

SEABEES OPEN TO INDUCTION MENAGED DADS

Fathers who have been reclassified or have received notice to report for a preliminary physical examination will find it profitable to go to the Klamath Falls navy recruiting station immediately to investigate the opportunities offered by the navy's construction battalions (Seabees), it is revealed by Dan Schreiber, recruiter in charge of this district.

The Seabees urgently need thousands of men with skilled trades, and those who can qualify will be able to earn a substantial salary besides being able to continue working at something with which they are familiar.

However, Schreiber wishes to make it clear that men of draft age must make application for voluntary induction into the Seabees before receiving their induction notices.

Men in the 17-year and 38-504 classes, may volunteer at any time and may be taken in as unskilled workmen, according to Schreiber.

Construction experience, not military training, is the requirement for ratings in the Seabees. If a man knows his trade, he will be given a petty officer rating immediately upon enlistment. Ratings range up to chief petty officer, depending on the applicant's age and ability.

Red Cross Notes

NURSE'S AIDES

The Red Cross local chapter is now arranging to offer Nurse's Aide training, for which there have been many requests.

It is planned to start a class about October 1, and the instructor will be a qualified, registered nurse.

Volunteers chosen to take the training must meet personal, physical, and educational requirements and must agree to accept regulations concerning future service in the Volunteer Nurse's Aide corps.

The course consists of 80 hours training and the aide must give 150 hours hospital service within the next three months after the course is completed. Not later than the end of the first year of service, volunteers must take the Red Cross first aid course for civilian defense. If they have already taken this course they should take the 10-hour advanced course.

As a maximum of thirty volunteers is allowed for each class, if you are interested in taking this course please contact the Red Cross headquarters, 418 Main street, or call 7184 for information.

This is a most important service to your community under normal circumstances and to the nation in time of emergency. The emergency is here now. There is an acknowledged shortage of graduate nurses and a great and growing need for Nurse's Aides.

ESCAPE

CHICAGO (AP)—An 18-year-old negro prisoner awaiting fingerprinting at the detective bureau decided to escape.

He leaped from the fifth story window, landed uncomfortably close to the third rail on the "L" structure, climbed down a pillar, and dodged into a vacant lot.

Officers shortly afterward recaptured him, unhurt except for minor bruises.

WANT TO GIVE UP 'DOSING' FOR GOOD?

Try This Natural "Regulator" Food!

Don't lose hope, even if you've tried one harsh pill or cathartic after another, with no lasting relief! For many people there is a safe, pleasant way! One that doesn't prod your bowels—rob your system of water—or "sweep you out"! It's KELLOGG'S ALL-BRAN!

The secret, scientists say, is that KELLOGG'S ALL-BRAN "gets at" one big cause of common constipation—by supplying the cellulose elements needed for normal evacuation—should they be lacking in the diet. These elements assist the intestinal flora in lightening and fluffing up the contents of the colon, for easy, satisfactory elimination!

Eat KELLOGG'S ALL-BRAN regularly. Drink plenty of water. See if you, too, don't give up "dosing" for good! Remember, too—ALL-BRAN is amazingly nutritious! Each ounce contains more iron than two eggs, more phosphorus than a glass of milk! Insist on genuine ALL-BRAN, made only by Kellogg's in Battle Creek.

Loading a Long Tom for a Shot at Italy

Dark doings under the camouflage mean more destruction for Italy, as this U. S. gun crew in Sicily loads its Long Tom for a shot across the Messina Strait. These soldiers were the first to fire at the Italian mainland, but scores of big guns are now shelling the toe of Italy.

Japs Abandon Much Good Equipment in Kiska Flight

By NORMAN BELL

AN ADVANCED ALEUTIAN BASE, Sept. 2 (AP)—The Japanese who evacuated Kiska before the arrival of American and Canadian invasion forces apparently left with little but the clothes on their backs, a check of material left behind reveals.

Had the enemy fought with the weapons left on the island, the toll of American lives probably would have exceeded that of Attu. Kiska was five times as heavily fortified as Attu, which was taken in May after 20 days of bloody fighting.

