Beauty IS YOUR DUTY

By RITA WHISENANT
Licensed Cosmetologist

TIME and again I've heard a man rave and rant about woman's barbaric custom of painting her finger nails. When you analyze it, maybe he has just cause for complaint.

I'm not opposed to very brilliant hues, but there's quite a difference between selecting nail polish shades just because they are pretty and selecting those that are most flattering to YOUR hands.

EVERY one of Chen Yu's twenty-one shades is an original—different from any other nail polish shades—and created to be genuinely flattering to the tones in the human skin.

YOU may select them according to whim or costume with complete assurance that no matter which one you select, it will be flattering to your hands. Follow one simple rule: There are red-reds, brown-reds and blue-reds in the Chen Yu color range. Stick to your type, and all will be well.

WE have the full range of twenty-one. Come in and let me help you make a selection to fit YOU, from the Chen Yu color card in our cosmetic section.
