

YANKS SLASH APPIAN WAY; NAB TERRACINA

(Continued from Page One)

armor and infantry struck today into the German flank on the Rome or northern side of Cisterna, threatening the town "where the bitterly-fighting German garrison still has an escape route to Rome open."

Prisoners Taken

Many prisoners were taken. In the first day of the new coordinated assault, the Americans seized a 200-yard stretch of the Appian way southeast of Cisterna, and cut the railway to Rome four miles below Velletri, De Luce said.

Their British comrades meanwhile forced the Moletta river farther west, ramming on into defenses anchoring the Nazi line so long compressed the beachhead.

Planes Active

Allied tactical planes, flung full force against the Germans, destroyed at least 150 enemy vehicles and damaged as many more today, with A-36 dive-bombers concentrating on the road through Priverno, escape hatch from the pocket above Terracina.

The coordinated main front offensive smashed forward, with Canadians breaching the Hitler fortifications near Pontecorvo—part of the formidable line across the Liri valley—while the French won Picci, a pivot point in the mountains at the center of the front. The bag of prisoners for the entire offensive rose to 7500.

Warren Calls Special Session

SACRAMENTO, Calif., May 24 (AP)—Gov. Earl Warren today called a special session of the California legislature for June 5.

In his proclamation convening the session, Warren listed 32 subjects on which he will ask the lawmakers to act.

The governor said only matters which can be considered of an "emergency" nature were included in his call and that these were agreed upon "after consultation with many members of the legislature."

FORESIGHT

PORTLAND, May 24 (AP)—John N. Haynes, charged with drunkenness, told Municipal Court Judge John Seabrook he had asked to be locked up because he had 15 beers and was afraid he might get into trouble.

Judge Seabrook commended his foresight and dismissed the case.

a sore point) and they can't understand it. It irks them. So they do what they're doing. They shouldn't. But, when we're irked, we ALL do things we shouldn't. Human nature, after all, is human nature.

HERE is this writer's idea of what is basically wrong—with this lumber situation and so many other situations, now and in the past, on the home production front:

Instead of a GOVERNMENT OF LAWS, we now have in this country a GOVERNMENT OF MEN. Impartially enforced laws apply to ALL OF US EQUALLY. Decisions MADE BY MEN are SHADED by personal friendships, by personal political ambitions—by so many, many PURELY PERSONAL considerations.

For these fundamental reasons, decisions made by men DO NOT APPLY EQUALLY TO ALL OF US. Some of us are favored. Some of us are discriminated against.

AS long as we have a government of men, these discriminations will continue. The only way to get away from them is to go back, sincerely and wholeheartedly, to a GOVERNMENT OF LAWS.

CHURCHILL SEES BALKAN VICTORY

(Continued from Page One)

both countries to be friends and referred to the "marked departures from conceptions which were held years ago for reasons we can all understand."

Peace Terms

He reported that peace terms had been offered Romania by Russia and described them as "remarkably generous" in many respects, saying they "made no suggestions of altering the standards of society in that country." Similarly, he said the soviet had been "very patient" with Finland.

Churchill ranged the Japanese with the Germans as those who must give in without condition—suggesting that all satellite axis powers might perhaps escape with lighter sentences. Specifically, though diplomatically, he warned both Spain and Turkey—the last big neutrals in the Mediterranean area—that allied victory was coming in the Balkans with or without the support of new recruits.

Report on Premiers

Churchill brought to parliament a report on the recently concluded talks of the premiers in London—a conference at which, he said, they arrived "at the core of an agreement which will enable the British empire and commonwealth to meet in discussion with other great powers in the world in a firmly knit array."

He told commons that the allies, after giving Turkey \$60,000,000 worth of American and British arms "have suspended the process of trying to exhort Turkey to range herself with the victorious united powers."

Generous Gesture

He called Turkey's recent suspension of chrome shipments to the nazis a "generous gesture," but made clear it would not win her "a strong position at the peace table which she would have had had she joined the allies."

Turning to the battle ground of the Mediterranean, the premier asserted the "fate of Italy is indeed terrible" and said he found it difficult "to nourish animosity against the Italian people."

Churchill had praise for the new Italian government, saying it is "facing its responsibilities manfully, doing all in its power to aid the allies in their advance."

Rivers, Harbors Work Gets Okay

WASHINGTON, May 24 (AP)—The senate commerce committee approved today legislation authorizing post-war construction of rivers and harbor works estimated to cost nearly \$500,000,000.

The authorization is about \$100,000,000 more than carried in the bill as it passed the house several weeks ago.

Jacket Theft Puts Man In Jail

Ancele Rucker is in the county jail under \$100 bail on a petit larceny charge.

He is accused of taking one button and one zipper jacket belonging to Leslie Ziebell and J. W. Brogan, Rucker, at his arraignment in justice court Wednesday morning, pleaded not guilty to the petit larceny charge.

