

READJUSTMENT PLAN OKAYED BY PRESIDENT

WASHINGTON, July 30 (AP)—President Roosevelt released today, with his approval as to its general objectives, a report on demobilization and readjustment in the post-war period, which proposed among other things that service men be given three months' furlough at base pay, but not to exceed \$100 a month. Plus family allowances.

The report was drafted by a conference which Mr. Roosevelt established on post-war readjustment of civilian and military personnel and was made through the now defunct national resources planning board.

The report gave strong emphasis to the need for rapid conversion of industry to a peace time basis, while providing full employment. And it recognized that the bulk of employment should be supplied by private industry, with industry and the government each helping in its proper sphere.

The conference proposed a central administrative agency to be set up to handle the post-war demobilization program.

The committee's recommendations followed in a general manner the six-point program for servicemen which the president outlined in his address Wednesday, but it went into greater detail.

FOR WET BLANKETS POST-WAR PLANNERS

WASHINGTON, July 30 (AP)—President Roosevelt may have tossed a wet blanket over the fire some senators are attempting to build under congress to force attention on a declaration of post war intentions.

That was the interpretation placed today in some quarters on a paragraph of the president's Wednesday night radio address in which he said the United Nations are agreed this is not the time "to engage in an international discussion of all the terms of peace and all the details of the future."

The president said the United Nations are substantially agreed on the general objectives for the post war world and Senator Taft (R-Ohio) said he looked upon this statement as expressing indirect presidential disapproval of a resolution offered by Senators Ball (R-Minn.), Burton (R-Ohio), Hatch (D-N.M.) and Hill (D-Ala.).

LEGAL NOTICES

NOTICE OF EXPIRATION OF PERIOD OF REDEMPTION

Notice is hereby given that the period of redemption for the redeeming of real properties ordered sold to Klamath County under that certain judgment in tax foreclosure made and entered August 15, 1942, in that certain foreclosure suit entitled County of Klamath, State of Oregon, a public corporation, Plaintiff, vs. Emily Anderson, et al., Defendants, No. F 370, will expire on the 15th day of August, 1943, and all persons are hereby warned that all properties ordered sold under said judgment and decree, unless sooner redeemed, will be deeded to Klamath County on August 16, 1943, and that every right or interest of any person in or to any or all of the properties mentioned in said judgment and decree will be forfeited to Klamath County, Oregon.

Dated this 30th day of July, 1943.

L. L. LOW, Sheriff and Tax Collector, Klamath County, Oregon. Jy. 30; A. 6—No. 278.

Mrs. Brixner Tells of Lake George BPW Board Meeting

Highlights of the board meeting of the National Federation of Business and Professional Women's organization held at Lake George in northern New York July 8-15, were told by Isabelle Brixner upon her return home.

Mrs. Brixner, who is county school supervisor here and who was elected state president of the BPW in May, was the Oregon delegate to the national meeting. Forty-eight state presidents were present and several national officials of the club, besides the speakers.

One of the most outstanding, according to Mrs. Brixner, was Josephine Schain, former chairman of the national committee on the cause and cure of war and a member of the international food conference at Hot Springs.

Said Miss Schain, "The price Americans will have to pay for staying off a third world war is that of shouldering the problems and responsibilities entailed in building world organization." In another part of the talk she stated, "The way is complex and tangled. Not alone war, but revolution, confronts the world. In parts of the world huge masses of people are awakening and demanding not

alone political but economic rights."

Included on the program was a session on the problem of equal pay for both men and women for comparable work. A talk on "Industries Part in Winning the Peace" which explained post-war planning by large industries, was another highlight, Mrs. Brixner said.

A good deal of time at the meeting was spent in discussing the BPW national war project, that of the support of Chinese nurses.

At present China has the fewest medical people per capita of any of the armed forces in the world, it was learned, though now Madame Chiang Kai-shek has organized nurses' training in that country.

\$7750 has been sent by different BPW clubs so far, and even this has been a great help as only \$25 in American money will pay the cost of training one nurse, \$50 will support one nurse for a year and \$150 will pay an instructor for one year.

Many other noteworthy topics were brought up during the meetings, most of which were of national interest, Mrs. Brixner said. Before her return home last Saturday, she visited in New York, Minnesota and Washington.

