ADMIRAL KING WARNS OPTIMISTS

WASHINGTON, May 22 (AP)—Admiral Ernest J. King, commander of the United States fleet, promises an assault on Hitler's European fortress "in what promises to be the most formidable military undertaking in history," but warns against a public tendency to believe the end of the war is in sight.

King, in an address here yesterday, said over-confidence now "will do an injustice to those who are about to go into battle," and declared there was "little justification" for believing Ger-

many and Japan were near collapse.

"In the Pacific," he said, "vast operations are pending, for despite recent advances, we are still far from the citadel of Japan which must be breached before the war is won.

"We of the armed services have pondered these great problems; we have calculated the risks; we know the obstacles. But we also know our own strength. We have the men, the ships, the planes, the weapons and the plans and teamwork."

RICH STEW
BUFFALO, N. Y.—Dorothy Schmerbach, starting to eat some mussel stew, bit on a pearl. Further search revealed seven more. All came from a can of mussels purchased at a neighborhood store.

BOOBY TRAP BLAST MISSES GEN. CLARK

ON THE FIFTH ARMY FRONT IN ITALY, May 22 (AP)—Lt. Gen. Mark W. Clark, fifth army commander, narrowly missed being killed when a well-disguised booby trap on an abandoned German artillery piece exploded less than 25 feet from the jeep in which he was riding yesterday.

The explosion critically wounded one soldier and injured several others who had been standing near the anti-tank gun. Clark, who was making an inspection tour of the front, was told that someone had been

linking with the abandoned gun.

After satisfying himself that the injured men were being treated, Clark warned other soldiers nearby—some of whom had been knocked down by the blast—against tampering with abandoned enemy equipment. Then he continued his inspection.
