for non-combatant military service. Most fathers are in 3-A.

The 2-A and 1-A-O groups included 1,568,000 men on July 1, and although rejections are running at the rate of 40 per cent and some will be reclassified on appeal, enough of them will be drafted to fill the July, August and September quotas, it was said.

Neither Solomon nor war manpower commission officials who participated in a press conference would discuss directly the drafting of fathers or attempt to predict precisely when it would begin.

COAL STRIKE STOPS AS JURY INQUIRES

(Continued From Page One)

local at the Isabella mine of the Weirton Steel company, told the mass meeting at Isabella, near Uniontown. "The government means business. My own intentions are to go back to work."

WASHINGTON, July 15 (AP)—Secretary Morgenthau said today the treasury has forwarded the results of an investigation involving the United Mine Workers union and its president, John L. Lewis, to the attorney general "for such action as he sees fit."

In response to a press conference question, the treasury secretary said the investigation concerned relationships six years ago between Lewis' union and the so-called B mine near Springfield, Ill.

The query was prompted by an article in the Chicago Daily News last Saturday which said: "Another family row in the New Deal is brewing over the failure of Attorney General Biddle to launch a grand jury investigation of some of the financial manipulations of John L. Lewis in Illinois."

"All I can tell you, gentlemen," Morgenthau said, "is that the investigation which we have made has been forwarded to the attorney general for such action as he sees fit."

COMBINED FORCES ADVANCE IN SICILY

(Continued From Page One)

taken Brucoli and Mellilli, six miles to the southwest, as well. Shift to Block British

This concerted assault by enemy forces in which the crack German armored Hermann Goering division took part indicated that the Italian and German commanders had shifted the bulk of their forces from positions confronting the Americans in order to block the British path up the coast.

The Goering outfit previously had received a bad mauling at the hands of the Americans. Consequently, heavier opposition is expected along the route of the eighth army, and the latest developments indicated that the axis commanders have finally decided to commit their main forces in battle to hold the British and Canadians below Catania, 35 miles up the coast from Augusta.

Italian divisions, too, were reported making a more determined show of resistance.

Goums Fighting
However, new waves of British and American parachute and glider-borne troops had carried out what the communique called successful operations and it was disclosed that units of the French army which are now operating in the battle zone are Gaums, the terror-inspiring pig-tailed warriors who fought so effectively along the Mediterranean coast in Tunisia.

The Germans are believed to have concentrated considerable strength, including tanks and artillery, at the town of Lentini, 13 miles south of Catania and at a road junction where the Catania plain begins.

Hard Fighting
Hard fighting can be expected before the capture of Lentini takes place, it was said. This center of resistance is about five miles from the coast.

(An NBC correspondent, in a radio report from a British cruiser off eastern Sicily, said the British had captured both Lentini and nearby Carlentini.

Catania Bombarded
(Another bombardment of Catania from the sea, after an earlier shelling the previous dawn, was carried out last night, he said, and an Italian armored train which pushed south of Catania, was forced to withdraw by naval artillery.

"It was expected that allied troops would be hammering the gates of Catania during the night if not actually entering the city," he said. His report was dated Wednesday evening.

Wall of Flame
(The allied bombardment sent up a solid wall of flame and smoke along 20 miles of the Sicilian coast, he added, and four and six-inch guns were wrenched from their shore emplacements.)

The Americans went forward from the western horn of the allied front through hilly and difficult country to a strategic area protecting the British flank and at the same time threatening the enemy rear if he offers battle on the Catania plain.

The name of the airdrome captured by the Americans was not given, however, nor were the names announced of any of the other places taken in their advance.

CAIRO, July 15 (AP)—Seventy-five heavy United States Liberator bombers from the Middle-East command attacked the important Sicilian ferry terminal of Messina in three waves yesterday, pouring more than 400,000 pounds of high explosives on the battered port, a U. S. army air force communique said today.

One Liberator was missing from the raid. The communique said the bombers encountered no fighter opposition but that anti-aircraft fire over Messina was severe.

Great destruction was caused among port and transportation facilities, the report said, direct hits being scored on freight yards and on railway tracks.

Fonda Denies Parenthood of Divorcee's Child

(Continued From Page One)

met her. He denied the charges emphatically and said the suit was ridiculous.

From the Bremerton, Wash., navy yard's public relations office also came the statement that Fonda, awaiting assignment to a combat zone, has denied Mrs. Thompson's allegations.

In a press conference at the office of her attorney yesterday, Mrs. Thompson told newsmen she met Fonda at Imperial, Calif., in September, 1942, while he was on movie location.

