Repatriation of Prisoners Now Under Consideration

By WILLIAM E. LOWELL WASHINGTON, July 8 (AP)—Repatriation of sick and wounded Americans held prisoners of war by Japan is under discussion with Tokyo, Senator Thomas (D-Utah) disclosed today. The discussions—without result as yet—are being conducted through the Swiss government.

Japan has refused thus far to repatriate military prisoners or any of the non-military construction workers captured on Guam and Wake, said Thomas, chairman of a senate foreign relations subcommittee.

Quoting a letter from Secretary of State Hull, Thomas told a reporter 19,919 American prisoners of war were held by Japan on May 25 and on May 23 there were 5543 civilians held

by the Tokyo government according to reports from representatives of the Swiss government and the International Red Cross.

Military intelligence, Hull said, reports only 17,175 war prisoners held by Japan, but that figure takes into account unofficially reported deaths in the Philippines. The provost marshal general, he added, advises that approximately 7000 civilian internees have been reported.

Hull's letter spoke only of returning home Americans held by Japan; the question of an exchange (the United States hold comparatively few Japanese prisoners of war) was not treated in it.

MAJOR GUILTY OF ORDERING BEATINGS

ATLANTA, July 8 (AP)—Major Louis Rothschild Lefkoff, 34, of Atlanta, has been court-martialed and found guilty of ordering the flogging of nine military prisoners at Camp Van Dorn, Miss., fourth service command headquarters reported today.

Major Lefkoff, formerly proprietor of a dry goods store here, is confined to his quarters at the camp pending review of the proceedings by President Roosevelt. The verdict calls for confinement for a year at hard labor, forfeiture of pay and allowances and dismissal from the service.

The army said six white and three negro prisoners were beaten but none suffered permanent

injury. Corporal punishment is against army regulations. Testimony was offered to show Major Lefkoff ordered a stockade guard to flog the prisoners, described as "trouble-makers," and that the guard refused. The prosecution alleged that Major Lefkoff then called military policemen and gave them the order, standing outside the guardhouse while MP's whipped the prisoners with rubber tubes weighted with 45-calibre bullets.
