MARKET GIVES GROUND UNDER DECLINE TREND

By VICTOR EUBANK
NEW YORK, Aug. 6 (AP)—The stock market gave a little more ground today, widespread fractional losses and a few larger declines continuing Thursday's slow decline. The lowered prices failed to attract buyers or to stimulate offerings and that tape idled intermittently. Volume amounted to around 600,000 shares for one of the lowest totals of the year for a full session.

Under water most of the day were American Telephone which had rough going, Santa Fe, New York Central, Southern Pacific, U. S. Steel, Bethlehem, Chrysler, General Motors, U. S. Rubber, Montgomery Ward, DuPont, Union Carbide, Dow Chemical, Standard Oil (N.J.), Texas Co. and United Aircraft.

Warm Weather Ripens Winter Grain

By The Associated Press
Most of the state's grain producing areas reported good yields in the winter grain harvest, while warm weather during the week ending August 3 continued ripening both winter and early spring grains.

Temperatures ranged widely, from a top 108 degrees in Maupin to a low of 35 in Madras. Only light rains, confined to small areas, were reported by the U. S. department of commerce and weather bureau.

WHEAT

CHICAGO, Aug. 6 (AP)—Milling interests, local traders and commission houses bought wheat today and prices advanced about a cent in a market which moved steadily higher throughout the sessions. Trade was more active than it had been on previous days this week.

Commodity credit corporation buying of cash wheat, strength at Winnipeg and Kansas City and reports government feed wheat sales this year may total 300,000,000 bushels, or 50,000,000 more than originally expected, gave the market support.

Oats and rye lagged behind the bread cereal.

At the close wheat was 1-1c higher, September \$1.45 1/2, December \$1.47-1/2, oats were 1-1c lower, September 70c, and rye was down 1-1c, September \$1.02-1/2.

Tulelake

Word has been received here by the guild of the Tulelake Community church that Mrs. Olive Moore, resident of Tulelake who submitted several weeks ago to amputation of a leg in a Yreka hospital, is able to be up part of the time on crutches. The Guild has remembered her frequently with letters and cards.

Miss May Hurt, principal of Lincoln school at Camp Newell, has returned recently from Los Angeles where she spent a short vacation.

Marvin Cross left this week for Chico where he will meet his son, George Cross, who for the past year has been serving in the navy air corps in the Aleutian area.

Miss Lura Haynes, daughter of Mr. and Mrs. Otto Haynes, is recovering at Klamath Valley hospital from a recent appendectomy. She was visited this week by Phyllis Snyder and Marjorie Larson.

Dave Anderson, brother of Sam Anderson, who during the summer has assisted with ranch work on his brother's farm, has returned to Sioux City, Ia., where he will teach.

New Pine Creek

Despite late spring frosts the local fruit crop has been for the most part better than was expected. The Aldridge cherry orchard has produced at least a two-thirds crop. Earl Butler will have some peaches to sell and has sold quite a few raspberries, and the Collins ranch will have some apples, but not as many as usual.

The raspberry patches have produced abundantly this season and there will be a few apricots. Raspberries have been selling for around \$2.50 a crate for early orders and cherries for 90 cents a gallon. Frank Alexander has sold several tons of rhubarb and over 100 crates of raspberries on orders. All gardens look good and many are producing peas for home use as well as lots of onions, radishes, carrots and turnips.

Home canners have been able to get plenty of quart jars for their victory garden produce, but pint jars seem to be a little difficult to obtain.

FRANKIE MASTERS
Frankie Masters will bring his orchestra to the Klamath armory August 9 to thrill Klamath Falls dancers with his music. Masters spent many years in the Balaban and Katz Chicago theatres as stage conductor, singer and master of ceremonies, creating a fund of experience to draw on for his performances. Novelty choral numbers, instrumental solos, vocals by Phyllis Myles and Masters are blended to highlight the program.

Nation's Convicts Aid on Home Front Production Line

By HOWARD FLIEGER
WASHINGTON, Aug. 6 (AP)—The nation's convicts are in this war, too—on the home front production line.

Once-idle prisoners are working overtime making everything from bedding to assault boats for the armed forces, everything, almost, except guns.

Nearly 30,000 prisoners are working on government contracts in 47 states and production already is at a \$20,000,000 a year clip.

Today only Utah is without a war contract, largely because of its small prison population. In the other states, convicts are laundering uniforms, repairing shoes and making shirts—3,000,000 of them for the navy, for instance. They manufacture navy rope, cargo nets, bagging for sandbags, armament parts and a host of other fighting equipment.

