

CITY SHARES IN OREGON'S LIQUOR MONEY

Ruth O. Bathany, city treasurer, advised members of the council in session Monday night, that her office had received a check for \$267 as this city's share of the liquor permit revenue divided between state and municipalities. The check was for a period from June 9 to 30, and in the future will be received in quarterly payments. The money goes into the police and duty fund.

Monday night's session was brief and to the point. City Engineer E. A. Thomas discussed the application for water to be used on the new cemetery property. He advised the council that water could be obtained at \$6 per acre, this fee covering water use for the existence of the cemetery. There will also be a five-cent per acre charge per annum for operation and maintenance. The council did not decide on whether they would pay the \$6 for the 98-acre tract in one payment, or take advantage of the 20-year schedule. Thomas is to report back his findings with the reclamation bureau at next week's meeting. The city engineer also reported on street improvements at Donald, Worden and Addison streets. Council members approved the installation of a stronger light at Dolores and Fremont streets on recommendation of the light and water committee.

RAF ARMADAS BLAST THREE NAZI CITIES

(Continued From Page One)

verse weather to drop their loads, employing comparatively new methods devised to make potent the American daylight offensives as effective in bad weather as in good.

A very strong force of RAF bombers hit Hannover on the night of September 22 in a highly concentrated attack of probably 2000 (long) tons packed in to 30 minutes.

Casualties
DNB said the British attacks on Hannover and Brunswick caused casualties. It was the third raid on Brunswick, which lies 53 miles northwest of Magdeburg on the main railway line from Berlin and which is important for its metal and machinery industries.

The close attention being paid to Hannover and other German rubber centers—it was the fifth big blow to the reich's rubber sources in four months—made it increasingly clear that the allies are concentrating on German rubber destruction.

Flying Fortresses hit the synthetic rubber plant at Huls in June, and in July they struck at the Continental Gummierwerke in Hannover. The RAF took up the Hannover attack on September 22 and last night, after earlier in the month bombing the big Dunlop rubber factory at Montlucon, France.

Jerries Regroup Defenses to Fight Reds Near Gomel

(Continued from Page One)

today and re-grouped its battered forces. Except in certain sectors the red army is virtually in control of the eastern bank of the Dnieper.

The nazis still were fighting desperately in the Kremenchug area, outside Kiev and before Dnepropetrovsk, but the soviet forces were doggedly breaking down this resistance.

Dnieper Line
It seemed only a matter of hours until the Russians had been encamped on the entire eastern bank of the Dnieper along a 400-mile stretch. From positions slightly south of Gomel to the area west of Smolensk, the red army pushed on toward the eastern bank while at Smolensk, of course, the Russians were well beyond the western bank.

Dispatches to the official newspaper Izvestia told of new reserves arriving as the Germans tried to hold back the red army's punches up and down the Dnieper.

New tank groups appeared and captives told Russian officers that reserves were being hauled up from distant points.

Trains Hit
Southwest of Cherkasi on the western bank of the river—a city which protects one of the biggest crossings—soviet aviation found further evidence of fresh troops and machines. Russian bombers discovered several trains and attacked them with good results. Other bombers located more enemy troops and machines gathered at the Dnieper crossing.

In the past few hours the biggest advances have been made in the Gomel sector where the red army advanced seven to ten miles, liberating over 230 populated points and important towns. Soviet troops also captured more places within White Russia south, southeast, east and northeast of Gomel and greatly strengthened the half circle of steel which is closing on the city.

Advances
One of the most significant advances was up the Chernigov-Gomel highway where red army troops have fought their way northward into White Russia. Southeast of the city they are pressing forward after capturing Terekhovka, only 22 miles away. In the Mogilev direction the red army took over 350 towns and villages and just about completed the job of clearing Big Smolensk province.

