MARKET SLOW BUT PRICES GO UP NEAR CLOSE

By VICTOR EUBANK
NEW YORK, July 21 (AP)—The stock market showed little animation today but there was tendency toward improved prices near the close. Bonds rallied selectively.

The list had a mixed appearance throughout with variations generally limited to fractions. Volume of around 800,000 shares made it one of the slowest sessions of the month.

A handful of utilities and specialties were most prominent among stocks in higher territory until the final hour's rally which was led by rails and steels.

Ahead near the end were U. S. Steel, United Aircraft, Western Union, North American, Public Service of N. J., Union Carbide, Santa Fe, N. Y. Central, Southern Pacific, Great Northern preferred and Chesapeake and Ohio. Motors and rubbers lagged.

OPA Quotes Klamath High Prices as Lack of Control

PORTLAND, July 21 (AP)—Here's an example, the OPA said today, of what happens when price controls are missing: Choice Bing cherries, carefully packed in the Ashland area for long-distance shipment and wholesaling at 18 cents a pound, went on the retail market at San Francisco last week for 60 cents a pound.
And, added the district office, Willamette valley raspberries bringing \$2.25 to \$2.50 on the Portland farmers' market retailed at Klamath Falls for \$6.

Rumania will defend only her own borders.

Moscow says the Bulgarian parliament is meeting in extraordinary session, with all Bulgarian army leaves cancelled and Bulgarian soldiers already on leave ordered back to service immediately.

AS Churchill said the other day, the news is so good that it almost scares us to read it.

We must keep reminding ourselves that we're fighting still at the extreme outposts of Hitler's European fortress. We must constantly remember the two years of bloody and bitter fighting that followed Gettysburg.

Otherwise, we're in danger of losing our perspective.

THE Russians are still attacking Orel, with the Germans resisting stubbornly, launching counter-attacks constantly. As soon as one German attack is repulsed by the red army, the nazis reform their shattered tank and infantry units for ANOTHER.

The fighting today has spread southward from Orel over a 450-mile front, reaching clear to Taganrog on the Sea of Azov.

Reverting again to our war between the states, we are reminded of Grant's bloody and determined march on Richmond, in which he took staggering losses in the knowledge that he could AFFORD it and Lee couldn't.

We're hoping the Russians are fighting with that same knowledge.

THE Japs lose another cruiser and two destroyers out of a convoy of three cruisers, six destroyers and two transports with which they were attempting to run our air and sea blockade and get reinforcements and supplies to their beleaguered forces at Munda.

The Munda campaign is Guadalcanal over again, except that we're moving more swiftly and surely.

Again, however, we must keep

BUND ACTIVITIES TOLD IN TESTIMONY

SAN FRANCISCO, July 21 (AP)—Storm troopers of the German-American Bund in 1936 were ordered to alter their uniforms to resemble those of the American Legion, because of criticism of the troopers' swastika arm bands, Peter Gissibl of Waukegan, Ill., testified in federal court today.

The witness also told the court the bund was instrumental in sending likely young prospects to Germany for education, and a letter purportedly from the Ausland institute in Germany to Gissibl was introduced. It con-

In previous testimony, the witness said the nazi party had a branch in the United States until 1933 when Berlin ordered its members to disband and join the bund.

OPEN SEASON
MEXICO, Mo., (AP)—Hereafter, Harrison and Orville Barker will

be mighty careful when they go squirrel hunting—and not climb trees to catch their game.

The Barkers saw a squirrel enter a hole in a tree and Harrison climbed after it. The animal washed out of the first hole, darted into another, only to scamper out followed by a swarm of bees.

Orville, who escaped a serious bee stinging, removed 43 stingers from Harrison's body.

Yes, unfortunately, folks like you—good honest, fighting Americans last year started more forest fires than lightning, saboteurs and incendiaries put together. These are facts. Each careless act was as destructive as if it had been the deliberate job of a saboteur.

Here in the Pacific Northwest we not only have much to lose from forest fires, but we also have a responsibility to all America, to prevent fires from starting in our precious timberlands. We owe it to our country to be even more careful than we have been before.

FOREST FIRES

1. Destroy vital war material (there are 1,200 direct military uses for wood) . . . disrupt war industries . . . transportation and communications.
2. Take valuable manpower from war industries and agriculture for fire fighting.
3. Give aid and comfort to the enemy by creating a smoke screen which hampers our warning services and interceptor command, and make ideal conditions for a sneak attack on the West Coast.

This year we must not let our carelessness be the enemy's secret weapon. Last year the Pacific Northwest had an excellent fire record. The fire protection agencies of Oregon and Washington appreciate the cooperation of the public in preventing fires. But some fires were started which should have been prevented. We can make an even better record in 1943.

Fire in Oregon's forests is a threat to every citizen of Oregon and every soldier on every front. A threat to our country's safety. So let's be on guard this summer against carelessness, incendiarism or sabotage and Keep Oregon Green!

REMEMBER THESE RULES!

 CRUSH OUT YOUR SMOKE	 DROWN YOUR CAMPFIRE... THEN BURY IT	 BREAK YOUR BURNED MATCH	 DON'T BURN SLASH THIS SUMMER