SCHOOL BOARD TO VIEW KUHS RESERVE FUND

(Continued from Page One)

Establishment of a reserve fund for future building and expansions, at the rate of \$60,000 a year for five years, will be considered by the Klamath Union high school board and budget committee at a meeting next Monday night. It was disclosed to chamber of commerce directors today by Arnold Gralapp, city school superintendent.

The elementary school district board has decided upon a five-year \$20,000 a year reserve fund program. Both matters will be before the voters of the districts at the June school elections.

State Movement

These proposals are in line with a statewide movement to build new financial reserves for post-war development on a pay-as-you-go basis, avoiding debt incurred later under tighter money conditions. The county school board has also initiated such a program.

Gralapp explained to the chamber directors a suggested future plan for educational development here which, if carried out, would divide the schools here on a 6-4-4 basis and would supplant a junior college plan.

New Program

Under this program, elementary schools would house the first six grades. Seventh, eighth, ninth and tenth grades would comprise a junior high school. Eleventh, twelfth, thirteenth and fourteenth grades, two years above the present high school, would comprise the third and highest institution, which presumably would occupy the present high school plant.

This would make possible the offering of educational work here above the present high school level, and emphasis could be placed on vocational training, already well founded in the local high school. Only about 17 per cent of the high school graduates here now go on to college, whereas it is expected a much greater number would get additional education if it could be offered in this community. The program, Gralapp explained, would fit into the effort to be made to offer educational advantages to returning service men.

Explains Plan

Gralapp explained this plan in connection with the post-war financial reserve program, indicating what may lie ahead for education here and what its additional financial needs may be. The \$60,000 a year reserve schedule, however, will not be tied to any particular program, but will build up reserves for inevitable needs, whatever they may be in particular, he said.

No additional taxation will be necessary to raise the \$60,000 a year because Klamath Union high school district has been raising that amount for bonded debt service, no longer necessary. The district is just about "out of the woods" on its debt program, and the money heretofore used in paying off debts can now be raised to build the reserve.

Three Klamath Girls Graduate

Three Klamath Falls girls are included in this year's list of graduates from the Southern Oregon College of Education at Ashland.

Graduating in teacher education are Barbara R. McLean and Verna Dean Meggs both of Klamath Falls. Graduating from junior college is Adra Goeller of this city.

Commencement exercises at the SOCE will be held Friday, May 26, in the college auditorium at 2:30 p. m.

Sheriff Probes Seed Spud Theft

Sheriff Lloyd Low and Deputy Sheriff Jack Franey were in Langell valley Tuesday evening investigating the theft of 50 sacks of seed potatoes from the Dearborn cellar located in that district.

The seed potatoes, which were cut and certified and ready to plant, belonged to William Burnett. They were apparently stolen on the night of May 23, according to Sheriff Low.

Humming birds range from Alaska to the southern tip of South America, but the Old World hasn't a single species.

had been killed by one of them. "That's no coyote trick," he remarked.

Starr said that it will be difficult to cope with the super-coyote because it is now almost impossible to get trappers, who can make much more money in defense work. The bounty system is frowned on generally by authorities, and for the time being, at least, it appears the big animals will have the run of the range, jumping deer, sheep and cattle. Haskins brothers and Leo Sagehorn are livestock men in that area who have had heavy sheep losses.

YANKS BASH PARIS, BERLIN, VIENNA

(Continued from Page One)

line, chief artery between Germany and the flaming battlegrounds to the south. Others struck military targets at Graz in Austria and Zagreb, capital of the puppet state of Croatia.

Between 500 and 750 big bombers and hundreds of convoying Mustangs, Lightnings and Thunderbolts knocked at the portals of Hitler's European fortress from the south and southeast.

Vienna Hit

Flying Fortresses attacked the Atzgersdorf factory at Vienna, which manufactures parts for German fighter planes. Poor visibility obscured full assessment of results. Liberators struck the Munchendorf airfield south of the Austrian capital, setting fires which billowed columns of smoke. Yet other Liberators bombed the Wollensdorf airfield near Weiner Neustadt, a ferrying field for enemy planes.

Fortress fliers reported direct hits on the Avisio viaduct. A nazi airfield at Graz was pounded by Liberators, which also struck Zagreb, a focal point of enemy rail supply arteries between northern Italy and the Balkans. Several formations encountered enemy fighters and heavy flak but results of the combat were not immediately assessed.

LONDON, May 24 (AP)—Aerial sorties flown by the allies against Europe today were estimated at more than 6500, the greatest total in history.

HONAN CHINESE PUSH JAP RETREAT

(Continued from Page One)

quarters said the allied forces pushed further into the partly-held city and had captured a railroad junction nearby. Seizure of the junction tightened Stilwell's control of Myitkyna's airport, captured last week.

