

COMMONS TOLD OF SHIP DEAL WITH STATES

LONDON, Aug. 3 (AP)—Prime Minister Churchill told the house of commons today that President Roosevelt has promised to turn over to Great Britain between 150 and 200 American-constructed ships on which work already has started.

A letter which the prime minister read in the house explained that the process of handing over the ships would be spread over a 10-month period.

Churchill also disclosed that the Canadian government was making similar arrangements concerning ships built in Canada.

He told commons this would absorb the reserves of trained seafaring population and the resources of both the United States and Britain would be "economically and providentially applied to the main purpose of the war."

Churchill's statement recalled a recent Washington announcement that some ships would be placed under the British flag because of a temporary shortage of ships' crews in the United States.

Churchill said there was no financial arrangement and that the matter would be dealt with by the usual method that things were used to a common advantage.

The letter disclosed that early in the war it was decided for the United States "to be the predominant cargo shipbuilding area for us both, while your country was to devote its facilities and resources principally to the construction of combat vessels."

Doughton Returns To Washington as Tax Talk Buzzes

WASHINGTON, Aug. 3 (AP)—Chairman Doughton (D-N.C.) of the tax-framing house ways and means committee cut short his vacation and returned to the capitol today amid renewed discussions for and against a sales tax as a source of extra money for the war effort.

Doughton came back from North Carolina earlier than he had expected to, anxious to check on the treasury's ideas for new and higher taxes to meet President Roosevelt's demands for \$12,000,000,000 more than now is collected.

turned from England on July 10 of this year and is home until August 16 when he is to report to duty in Salt Lake City. He has seen action in England and Africa. He is a graduate of Keno high school with the class of 1937 and been in the army air corps since October, 1941. He is the son of Mr. and Mrs. G. L. Moore of Keno. He and his wife, the former Bessie Puckett, are now living at the Cozy hotel in Klamath Falls. Cryderman is a gunner.

The Air Medal is given for five missions over enemy territory and the Oak Leaf cluster is given for every five missions after that.

Stephan Witness Escapes From Prison Camp Again

WINDSOR, Ont., Aug. 3 (AP)—Lt. Peter Krug, German aviator who previously escaped from a Canadian prison camp led to the conviction of treason of Max Stephan, Detroit restaurateur, has escaped again, and the possibility he swam across the Detroit river early today is being investigated by police on both sides of the border.

Krug escaped yesterday from an officers' prison camp at Gravenhurst, Ont.

Roosevelt's Seven-Point Proposal Told As Badoglio Stalls

(Continued From Page One) occupation of the peninsula was in full swing today, with the combined American, British and Canadian armies launching the final push to drive axis forces from the Sicilian northeastern triangle—an area no larger than Cape Bon, where the Germans and Italians met their final disaster in North Africa.

Badoglio apparently was striving feverishly to maintain his government at all costs—telling the Italian people on one hand that he is doing everything in his power to obtain a fair peace while issuing veiled threats of continued defiance for consumption abroad on the other hand.

Reports from neutral countries expressed doubt, however, as to just how much Badoglio could count on Italian military forces if he attempted to resist an allied invasion.

TROOPS PUSH TO EDGE OF MUNDA FIELD

(Continued From Page One) nese stronghold at Salamaua under artillery bombardment for the first time.

These new successes were recounted today in a communique which also told of a one-sided aerial victory over the Japanese, of the firing of an enemy destroyer, and of a heavy bombing of the Buna-Faisi harbor and the Kahili airdrome, the enemy's major operating base in the Solomons.

The Munda advance, a general movement along the whole line, took the Americans to within at least 1,400 yards of the airdrome. It may have carried them as close as 700 yards, for their last previously reported positions were within 1,900 yards of the airfield at one point. The communique said considerable quantities of materials were captured.

EDITORIALS ON NEWS

Our side neither confirms nor denies.

