

APPRAISAL OF PROPERTY FOR PARK STARTED

First definite step for the establishment of a park to be located in the west end of town near Link river bridge, and extending from Main street to Ewauna lake, was taken by the city council last night when members authorized the appraisal of all property in that area.

The lots and buildings are to be purchased by the city later. The park will not be established until after the war.

Talk of having a park at that locality was brought up some time ago at council meetings, but until Monday night nothing definite had been done.

An ordinance authorizing the purchase of property in West-over terraces belonging to John and Alma Berglund, was given its first reading. This lot will be added to other land already purchased by the city to be used for Memorial park cemetery.

To Move Fence
A motion to ask Swan Lake Moulding company to remove the fence around the softball park in Industrial addition near the Southern Pacific railroad tracks, was passed by the council. The motion was brought up following a recommendation to that effect by the recreation committee.

Dave Bridge, city recreation officer, said that the committee had no plans as to what the field would be used for in the future. Perhaps, at some later date, he said, the park might be used in conjunction with Modoc field.

Chief of Police Earl Heuvel announced that the city jail had undergone a thorough cleaning. He said that all the blankets had been sent to the cleaners, that new ticking had been placed in all the mattresses, and that the first coat of paint covering the entire jail was about dry and ready for the second coat.

MP's Use Room
Heuvel also informed council members that he had turned over the police officers' ward room to army military police as they have no money to rent a place to stay. One or two military police are on duty in Klamath Falls constantly.

Councilman Walter Wiesen-danger said that a larger street light should be placed on the corner of Fremont and Delores streets as the latter street was very dark. The recommendation was turned over to the safety committee for approval.

WACS CLOSE UP TO INVASION FRONTS
The WACs will not be far behind the fighting men at any time during the momentous days of European invasion, said Lt. Betty Herring of the local army recruiting station today. She said that as soon as conditions in Italy and Sicily are sufficiently stable to permit the transfer of allied headquarters, members of the Women's Army Corps will join the invasion troops. Officials of the army said WACs had proven themselves invaluable in areas close to the battle zone, hence their use in Italy is dictated by necessity.

Lt. Herring states that it would have been legally impossible to transfer members of the corps into battle areas under the WAAC, however, legal sanction for their use close to the fighting lines was gained with the deletion of the "non-combatant" clause from the corps' charter when the WAC became a part of the regular army and not merely an auxiliary.

To those interested in getting into the "thick" of things with our troops, Lt. Herring suggests you visit the local army recruiting office, 219 postoffice building or call 8401.
