

N. WORKERS TOPS IN BOND PURCHASES

Employees of the Great Northern railway lead all transcontinental lines in the purchase of war bonds by the payroll allotment plan and the Klamath Falls division leads all departments within the company with 358 employees allotting 14.4% of their pay for bonds, according to a report in the May issue of the company publication, "The Signal."

Credit for the good showing in the Klamath division was given to Conductor E. H. Crawford, chairman of the division's war bond committee.

Queried as to how he accomplished the job, Crawford compared it to the regular job of a train conductor. "It was done along the lines of our training, merely a job of railroading in a matter best known to ourselves," he said.

Perhaps I made up the schedule, at the credit goes to the entire committee. Local company officers and representatives joined together with good dispatching, proper supervision, trackmen, firemen, good operators and all concerned with keeping the train on time, Crawford stated.

Out in front again for the Fifth War Loan drive, the track crew of the Great Northern has already gone over their quota by 10% and are still buying "those extra bonds," according to a report Monday to Fifth War Loan headquarters.

Heat Waves, Thunderstorms Reported in Some Sections

By The Associated Press

Fast-tumbling temperatures in the wake of rain and freak thunderstorms were reported today throughout most of New England, the south and middle west while Alaska continued to suffer from a severe week-long heatwave.

At least 10 deaths occurred as a result of the three-day hot spell in the eastern half of the country which began to break Sunday.

Temperatures in the middle west plunged as much as 45 degrees. Ohioans experienced a low of 55 last night after suffering Sunday in a record heat for the day of 101. Similar drops were recorded in St. Louis, Louisville and Chicago.

Although most of the south received some relief, Texas still was hot with El Paso and Dallas reporting highs of 100 and 99 degrees. New Orleans had a high of 93 degrees.

Albuquerque, N. M., underwent the hottest weather of the season yesterday with a 100 degree temperature equalling the record for the date.

Electrical and windstorms caused much damage in Michigan, Wisconsin and Athens, Ga. One man died of heat prostration in Alabama, two of drowning and one from being struck by lightning in West Virginia.

In Maryland three persons were drowned, one killed in a dive off a pier and, one killed when he fell from a scaffolding after being overcome by the heat. A lightning bolt killed a man at Port Jefferson, Long Island.

Cool weather prevailed in Michigan, Iowa, Wisconsin, New York, Pennsylvania, New England and the Kansas City region.

Temporary Whiskey Making Allowed

WASHINGTON, June 20 (AP)—A temporary resumption of domestic whiskey manufacturing was authorized today by the war production board.

WPB notified the nation's beverage distillers that present supplies of industrial alcohol are sufficient to permit them to resume the making of whiskey during the month of August.

WPB Chairman Donald M. Nelson said between 20 and 25 million gallons of 100 proof alcohol, or approximately one-fourth the amount used for whiskey in normal years, would be released to distillers for putting out drinkable beverages.

Today the NATS (naval air transport service) has more than 200 planes, employs 8000 men, and flies 3,600,000 miles a month on schedule.

Bomber Force Hits Rocket Platforms, Oil Refineries

(Continued from Page One)

across Europe and smashing again at the ramps from which Germany's rocket-bombs are launched, lighter allied aerial forces swarmed across the channel in improving weather and renewed the harassment of German forces in Normandy.

Leaves Air

The Paris radio soon left the air, indicating that medium bombers and fighters were hitting behind the German lines.

Today's bomber formation was the fifth force of more than 1000 heavyweights the American air force has sent out since D-day.

The big assault was the third within 24 hours against the Pas-de-Calais area from which rocket bombs continued to stream into southern England today.

The British Mark IV Mosquito bomber is unarmed and flies with little regard to formation, depending upon its speed for protection.

Guayule Production To Continue

WASHINGTON, June 20 (AP)—The house, by a 209 to 43 record vote, receded today from its insistence upon the abandonment of rubber production from the

guayule shrub in the west, and agreed with the senate to maintain the project for another year.

This action virtually assured \$3,020,984 for the cultivation of the 32,000 acres of guayule in the next fiscal year.

Approximately 144 varieties of medicinal plants are being cultivated in the Kiev area of Russia.