Officers said the broad beach on the north of Kiska was so highly organized for defense that the American force which rushed ashore there unopposed August 15 might well have been repulsed.

The abandoned materials, including machine guns, heavy artillery, anti-aircraft guns, power plants, communication lines and rubber tires was left virtually intact.

The guns were freshly oiled and the condition of the equipment indicated that at least a skeleton force remained on the island probably until a half a day of the assault.

Much of the seized equipment is being put to use by the occupation force in building up a base from which to carry the war to Japan.

The Japanese heavy artillery, up to six inch guns, was so placed that it could be turned

against any of the landing beaches from observation posts on Ranger and Rose Hills, an officer pointed out.

In addition to these and other material already reported a check revealed 12 tons of small arms and ammunition; anti-personnel and anti-material mines; food; clothing and medical supplies; three midget submarines, abandoned and destroyed beyond repair and two more small subs wrecked on a beach, their storage batteries still charged.

A big junk pile of more than 50 planes, one large power plant and numerous auxiliary diesel plants and water, lighting and communications systems.

The hospital in the Kiska gulf area was underground, connected with 2400 feet of tunnels and equipped with an operating room, laboratories, food and medical supply rooms, shinto shrines and its own power plant. Newspapers from Japan were dated as late as June 17.

BABY DIDN'T NEED

SAN DIEGO, Calif. (AP)—Bulges under the blanket covering a baby girl didn't look right to customs officers at a border station.

Investigators disclosed a pair of shoes—much too large for baby.

Inspectors fined the parents the value of the shoes—and confiscated the footwear.

Defense Calendar

A special meeting and social evening for block leaders of the south Homedale precinct will be held Thursday evening at the home of Mrs. Rudolph Schminsky of 3535 Homedale avenue.

The meeting which will start at 8 p. m., is a preliminary to a survey of Klamath women eligible to join the WAC which will be begun by block leaders soon.

Mrs. Don Holloway, precinct leader will be assisting as hostess and special guest will be Mrs. Stephen Sabo, area leader.

Block leaders for the south Homedale district are Mrs. O. O. Schaeffer, Mrs. Harvey Woodard, Mrs. Wilbur Robinette, Mrs. Gordon Cepps, Mrs. L. W. Hutchinson, Mrs. D. W. Brazer, Mrs. Orrie Peugh, Mrs. T. D. Powers, Mrs. L. S. Meeker, Mrs. E. R. Eitrem, Mrs. Lydia Howard and Mrs. E. A. Tepper.

Court Test Seen For Barber Prices

PORTLAND, Sept. 2 (AP)—A court test was in prospect today for the 1943 legislative act giving the state board of barber examiners power to set minimum prices.

A circuit court complaint by Earl LaForge charged the act granted power to a body not a branch of the state government.

MEDFORD THEATRE OPERATOR KILLED

MEDFORD, Sept. 2 (AP)—George Hunt, 58, Medford theatre operator, was killed Tuesday in an automobile collision at a rural intersection near here.

Hunt, driving home after his theatres closed, approached the intersection as an automobile carrying Lowell W. Fleser and Melvin Mitchell, 18-year-old Medford youths, came in from the other direction.

Mrs. Frank Barber, who saw the crash, said both drivers had a clear view of the intersection

but apparently neither saw the other's car as they made no attempt to stop. Officers said no skid marks were left by either car.

ALL IS CONFUSION

BOSTON (AP)—The Boston rationing board, which has often been asked to interpret OPA directives issued through it, is looking for an interpreter itself. The board recently asked all Boston merchants to file schedules of ceiling prices.

Charlie Yee, laundryman, complained with the order—but, his list was submitted in Chinese.

The red corpuscles of our bodies are dead structures, while the white corpuscles are living cells.

COME AND GET IT!

The Spoonful of Fitness... that's Fun to Eat!

Your grocer says—"Shreddies is mighty easy to eat! For two reasons—it's spoon-size and it's flavor-mellowed with malt. And Shreddies is good for hard workers—it stays with you! Get going right, eat Shreddies! Every tempting spoonful is brimming with the important energy values and vitamins of whole wheat!"