Why does DNB tell the story? Here is a slant:

Ley, the German labor front leader, says as to Hamburg's destruction: "There's nothing for Germany to do but to fight to the finish. The nation is bound inevitably to national socialism—wherever the party steers the ship of state, we must go. If it sinks, all must drown. There is NO escape."

HE'S telling the Germans, you see, that they're rats in a trap and HAVE to fight or be butchered. That's obviously the new Nazi propaganda line.

By pointing out hard terms to be imposed on Italy, Nazi DNB hopes to frighten the Germans into fighting to the death.

That's the only possible out for the Nazis.

ON our always disturbing, never very reassuring, home front, the Harlem riots subside. The harvest, as reported in today's dispatches, is five dead, 545 injured and property damage exceeding \$5,000,000.

If we read of such things in Germany, we'd be comforted immensely by the seeming prospect of impending break-up of our enemy. There will be similar comfort in the Harlem riots for the Germans, who aren't familiar with our peculiar political institutions such as stirring up class and race hatreds in the hope of snarling votes.

WE know that such activities by our vote-chasing demagogue politicians are back of these troubles in Harlem, Detroit and elsewhere, but unfortunately the Germans DON'T.

FATHER DRAFT EASES CRISIS IN INDUCTION

By The Associated Press WASHINGTON, Aug. 3—Only a handful of states can get through October without some drafting of pre-Pearl Harbor fathers now that selective service has lifted the ban against it, an unofficial survey indicated today.

Many states reported they were scraping the bottom of the manpower barrel and if they are to meet October quotas, fathers heretofore deferred for dependency reasons alone must go into uniform.

Draft headquarters authorities expressed regret that the step had to be taken, asserted every means would be exhausted first before general induction would proceed. None would predict however that men with families would still be civilians much after November 1, unless of course they were engaged in essential occupations, or farming, or local boards ruled their induction would bring severe hardship to their wives and children.

A number of states were unwilling to forecast the course of induction in their localities, pending clarifying orders from the national headquarters.

Manpower Commissioner Paul V. McNutt announced yesterday the lifting of the ban on induction of fathers whose children were born before September 15, 1942. He emphasized however that the local boards should call up fathers after October 1 only to the extent "absolutely required" to meet their quotas.

It was estimated that perhaps 300,000 family men actually would be inducted this year. To get this many into uniform, what with rejections, it probably would be necessary to send 450,000 to the induction centers. Married men still in civilian life average 30.5 years of age and the rejection rate was expected to be high.

Eight Thousand Klamath Cars Have Five-Dollar Sticker

Almost eight thousand cars in Klamath county now bear the \$5 auto use tax stamp, according to postoffice officials. The total number of stamps issued during the latter part of June and during July was 7897.

Fifty-eight stamps were sold yesterday to owners who have not used their cars during July or June, but who intend to use the cars in August and later. These stamps cost \$4.59, one-twelfth of the original cost being deducted.

Postoffice officials attributed the large number of August stamp sales to reports that office of internal revenue representatives are checking cars for violations. If cars are found to be without stamps, the owners must buy one, and may be fined for the violation.

Order Restored to Harlem District

NEW YORK, Aug. 3 (AP)—Order returned to New York's Harlem today but authorities remained on the alert to prevent a possible recurrence of yesterday's rioting which left in its wake five persons dead, 545 injured, 509 arrests and an estimated \$5,000,000 in property damage.

As 6000 police and 1500 members of the city patrol corps patrolled the streets only a few isolated disturbances were reported last night in the heavily-populated negro section there.

U. S. FORCES GRAB TROINA IN NEW DRIVE

(Continued From Page One) said had cost the Germans many dead.

Fight Raging Fighting between the Germans and the American troops of Lt. Gen. George S. Patton, Jr., was reported raging on from Capizzi and Cerami to within five miles of the strategic inland road junction of Troina, between the sea and Mount Etna 20 miles southeast of American-held San Stefano.

