Enchanting and inspiring—gem of deep blue—with a setting of green forests would lose much of its esthetic and scenic appeal if this setting was ravaged by its arch enemy FIRE.

We are now engaged in a global struggle such as the world has never known. We are fighting this war for the purpose of preserving the freedom of democracy and the heritage of a land and a people whom, while able to compete with the best of nations in the accumulation of material wealth, have also led the world in spiritual and idealistic dreams and practices fruitifying in the setting apart of scenic and recreational areas, such as Crater Lake National Park, for the pleasure and spiritual advancement of our people.

We must not fail to protect and safeguard our priceless heritage.

The American Legion, whose membership is composed of veterans of our struggles of the past, are well aware of what they fought for, and are now engaged in protecting the ideals and hopes of America on the home front. This is evidenced by their support of their "Stop Forest Fires" program in Klamath County and the "Keep Oregon Green" campaign.

Let us all as citizens of the finest, most beautiful and prosperous nation on the globe, take a solemn oath that we will by no act of negligence, thoughtlessness, carelessness, or greed, endanger our forested areas to the ravages of fire, but that we will by our watchfulness and care preserve and protect our greatest resource—our Forests.

REMEMBER THESE RULES:

 Crush out your smoke

 Drown your campfire — then bury it

 Break your burned match

IF YOU BURN SLASH
First - get a permit
Last - kill every spark