Moreover, prison canneries are expected to put up \$8,000,000 in fruits and vegetables for institutional use this year, said Maj. W. H. Burke, head of WPP's prison prisoners are salvaging war-precious metals from scrap.

Now, with prison populations dwindling, the government is looking to the time when today's inmates will go free into a nation geared to war production. It is helping state penitentiaries set up vocational courses, to teach war skills to untrained convicts.

Change of Venue Denied Layton
DALLAS, Aug. 6 (AP)—Richard Henry Layton, Independence, charged with first degree murder in the rape-slaying of Ruth Hildebrand, Dallas, must stand trial in Polk county.

Circuit Judge Arlie G. Walker denied yesterday Layton's motion for a change of venue. Walker said he was convinced the former Monmouth policeman could obtain a fair trial in Polk county.

The court, however, granted a defense motion for additional time, postponing the trial's opening one week to August 16.

Naval Circles Optimistic Over Possible Destruction, Capture of Italian Fleet

By JOHN M. HIGHTOWER
WASHINGTON, Aug. 6 (AP)—There is growing optimism in naval circles here that the allies can count with reasonable certainty on capturing or destroying at least the major portion of Italy's hapless fleet, possibly soon.

What becomes of the Italian fleet is of almost interest to military and naval authorities here because of the effect it is bound to have on the war against Japan.

The final crushing of Italy, if it entails the surrender of the axis Mediterranean naval force, will facilitate greatly the organization of amphibious forces for an assault on Burma this fall.

Warships have been held in the Mediterranean against the possibility that the Italians might reverse their "fleet-in-being" strategy and send their warships against allied convoys or landing forces.

At present the Italians should be able to muster about half a dozen battleships, somewhat less than a dozen cruisers, a maximum of 100 destroyers of which about half are Corvette types, and some 70 submarines.

The vessels in service, plus several cruisers in various stages of damage, were mostly based on Spezia and Taranto when the present allied offensive against Italy began. Spezia is on the northwest Italian coast, opposite Corsica, and Taranto is in the step of the boot.

There have been reports from neutral countries that the naval units at Taranto were moved into the Adriatic. If that is true, the Germans might have a chance of gaining control of them should Italy surrender.

On the other hand there is little likelihood that the units based on Spezia would fall under German domination with allied naval and airpower in the

WAR KITCHEN

IS HEAT-WAVE PICK-UP
By Geynor Maddox
Tall glasses of chilled fruit juices combined with sparkling water or with plain syrup, belong in the hot weather picture. They make healthful "pick-me-ups"—the fruit adds vitamins and the sugar gives a spurt of energy which overcomes the middle-of-the-afternoon sag. Try grapefruit juice—the unsweetened variety in large cans is a good budget buy now—with grapejuice, prune juice, tomato juice or with the strained juice from stewed fruit. Chill and serve.

Here are sparkling fruit drinks most everyone likes.

Sparkling Raspberry Nectar (Serves 4)
One cup raspberry syrup, 1 cup lemon juice, ice cubes, sparkling water.

Combine the raspberry syrup, lemon juice and sparkling water. Pour into tall glasses filled with ice cubes.

To make 1 1/2 cups raspberry syrup, wash a pint of raspberries, crush, heat with 2 table-spoons water and strain. To each cup of juice, add one cup of sugar. Stir until sugar is dissolved. Let come to a boil and skim. Pour into sterilized bottle and store in refrigerator.

Lime and Lemon Sparkle (Serves 4)
One-half cup lime juice, 1-3 cup lemon juice, 1/2 cup sugar syrup, ice cubes, sparkling water.

Combine the fruit juices and syrup. Pour into tall glasses containing ice cubes and fill the glasses with sparkling water. Cherries, strawberries or raspberries make an attractive garnish for these drinks.

To make about a cup of sugar syrup, heat 1 cup water and 1 1/2 cups sugar to boiling point. Cover and boil 5 minutes without stirring. Pour into clean, hot jar, cover and store in refrigerator for use in beverages.

TOMORROW'S MENU (Eat the Basic 7 Every Day)
BREAKFAST: Sliced oranges, French toast, syrup or honey, coffee, milk.
LUNCH: Cream of potato soup with chopped crisp bacon, whole wheat bread, fortified margarine, green salad, cookies, lime and lemon sparkle, milk.
DINNER: Pork shoulder chops, apple sauce, boiled potatoes, corn on cob, fortified margarine, enriched bread, romaine salad, cherry roll, coffee, milk.
Grapefruit is one of the Basic Seven Foods.
