

**... Another Instance of the High Cost of WARTIME FOREST FIRES!
WILL YOU BE THE NEXT TO START A FOREST FIRE?**

FOREST FIRES destroy precious war material—billions of board feet of timber. They cripple watersheds on which industries depend for power. They endanger farm lands that grow food for freedom.

They also help the enemy much more directly!

Smoke from forest fires slows up training programs for pilots and bombardiers. It blinds offshore fliers on patrol. It makes many a "field day" for Axis submarines.

And fighting forest fires steals manpower we need in plants and on farms.

Here is ONE way to help shorten the war: PREVENT FOREST FIRES. Don't kid yourself that "good" people don't start them. They do—with vengeance. More than 200,000 forest fires every year.

So when you go into the woods, remember the four simple rules illustrated here. See that others in your party observe them. Remember: It's an awful feeling to know that you have helped the enemy.

ATTENTION BRUSH BURNERS

More than 6 million acres are burned yearly, because of YOUR careless use of fire in clearing

plow land and burning logging and other slash and debris. DO YOUR PART THIS YEAR!

REMEMBER:

1. Don't burn without a permit from a ranger or fire warden.
2. Don't burn during unusually hot, dry, or windy weather.
3. Scrape a trail or "plow around" areas to be burned.
4. Have help handy till the last spark is dead.

Cooperate with the
American Legion
And Its
"Stop Forest Fire"
Committee

— working to keep Klamath's forests growing.

Walt Wiesendanger, chairman Clarence Williams, Hal Ogle, Mac Epley, Ranger John Berginson.

REMEMBER THESE RULES:

Crush out your smoke

Drown your campfire — then bury it

Break your burned match

IF YOU BURN SLASH

First - get a permit
Last - kill every spark
