The Rooster's Crow

By EARL WHITLOCK

Did you ever awaken early, before dawn, and cock one sleepy eye at the window and realize that you had time for an hour's extra snoozing—and then have that big, white rooster of your neighbor's cut loose with his early-morning braying? And what you could have called that bird, as you vainly tried to go to sleep again! And what visions you have had of him in a fricassee!

Well, here's a thought that may make such an occasion easier for you, if it ever comes up again. For unknown centuries, in Egypt, the rooster has been considered a sacred bird, because he is supposed to cry—"Glory be to God!" Maybe a rooster's crow does sound like that in Egyptian. I haven't been able to see much resemblance in American. But it's a good thought. That rooster on the French national coat of arms is not there because of the fighting qualities of the bird—but for that same religious thought. That his cry is "Glory be to God!"

And it's not a bad idea with which to greet the dawn. If you can think that the big, white bird in your neighborhood is saying that—well, it might enable you to sleep again. Instead of getting so mad at him that you're awake for the day. "Glory be to God!" Yes, it is a good way to greet the new day.

Next Monday Mr. Whitlock of the Earl Whitlock Funeral Home will comment on "Manners."

Use Pay-as-You-Go Savings To Buy War Bonds in July

By JENNIE SOUTHWELL Soroptimist Club

Are you among those who are stewing and fretting about the new income tax laws; wondering how much more you will be required to pay and if you will have anything left after your employer finishes deducting from your pay check?

If so forget it and learn how much better off you will be after the transition from "Pay After You Have Spent It" to "Pay As You Go."

On June 15 last, you completed paying 50 per cent of the tax on your 1942 income. As a matter of fact you have actually overpaid your 1942 tax by one-fourth because the new law says you will have 75 per cent of one year's taxes forgiven. On September 15, you are required to estimate your income and tax for 1943. For most of us this amount will remain about the same as for 1942.

Through the cooperation of yourself and your employer (withholding) you have already made a substantial payment on your 1943 tax, namely the 25 per cent overpayment made June 15, plus the amount withheld since June 30. By December 31, you will have paid approximately one half of your

1943 tax and one half of your 1942 tax or one full year's taxes out of two years, but since you are to be forgiven 75 per cent of one year's taxes you actually owe only 25 per cent more to completely pay for both years.

Now then, what will you do with this big saving (75 per cent of one year's taxes)? Wouldn't it be right smart to buy defense bonds? The Soroptimist and Business and Professional Women's clubs are waiting for and need your subscription. No need to instruct the timekeeper to discontinue the 10 per cent deduction for bonds, but let it go right on through as usual and in addition listen for the women's clubs next radio sale of bonds and boost your subscription this month.