Shreddies is an exclusive product of NABISCO... NATIONAL BISCUIT COMPANY

NO RATION POINTS NEEDED!

Two Fined on Liquor Violation Charge

VALE, Sept. 2 (AP)—Justice David P. Graham fined two men \$125 each for transporting whiskey through Oregon without a state liquor control commission permit.

State police confiscated 19 cases of whiskey valued at \$30 a case which was in a car driven by W. J. McCutcheon and C. C. Benley, both Crystal Lake. The men pleaded guilty but explained they hadn't planned to sell any of the whiskey until they arrived in Idaho.

HAVE TROUBLE KEEPING "REGULAR"?

TRY THIS HEALTHY DRINK FIRST!

Juice of 1 lemon in glass of water first thing on arising

Has a natural laxative effect for most people, and it aids digestion, supplies needed vitamins, builds resistance, too!

Here's a surprisingly simple way to avoid the usual harsh laxatives. Most people find that the juice of one lemon in a glass of water, taken first thing on arising, is all they need to insure prompt, normal elimination—guaranteed. And lemon and water is good for you.

Lemons Build Health! Lemons are among the richest sources of vitamin C, which restores energy, helps you resist colds and infection. They're the only known source of vitamin P (citric acid) and supply valuable amounts of B₁. They alkalize—aid digestion. Millions are troubled with constipation take lemon and water daily just as a health builder.

Why not keep regular with this refreshing morning drink that builds health too? Try it ten days, first thing on arising—see if you don't benefit!

P.S.—LEMON & SODA: Same p. "or juice of 1 lemon in half glass water with 1/4 to 1/2 teaspoon baking soda (bicarbonate), added. Drink as foaming drink.

Keep regular the Healthy way!

LEMON and WATER...first thing on arising

Jam and Jelly Makers Save Sugar by Switching to

MAKE THESE 3 SIMPLE TESTS...and You'll Always Use M.C.P. Powdered PECTIN

ODOR: Let your nose be your guide as to whether your jams and jellies will be better when made with M.C.P. PECTIN or strong-smelling "old-fashioned" liquid pectins.

COLOR: The pronounced brownish color of "old-fashioned" liquid pectins will startle you when you compare them with the pure whiteness of M.C.P. PECTIN.

TASTE: Compare the strong, disagreeable flavor of liquid pectins with the pleasing, faint lemon taste of M.C.P. Think what this means in preserving true fruit flavor.

SAVE fruit, too...for M.C.P. jells more sugar and fruit than any other pectin you can buy. Tested recipes in every package are quick and easy to use...make jams and jellies of championship quality—clear, line-textured, and with true fruit flavor emphasized.

SEE FOR YOURSELF with this quick, easy recipe for Concord Grape Jelly

For jelly making, Concord grapes are best. All blue grapes, however, are NOT Concord. Be sure you get Concord when you ask for them.

5 Cups Concord Juice
7 Cups Sugar
1 Package M.C.P. Pectin

Wash and crush 3 1/2 pounds fully ripe grapes. Add 1 1/2 cups water and simmer, covered, 10 minutes. Squeeze out juice, covered, 5 minutes. Measure exactly 5 level cups squeezed juice. Measure exactly 1 level cup (if necessary) add water to fill last cup. If necessary, add a large kettle. Add the M.C.P. Pectin, add water to a boil, stirring constantly. Stir well, bring to a boil, stirring constantly. NOW add the sugar (which has been previously well measured), continue stirring, and bring to a rolling boil. BOIL EXACTLY 2 MINUTES. Remove from fire, let boil subside, skim carefully. Pour into sterilized glasses, allowing 1/2-inch space for sealing with fresh paraffin.

Food Authorities Agree—jams and jellies are rich in energy and food value. The Government sends large amounts of powdered pectin to our Allies to make these energy-producing foods and help relieve the shortage of other rich foods. For this same reason, make all the homemade jams and jellies YOU can, too...right now!
