Jap Migration at Newell Scheduled; Loyals Sent East

TULELAKE, Sept. 10 — The second migration for Japanese of the west coast in 16 months will get under way September 13, when 500, who have signified their loyalty to the United States, will leave the WRA center at Newell for one of nine other camps or some point in the middle west or east where they are being re-located under direction of the war relocation authority.

Of the 13,000 remaining, less than half will make the trek out. Seven thousand stay here either because they have been proven still loyal to their mother country, have financial interests in the Japanese empire, or are bound by filial ties to parents who at heart are aliens.

Raymond R. Best, WRA director, stated in reviewing the plans for the segregation that at Newell there are many Japanese who have lived in America for most of their lives but who still have land interests or dowrys in Japan. Children of these couples will not inherit if Japanese citizenship is forfeited.

In many instances children who are American citizens will not leave parents who must remain here. Still others are staying to be near sweethearts or other Japanese who have been sent here from the same community in which they formerly lived, or simply because they are established here, have sold their property and are willing to await future developments.

The choice of remaining here, where in the future they will be deprived of the freedoms that have been granted under the original regime, is voluntary unless the resident has been proven disloyal. There are 4500 who by word or deed fall into this category at Newell. That number will be increased to nearly 20,000 before the end of the segregation period, September 30.

Three choices for future residence have been given those who are leaving and as far as it is possible they will be regarded. However, if too many requests for the same location are made it will be necessary to make adjustments.

Clearance at Newell is not a one-way ticket for relocation, WRA officials stated. Candidates for infiltration into private life must still go through a process of elimination.

To date no adverse reports have been made of Japanese who have found employment away from the west coast or who have been permitted to leave for school or for service with the armed forces.

Trains that will carry the Newell population elsewhere will be made up under army supervision as will those bringing in the ones who will make their homes here until the war is over.

The first train load of incoming evacuees will arrive September 17. They will be located in buildings being left vacant, in school buildings and recreation halls until the shift is completed.

All schools have been closed in the center and will remain closed for an indefinite period.

Arriving Japanese will find the long low barracks buildings in which the first evacuees have been quartered more homelike than when they were new. Many of those who have lived here through the summer and winter have used such materials as were at hand to make home life happier. Scrap lumber has been turned into furniture, tiny gardens flourish before many of the barracks doors and numerous plans for recreation have been carried through by those who are going out.

The future residents will have these same privileges. They will have the same soil to farm, the same right to eat three meals a day, the right to publish and read the Tulean Dispatch which is the camp newspaper, the right to worship as they will.

The six foot wire fence about the compound is being completed this week and other construction work including the guard towers will be finished by the end of September.

High Wind Disrupts Electrical Service In Part of Town

The northern end of town was plunged into darkness for almost an hour Thursday night when the high wind blew down a wire on Hillside avenue.

Lights went out before 8 o'clock and service was resumed about 9. Repair men were working on the line Friday morning.

HELP SHORTAGE

BOISE, Idaho, (AP)—Gov. C. A. Bottolfsen invited Lt. Gov. Ed Nelson to serve as governor while he attends a conference at Denver.

The lieutenant governor declined.

He's too busy harvesting crops.

"NO MORE 'DOSING' FOR ME!"

Says happy ALL-BRAN eater!

If you've been "dosing" without getting the lasting relief you wanted, this letter may offer you real encouragement:

"Permit me to compliment you on your wonderful product, KELLOGG'S ALL-BRAN! It certainly lived up to its promises, with me! I'd been taking manufactured laxatives for a long time! But, no more dosing for me, thanks to KELLOGG'S ALL-BRAN! I've adopted it as my standby!" Mr. Alexander Klein, 630 West 170th Street, N. Y. C.

Yes, KELLOGG'S ALL-BRAN really "gets at" one big cause of constipation — lack of sufficient "cellulosic" elements in the diet—because ALL-BRAN is one of Nature's most effective sources of these elements! They work by helping the friendly colonic flora fluff up and lighten the colonic wastes for easy elimination. *Not* a harsh purgative! Doesn't "sweep you out"! ALL-BRAN is simply a gentle-acting, "regulating" food!

If this is your trouble eat KELLOGG'S ALL-BRAN regularly. Drink plenty of water. See if you don't find you can give up "dosing" for good! Insist on *genuine* ALL-BRAN, made *only* by Kellogg's in Battle Creek.

Grain Foods are Victory foods

Grain foods are Victory Foods. They're not rationed and should account for ¼ of your diet. They offer an unending list of new menu ideas. Buy more grain foods.

Veal Loaf--to save you points!

1 pound ground veal
½ pound ground pork
2 eggs, beaten
2 tablespoons Worcestershire sauce
2½ cups milk
1 cup dry cereal

Use salt and pepper enough to season well. Put in greased pan and bake 1 hour, 15 minutes. Serve with thickened tomato sauce, or buttered peas. Serve cold for sandwiches in school lunches.

BOTHERED WITH CONSTIPATION?

TRY THIS HEALTH DRINK FIRST

Juice of 1 lemon + In glass of water + first thing on arising

Has a natural laxative effect for most people, and it aids digestion, supplies needed vitamins, builds resistance, too!

Here's a surprisingly simple way to avoid the usual harsh laxatives.

Most people find that the juice of one lemon in a glass of water, taken *first thing on arising*, is all they need to insure prompt, normal elimination—*gently*. And lemon and water is *good* for you.

Lemons Build Health! Lemons are among the richest sources of vitamin C, which restores energy, helps you resist colds and infection. They're the only known source of vitamin P (*citrin*) and supply valuable amounts of B1. They alkalinize—aid digestion. Millions *not* troubled with constipation take lemon and water daily just as a *health builder*.

Why not keep regular with this refreshing morning drink that builds health too? Try it ten days, first thing on arising—see if you don't benefit!

P.S.—LEMON & SODA - Some prefer juice of 1 lemon in half glass water with ¼ to ½ teaspoon baking soda (bicarbonate) added. Drink as foaming quiets.

California Sunkist

Keep regular the Healthful way!

LEMON and WATER ...first thing on arising
