## NOW SHE SHOPS "CASH AND CARRY"

Without Painful Backache Many sufferers relieve nagging backache quickly, once they discover that the real cause of their trouble may be tired kidneys. The kidneys are Nature's chief way of taking the excess acids and waste out of the blood. They help most people pass about 3 pints a day. When disorder of kidney function permits poisonous matter to remain in your blood, it may cause nagging backache, rheumatic pains, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness. Frequent or scanty passages with smarting and burning sometimes shows there is something wrong with your kidneys or bladder. Don't wait! Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help the miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

diplomats and a general or so for the comparatively few days necessary. Common sense tells us that Stalin hasn't been represented at these meetings for the plain and simple reason that he doesn't WANT to be.

**WE** wonder why. The most obvious explanation is that he wants to keep himself clear of ALL commitments and in order to do it is determinedly playing a lone hand in his war with Germany.

**(YOU)** can safely make a mental note to the effect that Russia's long-standing ambition to possess Istanbul and the Dardanelles has something to do with this policy. BRITAIN has more than once been instrumental in thwarting that ambition. Stalin is probably taking no chances of entanglement this time.

**THERE'S** obvious fear here and in England that Russia will be TOO POWERFUL in Europe when the time comes to make the peace.

This writer, as one lone and unimportant individual who has spent perhaps too much time reading in history books, isn't too badly scared of that.

Russia can't possibly do a much WORSE job of fixing things up in Europe after this war finally ends than the western nations have done in the past.

**BERN** (Switzerland) says today the Germans have halted

shipments of all types to Italy. (Evidently thinking they're strong enough there now for whatever they'll have to meet.)

They're moving, the Bern dispatch adds, artillery and infantry units from the French-Spanish frontier to Bordeaux and Toulouse in southwestern France. (Anticipating, one presumes, that we may be getting ready to strike there.)

A London financial news report today asserts that the allies now have FOR THE FIRST TIME a surplus of shipping. It takes shipping to land armies in Europe.

## INSTITUTIONS MAY APPLY FOR FOOD

Institutional users of food may apply for their September and October allotments after August 15, the war price and rationing board said today.

The users are required to report the number of persons served during June and July and the amount of gross sales.

Any users in need of points immediately should apply to the board as soon as possible and their needs will be taken care of immediately.

**Most Meteorites in Kansas**—Kansas leads the world in stony meteorites. One-sixth of the world's known stony meteorites, which were not seen to fall, have been found within the boundaries of this state.
