INDIANS VIEW VIOLATIONS OF GRAZING LAWS

The Klamath tribal business committee at its regular quarterly meeting took under advisement the matter of increasing complaints received by the committee concerning violations of federal and other regulations affecting range use on the Klamath Indian reservation. The committee voted that the public in general as well as known violators be notified and warned that "the heretofore exercise of leniency has been exhausted; that henceforth it is necessary to levy more drastic assessments in connection with trespass violations; that there has been wilful non-observance of reservation trespass by livestock owners; that violations of range contracts, lease contracts, permits, and other privileges or contracts will bring about immediate revocation thereof; that trespass fines will be heavier in the future; that this drastic action is necessary for the welfare of the Klamath tribe."

It was especially brought out at the meeting that the movement of livestock across, into or off the reservation without government permit in advance will be vigorously prosecuted in the future, according to Superintendent B. G. Courtright.

PLASMA SAVES LIFE OF STABBED SOLDIER

PORTLAND, July 26 (AP)—An American soldier who was bayonetted 11 times by Japanese and used as a dining table while the Nips gorged on captured rations, was saved by blood plasma, George L. Moorad reported here.

The Portland-born newspaperman, back from the New Guinea front as an American Red Cross public relations representative, told an interviewer yesterday how a band of hungry Japs stormed a command post.

"One poor devil was bayonetted 11 times and the the Japs used his body for a bench during the night while they gorged on rations found at the post. By some miracle the boy, a San Francisco Italian lad, still had a flicker of life in the morning when our side drove the Japs out. The doctors poured eight quarts of blood plasma into him. He recovered and is still on active duty."

Moorad added that Japanese air power "is just about shot" and that Oregon's 41st division is "getting in some pretty good licks."

Wake Island Hit, Says Tokyo Radio

By The Associated Press

A Tokyo dispatch broadcast by the Berlin radio said today eight B-24 Liberator bombers attacked Japanese-held Wake island early Sunday.

Two of the raiders were declared to have been brought down, against a loss of two Japanese fighter planes, one of which was credited with purposely crashing into one of the bombers to carry it to earth. The broadcast did not touch upon the damage aground.

(Presumably the planes were American-manned, although the report of the raid was not confirmed in U. S. announcements.)

MALIN WOMEN TO GIVE PIES AT BOND SALE

MALIN—There is a small feathered bit of feminity known as "Little Lady" that is going far in the contest for Captain Jack's sweetheart if residents of the Malin community have any say in the matter. And with the recent laurels that Malin won in the fighter plane campaign in the county, no one here even entertains a thought other than winning in this contest also.

"Little Lady" is black with a golden ruff. She is being loaned by Mrs. A. E. Street for the war bond sale in this community which is planned for Wednesday night, July 28, at the Broadway dance hall. The affair is to be sponsored by women's organizations of the community and the pie baking renown of the ladies will be put to a test that night. Slogan of the sale is "buy a bond and get a pie."

EIGHT CHARGED WITH TREASON FOR BROADCAST

WASHINGTON, July 26 (AP)—Eight Americans, including two women, who have broadcast regularly from Germany and Italy in behalf of the axis war effort, were indicted today for treason, and Attorney General Biddle said they would be brought to trial when caught.

The indictments, involving a charge which carries the death penalty, were returned before Federal District Judge James W. Morris in the District of Columbia as the culmination of many month's of preparation by the justice department.

The indictments are similar, each alleging that the defendant named aided this country's enemies by repeated broadcasts designed "to persuade citizens of the United States to decline to support the United States in the conduct of the war."

Seven of those charged have been broadcasting from Germany, one from Italy. Six are native Americans, the other two are naturalized Americans of German birth.

The defendants, with a summary of their backgrounds as outlined by the justice department, are:

Ezra Pound, 57, a native of Hailey, Ida., educated in the east and a former resident of New York City; a poet and writer who has lived in England, France and Italy since 1911; only one of the group who broadcasts from Italy.

Douglas Chandler, 54, a native of Chicago who was reared in Boston; served in the United States navy; worked as a reporter in Baltimore; entered the advertising and later the brokerage business in New York; has been in Europe since 1930; broadcast from Germany as "Paul Revere."

Edward Leo Delany, 57, born in Olney, Ill.; for many years a bit player in stock companies, motion pictures and musical comedies; went to Europe in 1939; known on the nazi radio as "E. D. Ward" before his broadcasts were stopped in June, 1942.

Constance Drexel, 48, a native of Darmstadt, Germany, who acquired citizenship through her father's naturalization when she was four years old; grew up in Roslindale, Mass., worked as a reporter in Boston, went to Europe as a correspondent in 1915, later working for newspapers in this country; worked on a WPA writer's project in Philadelphia, which she claims as her home.

Jane Anderson, 50, born at Atlanta, went to New York City at the age of 16 and then to London, where she worked as a reporter; was saved from death by the intercession of the United States' state department after being arrested as a spy by the Spanish loyalists; her nazi broadcasts ceased in April, 1942.

Max Otto Koischwitz, 41, a native of Germany who was educated there and in France; went to New York in 1925, taught German at Columbia university, transferred to the Hunter college faculty in 1931 and became a citizen through naturalization in 1935; he is known as "O. K." on nazi broadcasts.

CORVALLIS, July 26 (AP)—Funeral arrangements were being made here today for George R. Hyslop, 58, widely known Oregon State college agriculturist who died in Klamath Falls Saturday after collapsing at a hotel.

KENO GROUP ENTERS HEN IN CONTEST

KENO—Keno has an entrant in the "sweetheart" contest of the bond drive, Pocahontas, owned by Ethel Puckett. She was loaned to the sponsors of the contest for the purpose of raising bond funds.

Pocahontas is a royal-blooded little bantam hen, a Mille Fleur, of Belgian descent. She is arrayed in a gown speckled with gold, black and white, and carries a fan-shaped muff on each leg of the same design as her gown.

Mrs. Guy Moore is Keno's chairman in this contest and bond drive and has revealed that she has promises of a number of bonds to turn in for Keno's credit. However, Mrs. Moore does not have time for much bond campaigning, and people of Keno can understand why, since her son, Staff Sergeant Ray R. Cryderman, whom she had not seen for more than a year, gave her a surprise Tuesday evening when he arrived from overseas for a stay of almost a month. Keno must rally round and do itself proud in this contest in order to give Mrs. Moore the extra time she certainly deserves for visiting with her soldier son. And Keno will not fail to do its part.
