

HANNEGAN MUM ABOUT FOURTH TERM QUERY

By The Associated Press
Democratic Chairman Robert E. Hannegan, fresh from a talk with President Roosevelt, assembled a party committee in Chicago today to arrange for the July 19 Chicago convention at which the president can have another nomination for the taking.

Whether Hannegan brought word as to how Mr. Roosevelt feels about it was not disclosed. He left the White House yesterday with a "no comment" rejoinder to a reporter who inquired whether he still sticks by his recent New York speech in which he predicted, as a matter of personal opinion, that the president will accept a fourth term nomination.

Hannegan and the arrangements committee members busied themselves with selection of a keynote speaker and recommendation of a convention chairman.

Governor Robert S. Kerr of Oklahoma, a fourth-term advocate, was the apparent preeminent favorite for keynote, while Hannegan and others were talked of for the chairmanship.

A politician's nightmare continued in the counting of returns in Idaho's close race for the democratic nomination for the senate with a 14-vote margin separating the leaders.

When 713 of the state's 845 precincts had reported results of Tuesday's primary, an unofficial count showed: Senator D. Worth Clark 10,004 and Glen Taylor, former cowboy from Pocatello, 10,018. James H. Hawley, Boise attorney, was trailing. His latest count showed 9046 votes with 705 precincts in.

Later returns put Clark back in the lead by 10 votes with 715 precincts tabulated. The see-sawing race indicated that the official canvass June 24 will be necessary to determine the winner.

Gov. C. A. Bottolfsen easily won the republican nomination for the senate post.

are supposed to be using against our beach head in France.)

YOU'VE noted in the dispatches the big ruckus over De Gaulle.

You'll be wise if you believe little or nothing you read or hear about it, for De Gaulle is all snarled up in international politics. The British are supposed to be backing him. FDR is supposed to be AGAINST him. So the news about him is too much mucked up with propaganda to be reliable.

DE GAULLE'S story is that as head of the French national liberation committee he is entitled to recognition as head of the PROVISIONAL government of France. Our story is that we want to back NO PRESIDENT French government, leaving it instead to the French to pick their OWN government after the war.

To this insignificant writer it appears that we might well deal with De Gaulle NOW and leave it to the French AFTERWARD to keep him or throw him out, as they choose. But that is only the opinion of one small American who would like to win the war first and deal with these other problems later.

A bell wether is a ram which leads the flock of sheep with a bell on his neck.

A single torpedo is composed of 5000 parts and more than 1000 assemblies.

To a man who's handy with his hands

If you like mechanical work (even though you're not experienced), Southern Pacific has an opening for you that is well worth looking into. The job: Helper in one of the fine crafts at the S. P. shops or roundhouse . . . working on locomotives or rolling stock. You'll see the "inside" of railroading . . . be in something big . . . find railroading more interesting than other work. Friendly people to work with . . . a chance to really learn a top craft with a fine outfit. Above all, a job with a permanent company — a job you'll like. Liberal age limits. New, higher wages. Railroad pass privileges. Fine pension plan. Medical services. Vacations with pay. Swell social activities. This is no fly-by-night opportunity. It's for a man who's sincere in wanting the right connection with the right outfit. If you join up with S. P., we're pretty sure you'll not regret it.

See or write Trainmaster, S. P. Station, Klamath Falls, or your nearest S. P. Agent.

Details of Boeing B-29 Released After Bombing

By JAMES J. STREBIG
Associated Press Aviation Editor
WASHINGTON, June 15 (AP)—The army, after tersely announcing its mammoth B-29 Super-Fortresses had bombed Japan, today uncovered many details of the world's most talked about airplane.

At the same time, the war department disclosed an equally spectacular military organization hitherto unmentioned—the 20th air force, a "oving, earth circling command headed by Gen. H. H. Arnold.

The Boeing B-29 and the 20th air force were made for each other, one a weapon designed to slug the enemy with unparalleled reach and power, the other a military authority to use such a weapon anywhere in the world independent of theater commanders.