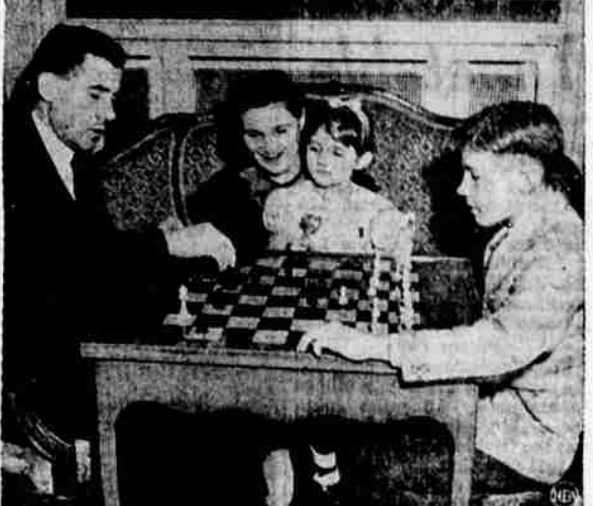

The Germans hold only a few

Something New in Landing Boats

Through these doors pass the finest fighters in the world. Her huge doors swinging wide, a new American LST landing craft receives her complement of warriors en route to North Africa with Sicily as their eventual destination. This is the first time the well-guarded secret of the vessel's doors has been revealed to the public. Official U. S. Navy photo.

Publisher Speaks Before Teachers In Lake County

Teachers of Lake county gathered for the annual fall institute in Lakeview on Monday. Speaker at the afternoon program was Frank Jenkins, publisher of The Herald and News. Also attending the institute was Arnold L. Gralapp, superintendent of Klamath Falls schools, trustee of district No. 4, which embraces 10 counties in the southern half of the state.

Germans Strike Back After Loss Of Foggia Base

(Continued From Page One)
Sir Bernard L. Montgomery's forces had overrun Foggia, the Germans announced two quick steps of their own:
1. They threw landing forces at the island of Corfu off the west coast of Greece.
2. They attacked and claimed to have regained the Yugoslav harbor city of Split, previously stormed and seized by Yugoslav guerrillas.

(Continued From Page One)

the area of Foggia and have retreated to prepared mountain positions. Foggia was evacuated after destruction of all installations of war importance.

On the eighth army front "considerable casualties" were inflicted upon the Germans in the drive on Foggia, headquarters announced. But there were indications that German resistance was slight on the swift advance against Kesselring's rearguard forces which were left at the mercy of British columns.

Important City
From a strategic standpoint Foggia is perhaps the most important city captured in the Italian campaign to date.

It is a city of about 85,000 and possesses one of the best airbases in all Italy and a dozen smaller satellite fields that will place powerful allied air forces within closer striking distance of the Balkans as well as southern Germany and the great Ploesti oil fields of Rumania.

Foggia was the No. 1 objective of the allied drive in southern Italy.

So swift was the allied advance that the enemy was prevented from destroying the airfields.

BOYS HELD FOR DRUNK DRIVING

State police arrested two 17-year-old boys and charged them with being drunk following an accident which involved their sedan and a truck operated by Winfred Elvin Ralston of the Zuckerman ranch. The crash occurred shortly before 10 p. m. near the Zuckerman potato cellar four miles this side of Merrill.

One of the boys suffered a broken nose. The sedan was badly damaged. The two live at the Altamont camp ground, police said, and are thought to be here for the potato harvest.

Breithaupt Buys L. A. West Ranch On Merrill Road

L. A. West, pioneer Klamath county rancher and breeder of purebred Aberdeen Angus stock, has sold his 80-acre ranch on the Merrill highway to Ernest Breithaupt of Poe Valley, it was learned Tuesday. Breithaupt, young rancher and grand-son-in-law of West, takes possession of his new holdings November 15.

West came to Klamath county more than 40 years ago. For a number of years he was on the Ankeny ranch, moving to the Merrill place in 1924, purchasing 150 acres at that time from E. C. Ream. Several years ago West sold 70 acres to Clyde Griffith. West has long been a sponsor of the Junior Livestock show and plans to continue in purebred stock raising.

J. F. King Leaves For Prineville Job