Mrs. Thompson is the mother of three other children, Arnest, 7, and Jo Anne and Carole Ann, 6-year-old twins. Court records disclosed she was divorced August 13, 1942, from Oliver C. Thompson, 35, then a naval warrant officer.

EDITORIALS ON NEWS

(Continued From Page One)

fight our way bloodily through the mountains. We're already moving in that direction. Messina was attacked today by 275 of our bombers operating from Africa. With the Catanian airfields in our possession, we'll be able to rain destruction on the Messina ferry to the mainland from close at hand.

The over-all purpose is to cut the axis forces in Sicily off from reinforcements and supplies from the mainland—much the same as we did at Bizerte and Tunis.

AN AP dispatch from allied headquarters in Africa today says the Italians in Sicily aren't showing much fight and that Sicilian civilians are openly welcoming the allies whose caravans are bringing in food, cigarettes and other supplies for the relief of the noncombatant population.

DISPATCHES from the Russian front today assert that the Russians have halted the Germans everywhere in the Belgorod sector and have DISLOGGED them from several positions with local counterattacks which are GAINING MOMENTUM daily.

Russian eye-witnesses at Belgorod are quoted as saying: "In all our experience on many fronts, we have never seen German fire as intensive as this. The horizon literally seemed to be on fire."

THE point is that if the Germans try to hugly in Russia and LOSE HUGELY, they'll be in a bad way. Then will be the time for us to launch ANOTHER heavy blow.

IN the South Seas, we're closing in today on Mubo, the Jap outpost just south of Salamaua, which is the main Jap position on New Guinea.

We're following the same pattern of extermination we're using at Munda, on New Guinea island—which is the pattern we developed at Guadalcanal and at the Buna-Gona beaches.

That is to say, we first isolate the Japs (largely by means of our air force and our surface navy) from reinforcement and supply and then proceed to starve them out and hunt them down.

This pattern, with only slight variations, is obviously being employed in Sicily.

ered no fighter opposition but that anti-aircraft fire over Messina was severe.

Great destruction was caused among port and transportation facilities, the report said, direct hits being scored on freight yards and on railway tracks.

TEXTILE SELLING CODE SET BY WPB

By STERLING F. GREEN

WASHINGTON, July 15 (AP)—A wartime code of selling practices, aimed at discouraging excess buying and thus heading off the rationing of clothes, was laid down for textile dealers today by War Production Chief Donald M. Nelson.

The declaration of policy dooms for the duration all "scarcity" advertising and such remarks by store clerks as "You had better buy several of these—we may not get any more."

"Sales" Shunned
Even the time-honored price comparison appeal—"Our price \$6.95, regularly \$8.95"—must be eliminated from advertising unless the sale is a genuine clearance, and the word "sale" must be shunned. The only permitted price comparison is with the government ceiling.

The code was worked out with representatives of large and small retailers by Arthur D. Whiteside, director of WPB's office of civilian requirements.

Self-Regulation
"This is the most important and broadest step in individual commercial self-regulation ever attempted in this country," Whiteside declared in telegrams to merchants' organizations.

The government will not police stores for enforcement. Compliance is voluntary as long as the plan works. Whiteside's telegrams hinted at the alternative—government control of selling.

Adequate Supply
The policy declaration starts with the flat statement, "The war production board has established the fact that there is an adequate supply of textiles to meet essential civilian needs."

To assure equitable distribution of those supplies, it asks retailers to conform to certain rules, among which are:

1. The use of fear of scarcities as an appeal in promotion and selling efforts shall be eliminated.

2. Reference to quantities in production, except in the case of bona fide clearance sales, shall be eliminated.

3. Promotion featuring "sale" prices shall be limited to bona fide clearance sales of not more than the approximate volume and frequency of the past performance of the particular retailer.

Wage Scale for Mexican Labor To Be Discussed

(Continued From Page One)

close of the day when he is returned to his quarters.

Housing
Five hundred Mexicans will be housed in the Carr school grounds where a camp is to be built early this fall. The rest will be placed at the Tulelake CCC camp.

George T. Scott of Gazelle, Calif., chairman of the labor wage board of the district, presided at the hearing. Committee reporting for the growers included W. F. Edwards, Howard Dayton, Albert Larsen and George Yost. McKinley Maxwell, Siskiyou county agent from Yreka, was also present.

HUMBLE FARE TO DELICACY

Frogs' legs are now rich delicacies, but they were the discovery of the starving, poverty-stricken peasants who frantically sought food in the hard days before the French revolution. The peasants groped in swampy pools to catch frogs and preparing them with sauces, found the legs made palatable eating.

At Lake—Mrs. Pearl Martin, who has a summer home at Lake o' the Woods, has gone to the resort for the summer months. She spent the winter at Palm Springs, Calif.