The men of the U. S. sixth army widened their hold on the Dutch New Guinea coast opposite captured Wakde island. Destroyer guns and land artillery removed Japanese mortar positions, allowing the Americans to move nearer two airfields near Sarmi, opposite Wakde.

Blak Isle Raided

To the northwest Liberators dropped 150 tons of bombs on Blak Island in the Schouten group lying in Geelvink bay. Supply dumps were hit on Blak, which recently has come under incessant and probably significant air attack. The Schoutens lie in the path of any further westward move by Gen. Douglas MacArthur's forces.

His airmen ranged more than 1000 miles in the other direction to slug Rabaul on New Britain island from two directions. Enemy troops in by-passed Wewak were strafed by other air units.

The heaviest daylight assault in the Central Pacific was turned against Wotje atoll in the Eastern Marshalls Sunday, 230 tons of bombs falling on the by-passed enemy base from land-based bombers.

LUMBER CEILING

WASHINGTON, May 24 (AP)—The office of price administration has raised the ceiling price for redwood lumber to increase the average sales returns by about \$2.30 per thousand board feet.

BOOMMEN MAY JOIN 18,000 IDLE MILLMEN

(Continued from Page One)

Others get \$1.10 for six hours and overtime after that. That's well above their lumbering scale.

Dr. George Bernard Noble, chairman of the 12th regional war labor board, commented that the WLB will not resume consideration of the situation until the men return to work.

"That is established policy," he said.

Shutdown Forecast

A complete shutdown of logging operations in the Puget Sound area around Seattle, Tacoma and Olympia was forecast by nightfall by Hilding Lindberg, operator of two logging camps already closed.

Some boom workers already were idle in Tacoma where 4500 AFL and CIO lumber union members quit to close a dozen mills.

Booms Close

Men at four large log booms on the Willamette river, in Oregon, stopped work. Logging operations in eastern Linn county, where logs are shipped to Portland, closed down; and Chester F. Sorenson, chairman of the Pacific Northwest Loggers' association, said lack of boom facilities would force closure of other logging operations.

Every large mill in Portland already was closed. Only a small sawmill remained in operation. In Spokane, 1500 workers in 15 plants voted to "go fishing" today.

Not Authorized

The general walkout by both AFL and CIO union members was not authorized by union leaders who appealed for the men to stay on the job. The work stoppage was in protest of the war labor board's denial of requested wage increases. The AFL had asked for an hourly minimum wage of \$1.05, a 15-cent increase.

From Washington came a directive order from the war labor board stating its decision in the industry-wide disputes in the Pacific northwest were not "rare and unusual cases" justifying a wage increase above that which could be justified under normal standards.

Col. Walter DeLong, Washington state director of selective service, warned the workers who engaged in the walkouts that they would face a change in their draft status. He said he didn't care what the walkout was about.

Al Whitman, the nation's OPA fuel rationing director, declared a full shutdown of northwest sawmills meant a loss of about 25,000 cords of wood daily.

He said the closure would vitally affect the already critical fuel supply situation.

FDR'S WARD GRAB OKAY, SAYS BIDDLE

(Continued from Page One)

may be guided accordingly.

"No attorney general in advising the president," he said, "can do more than interpret the law as he sees it, trusting to the courts to correct him if he is wrong and to congress to make any changes in the law which it deems wise."

Sustain Ruling

Biddle asserted that he believes the courts would sustain his ruling, adding, "It may be that as a result of these hearings this committee will believe that certain changes should be made in the provisions of the war labor disputes act."

Amplifying his reference to the president's authority in the absence of a specific statute, the attorney general said:

"Although I relied, in the first instance, upon the provisions of the war labor disputes act, I also believed that without regard to the statute the president had the authority to take over the plants and facilities of Montgomery Ward and to operate them in the interests of the war effort."

Some 100,000 persons meet death from accidental causes every year, according to recent calculations.

HEALTH QUIZ

Do you have poor digestion? YES NO

Do you feel headachy after eating? YES NO

Do you get sour or upset easily? YES NO

Do you feel tired—listless? YES NO

Now everyone knows that to get the good out of the food you eat—you must digest it properly. But what most people don't know is that Nature must produce about two pints of the digestive juice—liver bile—each day to help digest your food. If Nature fails, your food may remain undigested, lie sour and heavy within you.

Thus, it is simple to see that one way to aid digestion is to increase the flow of liver bile. Now, Carter's Little Liver Pills start to increase this flow quickly for thousands—often in as little as thirty minutes. When bile flow increases, your digestion may improve. And, soon you're on the road to feeling better—which is what you're after.

Don't depend on artificial aids to counteract indigestion—when Carter's, taken as directed, aids digestion after Nature's own order. Get Carter's Little Liver Pills today—only 25¢. You'll be glad you did.