(Prime Minister Churchill told the house of commons that the American seventh army was reported to have entered Troina yesterday evening.)

Canadians and British manning the bridgehead north of the Dittano fought the new 15th German armored division—successor of the 15th which was lost in Tunisia—in the area of Catenuova, on the north bank of the river five miles south of Regalbuto and 22 miles west of Catania. The struggle was fierce.

The seizure of Regalbuto gave the mixed Canadian and British left wing of the eighth army command of the crucial angle of the Mount Etna line where it guards the western Catania plain.

No Information No information was given by official sources on the progress of British attacks across the plain. British artillery batteries, however, were reported to have outshot the German guns defending the southern approaches to Catania on the coast.

(The fall of Centuripe, five miles southwest of Regalbuto, to the eighth army was announced by Churchill in his house of commons talk.

FIFTY MORE TOWNS FALL TO RED PUSH

(Continued From Page One) nounced in a special communique tonight.

The red army overran more than 80 additional populated places on today's advances, the bulletin said.

Stop Drive The Russians said that the German offensive in the Donets basin southeast of the Orel front had been halted because of heavy casualties to the invaders.

LONDON, Aug. 3 (AP)—International information bureau, a Germany propaganda agency, said in a broadcast from Berlin tonight that the red army had made a "temporary breach" in "heavy and swaying battles" south of Orel in an effort to break through to Bryansk.

"In a violent counterattack German troops dislodged the Russians from two dominating heights and thus effectively nullified the breach," the broadcast said.

It added that the Germans "completely annihilated a soviet army" in a four-day battle in the Taganrog sector bordering the Sea of Azov.

MOSCOW, Aug. 3 (AP)—The Red Star reported today that the soviet army has captured two main roads leading from Bolkhov south to Orel and south-west to Karachev threatening the German communications with Bryansk and leaving them only one unmenaced highway from the base southwest to Dmitrovsk.

(A clarification of German broadcasts last night in which the Germans seemingly admitted a Russian penetration into southwest Orel proper was contained in today's German communique. It said fresh, strong Russian infantry, tank and air forces attempted to break through "southwest of Orel" but were warded off by "heroically fighting" German troops. Ground temporarily lost was regained, the communique said.)

NEWELL WRA PROJECT TO BE ENLARGED

(Continued From Page One) miteemen are expected to consider on Wednesday suggestions for a policy to urge upon the government authorities.

It was pointed out that the time of the expected work at Newell coincides with the heavy demand for farm and harvest help in the Klamath basin.

Jap Help Suggested It was suggested that Japanese labor be used in constructing the facilities. If that is not done, outside labor should be brought here in order to avoid further labor shortages in the basin, it was asserted. Another suggestion was that the work schedule should be held to eight hours a day, to avoid the huge weekly paychecks that characterized the original construction program and disturbed the local labor supply where eight-hour schedules were in force.

TEN-YEAR-OLD BOY DROWNS IN CANAL

(Continued From Page One) according to investigating officers who recovered his body a mile downstream at 8 a. m. Tuesday.

Gives Alarm Another boy, Grant Withers, 1945 Orchard street, was playing on the opposite side of the canal and gave the alarm. Two or three other people were reported to have witnessed the tragedy. City police, special police and the sheriff's officers responded, and dragging for the body began, using the sheriff's office equipment.

The victim is the son of Mrs. Lena Jackson, 2221 Orchard street, an employe of the Weyerhaeuser Timber company. Beside the mother, a sister, Gloria, survives.

The family moved here from Utah in 1939. Eugene's father was killed in a logging accident near here about four years ago. The body is at Ward's.

Jewish Return to Palestine Predicted

PORTLAND, Aug. 3 (AP)—Judge Lewis E. Levinthal, president of the Zionist Organization of America, predicted today that soon after the war 2,000,000 Jewish refugees will live in Palestine.

"If this occurs," he said in an interview, "it will mean that the settlement problem of most of the world's homeless Jews will have been solved."