Buying Bonds Will Halt "Bronx Cheer" From Axis

By JEAN YOUNG Scepticist Club

On the first meatless day, the patrons in a local restaurant were trying to look cheerfully at their macaroni and cheese. No one complained until a truckload of yearling calves drew up outside and was left there, the calves bawling loudly.

It was all right, the diners felt, to be deprived of meat, but it was laying it on a bit thick to have the meat giving them the Bronx cheer from the side lines.

At present, we all feel that the axis armies are "our meat," but unless we buy our share of bonds it is possible that this "meat" will be giving us the Bronx cheer.

The other night many of us saw two bombers flying extremely low over the city. The next morning, an acquaintance of mine remarked, "I wonder

how we would have felt had we suddenly discovered that they were axis planes."

That is what happened at Pearl Harbor and it COULD HAPPEN HERE! Resolve now, "This time I am DETERMINED to buy more bonds!"

Overheated Bearings Cause Truck Fire

Overheated bearings in a Kenworth truck owned by Stanley Will of Corvallis caused a fire which called the fire department out at 5:07 Thursday afternoon. The truck was at Sixth and Main streets at the time of the fire.

The truck was operated by the Los Angeles and Seattle Express company.

A. H. FITCH NAMED STATE SUPERVISOR

A. H. Fitch, supervisor of vocational education at Klamath Union high school since the fall of 1941, has been named as state supervisor for vocational education, it was announced today. Mr. and Mrs. Fitch will move to Salem about August 1 to take over his new duties.

Clem Clark, now supervisor of the Oregon district, will go on to a position as supervisor of the Oregon and Washington system. Clark was formerly supervisor at KUHS before he received his promotion.

Leroy Erdmann will be recommended for the position vacated by Fitch. The matter will be presented to the school board at their meeting on August 5.

CONSUMER'S CREDIT CHANGES OWNERSHIP

P. A. Everett, manager of the Commercial Finance corporation, today announced the purchase by his firm of Consumer's Credit company.

Negotiations have been under way for some time and the announcement coincided with the moving of the Consumer Credit business office from their location at Seventh and Pine streets to the office of the Commercial Finance company at 116 South Eighth street.

"This is a further indication of our confidence in this community," said Everett, "and we will continue to do our best to merit the good will of the people here."

Garment Prices to Be Lowered by OPA

PORTLAND, July 30 (AP)—Garment makers' prices are expected to be lowered under forthcoming OPA regulations, officials told Portland area manufacturers here yesterday. Leather and wool coats and jackets and other heavy outerwear will be affected.

In some species of shark, the eggs are hatched within the mother's body.

Helicopters In Prospect For Oregon

PORTLAND, July 30 (AP)—A prospect of helicopters to the beach—thirty minutes from Portland to the coast—today was suggested to vacationists marooned in slow-moving buses.

Complete post-war helicopter service, covering a dozen Oregon towns and possibly reaching to California, appeared possible as Pierce Auto Freight company applied to the civil aeronautics board for a permit.

President A. C. Pierce, Medford, an airplane fan, says he plans to fly passengers, mail, and freight over his sky route. He will order 5 helicopters to start.

Vacationists can, according to Pierce, helicopter to the coast or to Timberline. Regular freight and passenger routes will also be established between Portland, Salem, Albany, Corvallis, Eugene, Roseburg, Marshfield, Medford, Pendleton, Bend, Klamath Falls, Tillamook, La Grande, Baker and perhaps Redding, Calif.

Colored Barrels Aid in Phonograph Record Collection

In cooperation with the national drive for collection of old phonograph records, the local unit of the American Legion auxiliary has placed red, white and blue barrels at different points in the city for those wishing to contribute.

Boys in the service are making requests for all of the phonograph records that they can get and, in a letter to the defense division of the American Legion national headquarters from Sergeant William C. White of Camp Elliott, Calif., says that his marine paratroopers "claim to know that phonographs and records are a vital necessity."

Record barrels have been placed at the Red Cross headquarters, the Commando Center, Idella's store, Emil's grocery on Oregon avenue, the Esquire, Pelican, Tower and Pine Tree the ares.
