

SEVENTH ARMY HAS MARSALA, CASTELVETRANO

(Continued From Page One)

strait braved shore batteries but sighted no enemy shipping.

These other places also were captured in the American sweep: San Stefano Quisquina, only about 30 miles south of Palermo on the northern coast and 40 miles west of Enna.

San Caterina, seven miles northwest of Caltanissetta and 28 miles south of the north coast.

Menfi, midway between Castelvetro and Sciacca.

Caltabellotta, the Sciacca air-drome.

The air-drome at Castelvetro. Bivona, 33 miles south of Palermo.

Ramacca, 22 miles southwest of Catania, also fell to the British.

The American columns now were approaching Palermo, the capital of Sicily, with a last mountain range guarding that vital seaport.

Castelvetro is 50 miles west of Agrigento and Porto Empedocle, towns on the south coast captured by the Americans last Saturday and Sunday. Sciacca is about 30 miles west of these two places.

war, including eight lost as a result of combat in the Pacific and two as a result of non-combat incidents in the Atlantic.

On the other hand, United States subs have accounted for 283 Japanese ships sunk or damaged, including a total of 200 sunk.

The navy department's communique No. 447, reporting on the latest casualty to the submarine force, said:

"The United States submarine Triton has failed to return from patrol operations and must be presumed to be lost. The next of kin of personnel have been so informed."

Work Stoppage Stalls Production Of Army Tires

SOVIETS WIPE OUT LAST OF NORTH FORTS

(Continued From Page One)

dawn, the German radio said today in a broadcast recorded by The Associated Press.

MOSCOW, July 22 (AP)—German reinforcements, rushed into the Orel breaches by forced marches, counterattacked viciously in desperate efforts to halt the Russian onslaught yesterday but were smashed back as the soviet offensive rolled on to within nine miles of the German stronghold, the Russians announced officially today.

Best Through Tanks In a battle of increasing violence which raged 200 miles south of Moscow, the Russians said they beat through masses of enemy tanks and infantry for gains of four to nine miles and overran 90 villages.

(The London radio said that Hitler had ordered Orel, hinge of the entire nazi south-central defense lines, held "at all costs.") The three-pronged Russian drive which threatened to outflank the city of 110,000 from the north and south and menaced it from the east, held these positions:

Drive From North Driving from the north, the Russians had reached Buky, about 40 miles west of the city and within five miles of the crucial Orel-Bryansk railway at a point 35 miles northeast of Bryansk. Another column from the north had topped Oplukha, nine miles northeast of Orel on the railway from fallen Mtsensk. Soviet forces smashing frontally from the east had driven into Zolotarevo, 11 miles away.

Tough Opposition The southern advance on the city was meeting the toughest German opposition and a soviet communique said only that the Russians "continued to forge ahead." That column was last reported west of Malo at a point about 30 miles south of Orel.

(The Berlin radio, explaining the nazi retreats as part of the high command's plan "to force the enemy to the greatest use and abuse of his forces" in battles of attrition "where the goal is not to gain ground," said 45,172 Russians had been taken prisoner and 4827 tanks and 2344 planes had been destroyed or captured since July 5.

Food Chief Jones

With the resignation of Chester C. Davis, who complained that he lacked proper authority, Judge Marvin Jones, above, former chairman of the House agriculture committee steps into the job of the nation's war food administrator.

Police Corner 13-Year-Old Desperado

A 13-year-old boy, who admittedly entered and stole several articles from the Workingman's loan and trading store at Ninth and Klamath Thursday morning, was taken into custody by city police a few hours later, after a chase down Klamath avenue.

At 4:18 this morning a member of the city police force was going to work when he saw the young boy walking down Klamath avenue carrying a revolver. He called a patrol car and after a chase the boy was cornered under the Mars barber shop where he had crawled to hide.

Shot Fired The youngster refused to come out until the police fired a shot into a nearby woodpile.

Upon questioning the boy admitted stealing the revolver, as well as some shells, three men's gold rings, a wrist watch and a magnifying glass. Approximately \$160 were found in the boy's pocket which he said he had earned in a cannery in San Francisco.

The youngster's home is in Brisbane, Calif., and he has been in Klamath Falls only since July 20. He is in custody of county juvenile officers.

Tires From Army to Be Available for Civilian Use Soon

WASHINGTON, July 22 (AP)—More than 100,000 tires no longer suitable for severe army duty will be made available for civilian use, Acting Secretary of War Patterson announced today.

