NOT QUITE REGULAR?

TRY THIS HEALTH DRINK FIRST

Juice of 1 lemon in glass of water first thing on arising

Has a natural laxative effect for most people, and it aids digestion, supplies needed vitamins, builds resistance, too!

Here's a surprisingly simple way to avoid the usual harsh laxatives.

Most people find that the juice of one lemon in a glass of water, taken first thing on arising, is all they need to insure prompt, normal elimination—gratuitously. And lemon and water is good for you.

Lemons Build Health! Lemons are among the richest sources of vitamin C, which restores energy, helps you resist colds and infection. They're the only known source of vitamin P (citric) and

supply valuable amounts of B₁. They alkalize—aid digestion. Millions not troubled with constipation take lemon and water daily just as a health builder.

Why not keep regular with this refreshing morning drink that builds health too? Try it ten days, first thing on arising—see if you don't benefit!

P.S.—LEMON & SODA—Some prefer juice of 1 lemon in half glass water with ¼ to ½ teaspoon baking soda (bicarbonate) added. Drink as foaming quills.

Keep regular the Healthful way!
