## Burns Banker Suicide, Note Tells of Shortage

**PORTLAND, Aug. 14 (AP)**—A bank examiner testified in federal court yesterday that Edward N. Brown, vice-president of the Harney County Bank at Burns, committed suicide and left a note reading, "The shortages . . . are solely my own doing."  
The examiner, J. T. Rummel, said the shortages presently were uncovered. Earlier testimony fixed them at \$388,669. This ended testimony in a suit by Brown's mother to collect on two \$10,000 life insurance policies. The federal Deposit Insurance corporation contests that Brown paid for the policies with bank funds. Additional briefs are to be filed in the suit next month.

## OIL USERS TO GET MORE FOR THIS WINTER

**WASHINGTON, Aug. 14 (AP)**—Fuel oil users in Washington, Oregon and the rationed counties of Idaho will be able to renew their rationing by mail and many home owners will get increased allotments, the office of price administration said today.  
Similar action already has been taken in the eastern and midwestern states. Under the renewal plan, the applicants are mailed a form which they can fill out and return to their war price and rationing board to obtain coupons.

By an adjustment in formulas of figuring allowances, most small home owners will get from 1 to 20 per cent more fuel oils this year than last, the OPA said. No specific figures were made public.

Some large home owners also will benefit, under a plan whereby maximum floor area allowance per person is raised to aid those who had rations severely curtailed last year.

Last year, OPA explained the maximum amount of floor space that could be heated for one person in any home was 2000 square feet. This has been raised to 3000 square feet. Last year for two persons it was 2600 square feet and 300 additional square feet for each extra person. This year it will be 3600 for two persons, and 300 square feet additional for each extra person.

In order to supply for summer-fillups in the northwestern states, OPA last spring permitted householders to draw up to 45 per cent of the amount of fuel issued them in last year's ration. Coupons to be issued now will represent the remainder of each applicant's total.

## Lakeview

Bitten by a deer fly while at work on the Carlon brothers' ranch at Summer lake, Jess J. Redding of Bend, died at the Lakeview hospital Monday. He was brought to the hospital after the effects of the bite, and his condition grew worse late last week.

With no reports available from the outlying Lake county districts, the city of Lakeview last Saturday on Molly Pitcher Tag day sold \$569.40 in stamps, according to the postoffice sales records. Twenty girls, costumed after the fashion of Molly Pitcher of Revolutionary war days, took part in this activity. These girls were all members of the Junior auxiliary of the Junior Red Cross.

L. Tremayne of Las Vegas, Nev., has purchased the Dave Bryan ranch near Paisley. The ranch, consisting of approximately 3000 acres is located in the Clover Flats area. The purchase was not made known.

## TRoubles Over

**NEW YORK, Aug. 14 (AP)**—No longer will Chief, Dalmatian dog-mascot of Fire Engine company 20, fall off the truck and have to run the rest of the way to a fire.

Chief bounced off the truck so many times that firemen built a special cab on the running-board to keep the dog on the truck.

## DIESEL FUELS

Peanut, cottonseed, and palm oil have been found suitable for fuel in diesel-motored trucks, and tests indicate such vehicles may burn these oils if mineral oil is not readily available.

## Sought

Murray to "see Hollywood" the night before her mutilated body was found on a Los Angeles golf course, provided police with a new clue to the murder mystery. Mrs. Murray's sister, Mrs. Larona Leinann, made the identification.

## CAA ALLOTS MORE MONEY TO LAKE PORT

**LAKEVIEW**—According to Mayor D. E. DeArmond we are informed today that the civil aeronautics commission has allotted an additional \$24,500 for the new Lakeview airport, bringing the total allotment received for the project to \$543,821.61. The latest funds allotted to the project will be used for drainage purposes, according to Mayor DeArmond. The new airport will be given considerable use this winter when the navy department conducts aerial gunnery practice on proposed ranges in the county.

At least two possible plane crashes were averted here this year already because of the new airport. Several months ago a bomber landed safely by moonlight and with the aid of ear lights, after the crew had become lost on a flight from Nevada to California. Previous to that, a bomber was brought to a safe landing after motor troubles developed. The crew was set to bail out when they spotted the airport.

## TEACHER LACK MAKES OREGON SCHOOLS CLOSE

**PORTLAND, Aug. 14 (AP)**—Rural sections of Oregon are threatened with numerous school closures this fall because of a shortage of 515 teachers.

So announced Rex Putnam, state superintendent of public instruction, yesterday. He said that in addition to the 88 schools that closed last year, 107 may be unable to resume after summer vacation.

Putnam said the closures would leave many students without school facilities, since distances would be too great to transfer to other schools.

Putnam predicted Union county in eastern Oregon would be hardest hit. He said 18 schools may close there. The situation in other counties, as listed in a report by Putnam:  
Baker, 17 teachers needed, 3 schools may close; Benton, 18 teachers, 5 schools may close; Clackamas, 36 teachers, 6 may close; Douglas, 33 teachers, 9 may close; Josephine, 20 teachers, 3 may close; Klamath, 10 teachers, 2 may close; Lake, 3 teachers, no closures; Lane, 25 teachers, 4 may close; Lincoln, 6 teachers, no closures; Linn, 30 teachers, no closures; Marion, 26 teachers, 6 may close; Polk, 5 teachers, no report; Wheeler, 12 teachers, 3 may close; Yamhill, 32 teachers, 5 may close.

## WHEAT

**CHICAGO, Aug. 14 (AP)**—Wheat moved within a narrow range in most of today's session after staging a short-lived upturn in the first few minutes of trading on buying inspired by trade reports the OPA was considering a revision in flour ceilings. Activity was on the usual small Saturday scale.

Moderate demand for flour was reported from the southwest, with chain bakers taking around 25,000 barrels. The commodity credit corporation was said to have purchased around 2,500,000 bushels of wheat since inaugurating its buying program in July. Oats slumped on northwestern selling and rye backed down after advancing almost a cent at the start.

All grains slumped at the close, generally finishing at the lowest levels of the day. Wheat closed 1-1/2c lower, September \$1.43-1.42, December \$1.44-1.43, oats were down 1-1/2c, September 67-1/2c, and rye was off 1-1/2c, September 98-95c.

### STEELS, RAILS EXTEND LATE RECOVERIES

**By VICTOR EUBANK**  
**NEW YORK, Aug. 14 (AP)**—Steels, rails and selected industrial managed to extend Friday's late recovery in today's brief stock market but many leaders continued to drift slightly lower.

Buying was far from impressive throughout and, with the ticker tape frequently at a standstill, transfers of around 250,000 shares were among the smallest for Saturday this year. Numerous issues were unchanged or failed to negotiate a single transaction.

Better performers in today's market included Santa Fe, Southern Pacific, Northern Pacific, Bethlehem, Chrysler, Montgomery Ward, International Telephone, J. C. Penney and International Harvester. Among occasional losers were Western Union, Texas Co., Standard Oil (N.J.), U. S. Rubber, General Motors, Westinghouse and Allied Chemical.

Bonds and commodities shifted over a slim course.