Unlike any other air force, the 20th is responsible only to the joint chiefs of staff. General Arnold heads it as a separate assignment rather than as part of his job as commanding general of the army air forces. He will use it as a strategic air force directed from Washington. The chief-of-staff of the 20th air force is Brig. Gen. H. S. Hansell, deputy chief-of-staff of the army air forces.

Long familiar in only the most general terms, these details of the Super-Fortress may now be published:

Its wing span is 141.2 feet, its length 98 feet, its height 27 feet. It has a cylindrical fuselage, a midwing, a high dorsal fin, tricycle landing gear and is all metal.

Armament includes .50 calibre machineguns in power turrets and a 20 MM cannon. There is much protective armor. The power consists of four 18-cylinder, radial Wright cyclone engines rated a 2200 horsepower for takeoff. Each engine is served by two turbo-superchargers to provide the high altitude operation desired.

Each engine drives a 164-foot

Death Sentences Given 14 Soldiers

LONDON, June 15 (AP)—Herbert Morrison, secretary of state for home affairs, told the house of commons today that 14 members of the United States army forces in the United Kingdom had been sentenced to death by U. S. courts martial and that seven of the sentences had been carried out.

In each case where the death sentence was followed the offense charged was murder and one was a case of murder and rape, he said in reply to a question by Laborite Rhys Davis.

Morrison said three sentences have been commuted and four are still subject to review.

VITAL STATISTICS

HORN—Born at Hillside hospital, Klamath Falls, Ore., on June 15, 1944, to Mr. and Mrs. E. Horn, 1023 Bowen street, a boy. Weight: 8 pounds 8 ounces.

STEYSKAL—Born at Hillside hospital, Klamath Falls, Ore., on June 11, 1944, to Mr. and Mrs. Jacob Steyskal, Malin, a boy. Weight: 6 pounds 4 ounces.

four-blade Hamilton-standard propeller, largest ever installed on an airplane. The propellers are connected by reduction gears so that they turn slower (one-third as fast as the engine) than any other aircraft propellers.

Crew comforts surpass anything in any previous warplane. The cabin has been sound-proofed, seats are of the latest design, four cots, and many minor conveniences are available. The purpose is increased crew efficiency in combat despite the long time spent in the air.

Except for a hydraulic booster on the brakes, the B-29 is entirely electric. It has 150 electric motors of 49 types using power supplied by auxiliary engines.

No complex is the plane's operation that a flight engineer controls most of the power plant, the pilot using only the throttle and his usual flight instruments.

The rudder and ailerons are so balanced that despite their size they are operated without the aid of boosters, thus giving the pilot the "feel" experienced in smaller aircraft.

T. A. AMBROGETTI DIES AT HOME HERE

Tomasso Amadeo Ambrogetti, 69, well-known long time resident of Klamath Falls, was found dead at his home Wednesday evening by city police. His death was attributed to natural causes.

Always hale and never without his cigar, Mr. Ambrogetti was a colorful personality. He came to America from Italy in 1910 and had lived in Klamath Falls most of the time since then. He was a stone mason, but had not been able to work much the last few years.

Mr. Ambrogetti was born at Vergereto, Italy, on February 2, 1875. Before coming to this country he was a commissioned officer in the royal carabinieri in Italy. He became an American citizen in 1913. Surviving him is one son, Walter, who is in the United States army, and several brothers and sisters in Italy.

Summer Fire Crew Now At Lava Beds

The summer crew of fire guards and rangers is now established at the Lava Beds national monument and is preparing for the fire season.

Park officials said that the old CCC camp at the north entrance of the monument is being used for housing a part of the crew.

NEWSMAN DIES

CLARKSON, Ont., June 15 (AP)—J. F. B. Livesay, 69, for 20 years general manager of the Canadian Press, and a pioneer in the organization of the news-gathering cooperative which now embraces almost all of Canada's daily newspapers, died today.

