

RATION BOARD NEEDS MORE VOLUNTEERS

Beginning next week, the war price and rationing board will have an increased need for volunteer workers, especially those who are able to file or to work on canning sugar applications.

Volunteers should call the ration board, phone 8161, and leave their names and when they are able to work. They will be called when they are needed.

Working as volunteers at the ration board this week are Mrs. Arnold Gralapp, Mrs. Godfrey Johnson, Mrs. Harold Brown and Mrs. D. N. Clemens.

SWIMMING POOL CLOSED FRIDAY

Although it has been announced that the swimming pool would be open through Friday, August 20, Dave Bridge, city recreation director, says that because of necessary repairs, there will be no swimming classes on Friday. With the end of the swimming classes today, all phases of the summer recreation program are closed for another year. Total registration has been 1239.

The total attendance at the pool since July 7 has been 4657, an average of 150 a day. These numbers indicate the success of the project.

Those working at the pool this summer were instructors Jerry Clemens, Joe Peak, Mrs. Al Brandt and Jeannine Withers; secretary, Mrs. Eva Lovely; life guards, John Epley and Gene Hankens.

Wallace Corporation Criticism Aimed at Small Minority

WASHINGTON, Aug. 19 (AP)—Vice President Wallace declared today that his recent criticism of corporations was aimed only at the small minority.

He coupled a blessing for the profit system with an assertion that free enterprise must be preserved in the nation's postwar economic life.

Wallace called in newsmen to declare that a recent speech in Detroit, in which he accused some big corporations of monopolistic practices, had been "misunderstood and misinterpreted" as a general attack on the corporate form of business organization.

Police Break Axis Spy Ring in Brazil

SAO PAULO, Brazil, Aug. 19 (AP)—Police announced today the breaking of an axis spy ring which had an air-conditioned radio transmission headquarters beneath a trapdoor in a private home.

Authorities said the home was that of Werner Waltemath, and that others involved with him included the German Baron Hans von Kotve, arrested in Canada, and a Hungarian ballet dancer, Gabriela Lazlo, arrested here. A number of Germans and Japanese were accused of working with them.

112-Hour Work Week Completed by Tender

VANCOUVER, Wash., Aug. 19 (AP)—Robert Norvell, a pot tender at the Vancouver plant of the Aluminum Company of America, felt pretty chipper today despite the fact that he had just finished a 112-hour work week.

During the seven straight 16-hour shifts he handled enough of the metal to build nine modern fighter planes, W. J. Steinfeldt, potroom foreman, estimated.

Norvell's feat equals the record set in 1942 by Gus Sellberg, also a Vancouver Alcoa pot tender.

MANY NEVER SUSPECT CAUSE OF BACKACHES

This Old Treatment Often Brings Happy Relief

Many sufferers relieve nagging backache quickly, once they discover that the real cause of their trouble may be tired kidneys.

The kidneys are Nature's chief way of taking the excess acids and waste out of the blood. They help most people pass about 1 pint a day.

When diseased kidney function permits poisonous matter to remain in your blood, it may cause nagging backache, rheumatic pains, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness. Frequent or steady passages with smarting and burning sometimes show there is something wrong with your kidneys or bladder.

Don't wait! Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 15 miles of kidney tubes wash out poisonous waste from your blood. Get Doan's Pills.

U. S. Blood Saves Life on Rendova

(U. S. Navy Photo From NEA)

Somewhere in America a blood donor gave his pint to be turned into dried plasma at a Red Cross center. Somewhere on Rendova Island in the Solomons this same blood plasma saved the life of an American Marine as he received emergency transfusion at dressing station near the front, above. Your blood can save a life, too. Let yours be one of the 350,000 pints the Red Cross must collect every month.

Soui, Sea-Going Pig, Has Made Her Last Trip South

SAN FRANCISCO, Aug. 19 (AP)—Soui, the sea-going pig, has made her last voyage.

Born on a South Sea jungle island, the black and white pig spent most of her life aboard a transport ship as crew mascot. Cheerful, tidy and companionable, she made a fine ship pet. Jack Abramson, deck steward, said she contributed much to the high morale of the crew.

"Soui just got too big," Abramson mourned. "We hated to part with her but wartime tempo aboard left neither time nor food for her. The last few times we hit port many persons seemed to look on her more as a red ration point on the hoof than as a pet."

So Abramson gave her a last walk around the after deck, a ride in the ship elevator—her favorite recreation—and then turned her over to the butcher.

"The boys down south will miss her," he said. "She was known in every allied port in the South Pacific."

Prisoners of War Fight Forest Fires

SPOKANE, Aug. 19 (AP)—Interned German and Italian seamen have been helping fight a fire in the Nez Perce forest some 35 miles southeast of Grangeville, Ida., Bert Frazier, officer in charge of the Fort Missoula, Mont., internment camp, revealed last night.

The men had volunteered for the work and had "shown up very well," he said.

T. A. Lowary, fire dispatcher for the Nez Perce forest, reported

meanwhile that a crew of 300 men was "mopping up" after the blaze had been brought under control Tuesday night. The fire was set by lightning and burned 1600 acres of range land in which there was some white pine timber.

ODDITY

European storekeepers keep the tench, an edible fish, on their counters for as long as 24 hours. If unable to sell them then, they throw the fish back into the river and the fish swim away as alive as ever.

Oregon News Notes

By The Associated Press

Mrs. Ronald Endicott, Myrtle Point, drowned in Siltcoos lake when a sail boom knocked her into the water during a yachting party . . . Oscar V. Berg, 57, Astoria, died after being found beside a railroad track near Wainia with his right leg amputated below the knee. . . .

A peak power output of 1,033,000 kilowatts was generated by Bonneville and Grand Coulee dams Tuesday, Bonneville Administrator Paul J. Raver said at Portland. . . . George W. Clark, Sherwood, and Miriam Inglis, Gresham, were issued a marriage license at Portland. . . .

J. E. Bennett, former Portland city commissioner, announced his candidacy for the council vacancy caused by the death of Commissioner Ralph C. Clyde Sunday. . . . All first-class mail will go by air after the war. Postmaster E. T. Hedlund predicted at a meeting of aviation leaders in Portland.

Orville Wright, Now 72, Works on New Invention

DAYTON, O., Aug. 19 (AP)—Orville Wright, who with his brother invented the airplane, disclosed today—his 72nd birthday—that he was working on "an invention having to do with aviation."

He told reporters he had nothing more to say about the project. He works daily in his laboratory here.

Orville and Wilbur Wright were the first to fly in a heavier-than-air craft, sailing aloft from Kittyhawk, N. C., December 17, 1903. Wilbur died in 1912.

Only observance of Orville's birthday will be a family dinner tonight.

"CORNUCOPIA" ILLINOIS

Illinois embraces less than 2 per cent of the land area of the United States, but it has 6.1 per cent of the nation's population, 6.9 per cent of its wealth, 5.4 per cent of its improved farm land, 4.8 per cent of its railway mileage, 7.1 per cent of its bank resources, 8.1 per cent of its life insurance, 8.9 per cent of its telephones and 6.3 per cent of its motor vehicles.