Use The Best . . . and Save Besides

Sears Famous CRAFTSMAN MECHANICS TOOLS

It's a fact that only the finest steels available are used in CRAFTSMAN Tools. Any user will tell you CRAFTSMAN Tools have fine balance and superb strength. Work with CRAFTSMAN and you work with the best. Besides, you save at Sears low prices.

8-Pt. and 12-Pt. Sockets, Low Priced at 29c to 59c

CRAFTSMAN Sockets are superior, have tremendous strength. Guaranteed clean cut, perfect. For hexagon or square nuts. Sizes: 7/16" to 1 1/4" in 1/2-inch drive 12-Pt.—3/4" to 1 1/2" in 3/4" drive 8-Pt.—7/8" to 1 3/4" in 3/4" drive 12-Pt.—1 1/2" to 2 1/4" in 1 1/2" drive 8-Pt. Lightweight super-thin wall construction allows plenty of room in tight places.

Extra Deep Sockets 79c - 1.29

Complete range of sizes, 1/2" to 1 1/2" in 1/2" square drive 12-Pt. 3/4" to 1 3/4" in 3/4" square drive 12-Pt. CRAFTSMAN guaranteed quality.

12-Pt. Flex Sockets 1.19 - 1.29

These Flex Sockets allow freedom of action in tight places. Sizes 7/8" to 1 1/2" in 3/4" square drive. Famous CRAFTSMAN quality.

Craftsman Ratchets 1.65-4.19

Fully protected reversing lever. Works free and easy. Sturdy CRAFTSMAN construction. 1/4" to 1 1/2" square drive.

Wrenches & Flex "T" Handles 1.10-1.39

Speeder type Wrenches in 2 sizes, for 3/4" and 1 1/2" square drive. Flex "T" Handles for 1/4" to 1 1/2" square drive.

Craftsman Slide Bar Handles and Extension Bars 59c to 2.25

Use a CRAFTSMAN Slide Bar Handle for tight spots, to provide extra leverage. For hard-to-reach work use with CRAFTSMAN Extension Bars. Slide Bar Handles for 1/4" to 1 1/2" square drive. Extension Bars to fit each, in 3" to 20" lengths.

Why Pay More? Use Craftsman Punches & Chisels 33c to 98c

These famous CRAFTSMAN Tools are tempered, hardened and tested. None stronger made. That's why CRAFTSMAN Tools serve you longer, do a better job. Punches in all sizes and types, for small or heavy work. Chisels in "Cold," "Cape" and "Diamond-Point" types, in all wanted sizes.

Sero-Tone THE MAGIC WALL FINISH

Be your own decorator! Enjoy the thrill of making your rooms bright, cheerful! Just mix Sero-Tone with water . . . brush or roll on any interior wall, even solid wallpaper . . . have a beautiful, flat, washable finish with little effort. Try it . . . You'll like it!

SERO-TONE ROLLER 79c

Easy to use. Produces a charming stippled effect.

"TRIMZ" BORDERS 12 Ft. Roll 15c

Ready pasted. Dip in water to apply. Colorful patterns.

Three Paint Brushes 1.29

Genuine horse-hair "flagged" bristles spread paint smoothly, evenly. Long bristles hold 100% more paint, save time.

First in the world TO USE MAGIC BEADS

- IN MAKING THE NEW SUPER 100-OCTANE AVIATION GASOLINE

The new, huge refinery of General Petroleum Corporation at Torrance is the first refinery in the world to use the amazing new synthetic catalyst known as "magic beads." Passing through these porous beads, the gasoline stock assumes octane and power values heretofore unknown. We call this new-type gasoline

Flying Horsepower

As part of a vast 90-million-dollar program—the greatest catalytic cracking program in the world—the entire output of this new General Petroleum refinery equipment goes to our armed forces to enable our planes to go farther, climb higher and carry heavier bomb loads than ever before.

After victory these new magic beads will be producing "Flying Horsepower" for your car. You will get a new motoring thrill with flash getaway and dynamic power response. It's coming—in Mobilgas—at the Sign of the Flying Red Horse.

GENERAL PETROLEUM CORPORATION

A catalyst is an agent that produces a chemical change while remaining unchanged itself.