Air Assault on Burma Continued by Allies

NEW DELHI, July 15 (AP)—American B-25 Mitchell medium bombers sustained the allied assault on Japanese installations in Burma yesterday, hitting railroad yards, barracks and warehouses at Myingyan and Meiktila, a U. S. army air force communique said today.

At much-bombed Myingyan, 55 miles southwest of Mandalay, further damage was reported to tracks and warehouses, while at Meiktila, 75 south of Mandalay, direct hits were scored on enemy barracks, buildings, railroad sidings and among storage sheds, the bulletin said.

Beef for Starving, Gas for Pleasure, Predicted by Brown

(Continued From Page One)

every effort to comply with the direction of the stabilization act and maintain the general relationship and levels of prices and wages as of September 15, 1942. In cooperation with the other agencies we are aiming at that goal. There has been a six per cent rise since September 15 with a one per cent decline the last month. We have hoped for a further decline when the current figures are released."

Brown said he has no intention of resigning so long as the president wants him to remain, although he personally would like nothing better than to return to his Michigan home.

Bowles Named
He formally announced appointment of Chester Bowles, OPA's state administrator for Connecticut, as the No. 2 official of OPA. Bowles will become senior deputy administrator, and a sort of "general manager" for the organization.

WASHINGTON, July 15 (AP)—Dynamic, red-haired Lou R. Maxon, Detroit advertising executive who bounded into Washington several months ago full of confidence that he was just what the office of price administration (OPA) needed, bounced right out today with the firm conviction that Houdini himself couldn't untangle OPA's "legalistic red tape."

All that remained of his once busy desk were a Washington street car token and a partly-filled bottle of eye-wash.

A secretary who handed out Maxon's farewell statement last night, in which he criticized "confusion, indecision, compromise, miles of legalistic red tape, and the presence of theorists in policy-making positions," said she attached no significance whatever to these mementoes.

Harriman Sentenced On Stolen Car Charge

(Continued From Page One)

SACRAMENTO, July 15 (AP)—John Milton Harriman today was under sentence to serve two years in a federal prison. He pleaded guilty before United States District Court Judge Martin I. Welsh to stealing an automobile in Eugene, Ore., and driving to Lassen county in California.

Dismissed—R. P. Breitenstein, Keno rancher, has been dismissed from Klamath Valley hospital where he received treatment following a fall from a horse on July 5. His son, Arthur Breitenstein, is here for a short time from Longview, Wash. He was formerly with Waggoner Drug company here. Mrs. Breitenstein accompanied her husband to Klamath Falls. She is the former Ellen Stadius of this city and during her residence here was affiliated with the Klamath county health unit.

JAPS IN MUBO AREA PERILED BY NEW DRIVE

(Continued From Page One)

lake, which is only seven miles south of Salamaua, the center of enemy strength in New Guinea.

Follows Munda
The pattern of extermination now launched by the allies at Mubo followed closely that already unfolding before the Japanese airbase of Munda, on New Guinea island in the central Solomons.

Both had their precedents in the campaigns of last winter to eliminate the enemy from Buna, New Guinea, and from Guadalcanal. The Munda action, at least, had even greater hopes for quick success.

Japs Sneak Supplies
The Japanese defenders of Buna, who faced a less formidable American air force, prolonged the fight with men and supplies sneaked to them at night on coastal barges. The enemy tried the barge method yesterday in the Munda sector, with dire results.

Our alert Mitchell bombers, one of several categories of planes now on hand in considerable strength, spotted two big enemy barges above Munda in the Blacket strait. Their bombs destroyed them. North of there off Vella Lavella island, Mitchell also sank an enemy cargo boat.

The American airforce also gave the bomb-pitted enemy fields of the northern Solomons no chance to get back in shape to come to Munda's aid. Liberators and Flying Fortresses started new fires on airdromes at Buka, Kahili and Ballale. Some could be seen 50 miles away.

Baker Banker Named Commission Chief

(Continued From Page One)

PORTLAND, July 15 (AP)—G. P. Lilley, Baker banker, was named chairman of the state liquor commission today by his fellow commissioners.

The board adopted a plan under which the commissioners will take turns serving one-year terms as chairman.

Lilley was appointed to the commission early in April by Governor Snell. He was largely responsible for organization of Baker War Industries, Inc., an enterprise sponsored by Baker businessmen.

Visits Relatives—Mrs. M. E. Giacomini of Merrill, mother of Mrs. Lester Offield of this city, is enjoying a visit with relatives in St. Paul, Minn. She will visit in Texas en route home. Mrs. Giacomini reports the middle west exceptionally cold at this time of the year. She expects to return to her home in September.
