PORTLAND, Aug. 16 (AP)—A scheduled observance to honor Japanese dead in a Portland cemetery was cancelled here yesterday after intervention by police.

The Portland chapter of the Fellowship of Reconciliation, which held religious and anti-war meetings before Pearl Harbor, scheduled the observance of "Bon Matsuri," a Japanese holiday honoring the dead, as a goodwill gesture to former Portland Japanese-Americans now in relocation centers.

Their attempt to enter the Portland Japanese cemetery was blocked, however, by members of the American Legion.

Deputy sheriffs were called out, and Sheriff Martin Pratt ordered the crowd to disperse.

Pratt said he feared a riot and warned fellowship members they would be arrested if they attempted to enter the cemetery, where nearly half of the 500 gravestones were tipped over recently.

Howard Willis, YMCA secretary and a fellowship member, protested, "These are not the same Japanese as we are fighting. . . . Many of them were American citizens."

# 11-Year Old Murder Solved by ex-Iowa Con's Confession

MARSHFIELD, Aug. 16 (AP)—District Attorney Ben C. Flaxel said Saturday an 11-year-old Iowa slaying had been solved by the confession of an ex-Iowa convict who surrendered to police here.

Flaxel said the man, identifying himself as Russell B. Garris, walked into the police station with the announcement he had waylaid a man named "Jessen" in Murray, Ia., robbed him of \$250 and left his body lying where it fell, across railroad tracks. A train passed before the body was discovered.

Garris said he had served a term in Iowa for auto theft, then went to Medford, where he lived until June, when he came to Marshfield as a baker, Flaxel added.

# GAS RATION CUT IN SOUTH, MIDDLE WEST

WASHINGTON, Aug. 16 (AP) Gasoline ration coupon values were cut to three gallons each in the middlewest and southwest today, scaling down toward the sharply restricted eastern rationing allotments, and a government spokesman let it be known that the west coast and Rocky mountain areas are not being overlooked.

Chester Bowles, general manager of the office of price administration (OPA) told the nation in a broadcast last night that the question of extending reduced rations throughout the country is being studied by Interior Secretary Ickes.

"However, as matters stand today," Bowles added, "it looks as though our reserve stocks on the west coast, and in the Rockies are sufficient to carry us along at the present rate, at least for the time being."

Bowles, who held out the hope of a slight increase for eastern motorists early in September, if they cooperate with the no-pleasure driving rule, said he was satisfied "that folks living in the remainder of the country would not want to see people living on the other side of the Rockies put to any inconvenience which is not absolutely necessary."

The Safety Council welcomes this decrease in the number of accidents but feels that with the smaller amount of traffic this year, the percentage of decrease should be considerably more, as other cities of comparable size throughout the state are showing a greater reduction in accidents than Klamath Falls.