2 CANDIDATES SEEK SCHOOL BOARD POST

Two candidates have filed for the position on the board of school district No. 1, to be filled at an important election scheduled for Monday, June 19.

They are Dr. L. L. Truax, incumbent, and Mrs. Ralph W. Stearns. The term is to continue for five years.

In addition to the selection of director, the election will determine the question of the budget for the new year and a five-year levy of \$20,000 a year for post-war rehabilitation of school property.

The budget exceeds the 6 per cent limitation and therefore a vote by patrons of the district is necessary.

Polls will be open from 2 to 7 p. m., at Fremont school.

Qualifications of voters include American citizenship, age of 21 years or over, and residence within the district for 30 days or more.

Persons with taxable property within the district may vote on the budget and special levy, while those persons, and any other citizen meeting the general qualifications, may vote on director.

Auto Injures Boy Near Worden

Floyd George Fraley, 8, was slightly injured Wednesday afternoon near Worden when he was struck by an automobile driven by Charlie Porter Baty, 70, Dorris rancher.

The accident occurred about 1:30 p. m., approximately 10 miles from Klamath Falls. The little boy, who lives on the old Keno road, one mile west of Worden, was brought to the hospital for treatment.

China has only 10,000 motor trucks to supply an army of several millions.

Reds Bear Down On Finns; Inflict Heavy Casualties

(Continued From Page One)

soviet air force destroyed six artillery batteries, blew up three ammunition dumps and smashed a motorized column, the communiqué claimed.

German commentators persisted in regarding the battle on the Finnish front as a prelude to action on a ground scale elsewhere on the lon, eastern land front. A Berlin broadcast declared the nazi high command expected the main blow of the "imminent soviet offensive in the south," and predicted the Russians would strike in the east "only when fighting in western Europe is in full swing."

Moscow declared German reconnaissance units southeast of Stanislawow in Old Poland had been repulsed, and said soviet airmen bombed enemy airbases at Brest-Litovsk, Dialystok, Pinsk, Minsk, Bobruisk, and Orsha behind German lines on the eastern front, destroying "many German planes" and setting fuel and ammunition dumps afire.

Until as late as 1842, Lower California was thought to be an island instead of a peninsula.

Order **COAL** Now!

Coal Is Not Rationed Yet

Last fall and winter, coal and some of the other solid fuels were rationed.

Due to the foresight of your local fuel dealers, however, it was not necessary here, because we stored large quantities of coal and wood, and you bought in the summer time and filled your own storage bins, too.

In order to keep the mines producing 100% in the summer time, when it's hot and even though you don't need fuel, we are asking you to cooperate and buy your winter's coal right now. Cold, stormy weather, when everyone wants fuel, slows up delivery 100%.

Keep warm and comfortable next winter by buying your fuel today.

If it's "play Togs" you want... there's only one answer... that's FOULGER'S, of course! For here you'll find more Play Suits... more Sun Suits... and more Fun Suits, than you've ever seen before!

PLAY SUITS

HERE are the suits... and NOW is the time... they are striped, printed or solid colors... 2 or 3-piece. Washable? Why, of course!

2.95 and 3.95

SUN SUITS

"SEERSUCKERS"... that word has lots of meaning. They are two-piece, three-piece or four-piece... California styled... and California made.

4.95 to 6.95

FUN SUITS

Two-piece Halter and Short... or three-piece with detachable skirt... Flower prints or plain.

2.45 to 3.95

BLOUSES...

Hawaiian prints... white, beige, red, blue, yellow backgrounds... long or short sleeves.

2.95

SLAX...

Man-tailored pleated front... and made of genuine STRUTTER cloth (it positively won't wrinkle)... brown, red, navy, beige, green.

6.95

ANKLETS!
Just what you need with play suits... With cuffs or cuff-less.
Pr. 35c 3 for \$1