Most of the tires are the heavy cleated type used on trucks for "off the road" service and are primarily suitable for farm trucks, the department said.

had advanced to within a few thousand yards of the airfield and that its capture "now is in reach."

(The Japanese, their artillery knocked out and their armed strength reduced to mortars, machine-guns and small weapons, were said to be contained in pillbox defenses ringing the field itself.)

Airport Approach Changes Started

(Continued From Page One)

will straighten the extension of Summers lane to the field.

County court members said it is planned to make use of surfacing equipment of C. A. Dunn, contractor on the airport runway extension, in surfacing the county road. This will be done while Dunn's equipment is in the vicinity in connection with the airport job.

Condition of the Summers lane approach has drawn unfavorable comment in the past from government and army officials in here to look over the airport.

Material taken from the Peterson hill by the road department will be used in constructing the extension of Johns lane, in the same vicinity. This work is to be done in connection with the re-routing project necessitated by the closing of the Spring lake road through the airport. The Johns lane extension will connect Summers lane and Washburn way, providing a route for east-west travel in that vicinity.

The road department also will construct a section of road along the railroad tracks to connect the Spring lake road with the Joe Wright road and Washburn way, giving people of the Spring Lake district a route into town.

Discussion arose this week between the county court and the California Oregon Power company relative to removal of a power line across the Peterson hill before the blasting begins. It is expected this line will be taken out entirely, and the discussion developed over the question of some \$300 in costs involved.

Reduction Demanded In "Civilian Army"

WASHINGTON, July 22 (AP)—A 10 per cent reduction in the civilian army of 3,029,000 persons now employed by the government was demanded today by Senator Tydings (D-Md.).

Observing that he was "shocked" to learn that the number of government workers had passed the 3,000,000 mark, Tydings said he intends to urge congress in the fall to take action toward slashing this payroll.

Six Killed in Plane Crash Near Sitka

WASHINGTON, July 22 (AP)—Major General William P. Usher, commanding general of marines, department of the Pacific, Captain Charles Paddock, former Olympic track star, and four other persons were killed in an airplane crash near Sitka, Alaska, the navy announced today.

congress for use of subsidies to roll back prices to last September 15 in accordance with the law of October 2." (This was the stabilization act.)

Futile to "Hold Line" He said the group emphasized to the president the "utter futility of continuing the present hold-the-line order in the presence of rising prices and the obvious unwillingness of certain administrative agencies to make effective the commitments of congress to maintain prices at the September level."

In a formal statement by the labor leaders after the White House call, they said they were unable to find any steps being taken to carry out the administration objectives.

"If your administrators have decided not to carry out in full the program which you proposed and which congress permits," the statement said, "it will, of course, be impossible for organized labor to continue in its support of the wage and price stabilization program as now formulated."

PULP HANDLING MAY CREATE PRESS PROBLEM

(Continued From Page One)

OTTAWA, July 22 (AP)—J. G. Diefenbaker, progressive conservative member from Saskatchewan, warned today in the house of commons against what he termed a possibility of building an "adverse" press for Canada in the United States because of the way in which the pulp and paper industry is being handled.

He said antagonism already was apparent among American publishers because of the price increase and the lowered production volume in Canada, which is a main source of supply for American papers.

There was a danger that the Americans would believe Canada was taking advantage of them in the matter of price, he said, referring to the \$4-a-ton increase in newsprint, effective September 1, announced last night.

Resources Minister T. A. Cressar said he did not share Diefenbaker's apprehension. A few newspapers had attacked Canada but the majority understood "the realities" of the situation, he said.

Crushing Japan Job For England, Too, Says Lord Halifax

(Continued From Page One)

TACOMA, July 22 (AP)—To bring Japan to her knees is "as much our job as yours," Lord Halifax, British ambassador to the United States, said here this morning in an interview in which he also asserted that "every man, every gun and ship and plane and everything else" that Britain possesses, would be thrown into the Pacific war "as soon as we clean up this little job on the other side."

Mussolini Refused to Declare Rome Open City, Says Patterson

WASHINGTON, July 22 (AP)—Discussing the bombing of Rome, Acting Secretary of War Patterson said today that Premier Mussolini "resisted all efforts to persuade him to remove military installations from Rome and to preserve its immunity from attack by declaring it an open city."

Patterson said reconnaissance photographs disclosed that heavy damage had been inflicted on two railroad yards, and railroad roundhouses, a steel works, a chemical plant, hangars at air bases and a number of parked airplanes had been destroyed or heavily damaged.
