Army Considers River Development

PORTLAND, June 16 (AP)—U. S. army engineers considered requests today for improvements to Bonneville and Oregon City locks on the Columbia and Willamette rivers.

Lew S. Russell Jr. and Esson Smith, operators of Columbia river towing fleets, declared at yesterday's hearing on river navigation that a current in the upper lock approach breaks up log rafts against piers.

Inadequate Oregon City locks whose log traffic jumped from 98,000,000 board feet in 1937 to 525,000,000 in 1943, are a serious bottleneck to Willamette river towing operations. Fred O. Meyer, manager of Knappton Towboat company, charged. He also urged channel improvements at Rock Island, Iola bar and above Albany.

Cascade

Several large catches of fish have been made in this vicinity. Gene Lavoy and Bennie Benson caught the limit in Rosary lake.

TEN TRAILERS ARRIVE DAILY FOR WORKERS

Ten trailers are arriving daily to be set in Shasta View Trailer park on the southeast corner of the city at the FPMA project. Workmen are busy laying sewer mains and soon an overhead electric system will be set up.

The trailers, which are coming from Myrtle Creek, Ore., and Mountain Home, Ida., will be completely renovated and fumigated before they are rented to local tenants. The dwelling units are spacious, well equipped and convenient.

In two weeks' time tenants may move in provided they are war workers in qualified war industries of this area.

Although parking space will be provided for tenants owning automobiles, the park is only one block off Shasta Way where bus transportation is available.

Progress is also rapid on the apartment dwelling units across the street from the trailers where the K. T. Henderson company is keeping to schedule on the Shasta View homes project.

At this project, approximately 50 men, representing many trades, are employed. The dwellings, well insulated, roomy and completely furnished, promise to provide attractive temporary homes for Klamath's war workers.

Johnny Holm, Herald Rt. 13, living at 2510 Eberlein, is very likely a familiar and welcome personality around the South Sixth end of Mills addition.
