Garcelon's

If you've had a hard time finding the type of household brush you want, go to Garcelon's. . . . As Jane told me, they have every kind except toothbrushes and hair brushes.

There are pastry brushes. . . . Waffle iron brushes made of wire. . . . Percolator brushes. . . . Bottle brushes. . . . Clothes brushes. . . . And all kinds for scouring, vegetable cleaning, Venetian blinds and toilet bowls.

And dish mops, too. Prices range from 25c to \$1, depending upon the size. At Garcelon's.

Cal-Ore

When Brady Narey told me, early in June, that Cal-Ore was going to brighten up again, he said that the resumption of dinners and music was only an experiment. . . . If too few people came, Cal-Ore would close down again in a couple of months.

Well, if you've been at Cal-Ore at any time since the middle of June, you know what the situation is. . . . People are simply flocking there. . . . In fact, sometimes you wonder where they all come from!

There are good crowds all during the week, too. . . . So many people, in fact, that the Cal-Ore management soon decided it better have the orchestra every night instead of only a couple of times a week, as they started out after the reopening in June.

Of course, Monday nights there isn't an orchestra. . . . Because the musicians simply have to have one night off.

All this just proved what I've been saying for years. . . . That the people of the Klamath country really appreciate a nice place where they can have fun!

Moe's Millinery

HERE'S a good story I ran across at Moe's. . . . When Mr. Souther left for Los Angeles a month or so ago, he told Ann Lander of the Millinery Department that he hoped he would find someone there who handles Moe's line of hats, so he could order some. . . . But he said he didn't think he'd be that lucky.

While he was gone, the manufacturer's representative arrived at Moe's, and Ann joyfully ordered all the hats he would sell her.

At the same time, in Los Angeles, Mr. Souther found another manufacturer's representative for the same lines. . . . And ordered all the hats he would sell him.

Consequence: Moe's has the most wonderful selection of hats in town!

In fact, the Millinery Department there has twice as many hats as last year. . . . They've arrived early. . . . And, since early arrivals always are the best of the line, Moe's is sitting on top of the world.

Both Ann Lander and Mr. Souther could hardly wait to see each other to break the news that he or she had been able to secure a marvelous selection of Stetson hats, too. . . . Moe's never before has carried this famous line, but has a wide range of styles and colors to start out with because of the duplication of orders.

Stetson this year, by the way, has entered the dress hat field, instead of concentrating solely on sport and tailored styles. . . . And you ought to see the clever feather hats and all the other dress hats with the Stetson brand!

Moe's has Stetsons from \$5.95 to \$15, in all colors including black. . . . In the very finest of fur felt, of course, for which Stetson is noted.

The other lines are outstanding, too. . . . Shorlon and Beth hats, in dress styles, from \$5.95 to \$15. . . . In velvets, felts, feathers, etc. . . . And be sure to notice the "wild grape" shade, which was so popular last year that a repeat performance was called for. . . . It's a wonderful color to wear with fur coats.

When you are looking at the Leighton sport and spectator sport hats, be sure to ask about the two new types of berets. . . . With crocheted headbands that make these berets adjustable to all head sizes. . . . They come in Tish-u-Tex felt and all colors. At Moe's.

Whytal's

REALLY big shipment of Fall and Winter handbags was being unpacked at Whytal's when I dropped in Tuesday. . . . But just because this shipment is large is no reason to put off buying a bag. . . . My previous advice, to dash right down to a store as soon as you hear something has arrived, still holds good.

There are all kinds of handbags at Whytal's. . . . Most of them are too large to be called purses! . . . Leathers, real English broadcloths, Cordays, Corday trims, failles, felts (including reversible felts) and so on.

Included, too, are several different styles of those over-the-shoulder "Wac" bags. . . . And big "birdcage" bags that will hold everything, even your knitting.

Prices of these new bags run from \$2.50 to \$19.95.

And while I'm on the subject of Whytal's:

Have you seen the new corn jewelry there? . . . It's really made of corn, in fact handmade in Ardmore, Okla. . . . Sewn together with bright-colored yarn, on leather thongs. . . . The bracelets are \$1, the earrings \$1, and the necklaces \$2. At Whytal's.

Strangler Sought After Death of 13-Year-Old Girl

YUBA CITY, Calif., Aug. 19 (AP)—A stranger was sought today after the death of 13-year-old Jackie Hamilton who was found on a river bank, her clothing stripped from her body, and the marks of crushing fingers on her throat.

She died in the county hospital soon after she was found.

Two transients were being questioned, Sheriff A. W. Kimmer of Yolo county, said.

The girl, daughter of Mr. and Mrs. O. L. Hamilton of Tracy, apparently was raped by her assailant.

Currin's

WITH their supply of perfumes and colognes running shorter and shorter, both Thelma Davis and Vance Vaupel at Currin's are tickled pink over a new line that has just arrived. This is the "Audrey Louise."

It comes in five fragrances, some of them really nice, I think. . . . And Currin's has them in both toilet water and perfume.

Toilet water, insofar as I have ever been able to learn, is merely the big sister of cologne. . . . In other words, it's perfumed stronger than cologne. . . . And the fragrance lasts longer.

The "Audrey Louise" line comes attractively bottled. . . . The toilet water bottles even have metal tops, which is something that you don't see very often nowadays.

The perfumes range in price from \$1.50 to \$9.75, depending on the size of the flacon. . . . The toilet water comes in a four-ounce size and costs \$2.25.

If you haven't been able to get your favorite recently, why don't you drop in at Currin's and sniff the five "Audrey Louise" fragrances? . . . You are quite likely to find a dandy substitute!

California Legion Praises Russia

SAN FRANCISCO, Aug. 19 (AP)—The California American Legion today had praise for Russia's triumphs over Germany, but said this was not an endorsement of the American communist party.

Delegates to the Legion's state convention wound up the three-day meeting late yesterday with adoption of several resolutions, including one urging the hastening of deportation proceedings against Harry Bridges, CIO west coast longshore leader.

Price Support Will Assure Good Crops, Says WFA Man

MONROE, La., Aug. 19 (AP)—War Food Administrator Marvin Jones said Wednesday the best method of securing production of essential war food crops next year is to have a "support, or definite, price that would last throughout the production and harvesting season."

Such a price, he said, should be sufficient to cover not only normal costs but also the added risks and hazards, as well as the added equipment that is closely linked with increased production. At the same time he said it would be necessary to avoid "any undue burden on the consumer."

In a speech prepared for a meeting of the American Farm Bureau Federation, the food administrator said that a farm price support program would make it necessary for the government to "stand ready to purchase any surplus of the commodity that might not flow at the time into the regular channels of trade."

In some instances, Jones said, such purchases may involve resale at a loss to the government.

Jones' speech was the first official confirmation of an Associated Press dispatch from Washington last Wednesday, reporting that such a program is in the making.

"As to some commodities, it would be desirable," Jones said, "to license processors and handlers. I think it is altogether desirable that the existing processor and wholesale and retail facilities be utilized."

The food chief reiterated that there would be no restrictions on agricultural production.

Out popped a bankroll of \$1300 which was returned to the grateful Gordon.
