The War Today

By DeWITT MacKENZIE
Associated Press War Analyst

THE new and heavy attacks on the islands of Guam and Rota by American warships and bombers are a natural accompaniment of our capture of the neighboring island of Saipan—the strategic air and navy base which has been one of the enemy's main shields not only for Japan proper but for the Philippines.

The war is moving very fast in the Pacific. The fresh assaults on Guam and Rota certainly press neutralization of these bases and it's not unlikely that we shall occupy them. I believe we may expect similar operations in the immediate future against other major Japanese bases in this inner defense arc—Truk, Yap, Palau and Bonin, all of which are now within reach of our big bombers.

Where Do We Go?

BUT after we have neutralized and perhaps occupied these islands, where do we go? It would indeed be interesting to know what ideas are being nursed by those two energetic and resourceful old campaigners, General MacArthur and Admiral Nimitz, now that we have

possession of Saipan. Certainly what this pair has in mind would bring no joy to a harassed Nipponese government which 12 days ago, during the height of the bloody struggle for Saipan, broadcast to its public:

"We, the 100,000,000 people of Japan, must realize now, if ever, that the outcome of the battle of the Marianas (the group of which Saipan is the main island) will exert a very serious influence upon the future war situation."

Very Serious Influence

WELL, what "very serious influence" is likely to emanate from this volcanic island which American forces have won at heavy cost to their own ranks, and with the annihilation of an estimated 19,000 of the fanatical Japanese garrison of 20,000 which elected to fight to the death? There are several possibilities, for Saipan is at the crossroads of the Japanese empire and will provide Uncle Sam's super-bombers with a land base less than 1500 miles from Tokyo and about the same distance from the Philippines.

This means that when we have completed neutralization of the few islands in this Japanese defensive arc we shall have cleared a pathway which will permit our direct assaults against the Dutch East Indies, the Philippines and perhaps against Japan itself. So it won't be long before we are at close grips with the Mikado's main forces.

All this is fully recognized by the Japanese government which is being blunt in warning the public of the seriousness of the situation. Tokyo's immediate worry is the certainty that the mother country is going to be heavily bombed. This means disaster, for Japan's overcrowded cities are flimsily built and the destruction will be great. Evacuation of children from Nippon's six principal cities already is under way.

As the signs read, aerial bombardment of Japan is going to be a major factor in forcing her capitulation.

Democrats Talk Convention Ideas

By The Associated Press

Democrats talked platform and vice presidential problems today while republicans looked forward to a pooling of the election-winning abilities of their 26 governors for the benefit of Thomas E. Dewey's race for the presidency.

Rep. John W. McCormack of Massachusetts, majority leader in the house and chairman of the democratic convention platform committee, expressed confidence that one plank will call for "sound and international action to prevent war and to assure permanent peace."

The convention starts a week from tomorrow in Chicago but a two-hour visit between President Roosevelt and Vice President Wallace at the White House yesterday produced no new information on how Wallace stands for renomination.

Discussed China

Whether Mr. Roosevelt, the expected nominee for a fourth term, requests Wallace's selection will be a great consequence, but Wallace was emphatic in saying the only subject they discussed was China, whence he has just returned.

At Montgomery, Ala., Gov. Chauncey Sparks declared that southerners who want to supplant Wallace are unwise in not uniting behind one candidate alone. He said he thought Senator Alben Barkley of Kentucky would be a good bet politically.

Governors' Confab

A conference of republican governors, which was disclosed by Gov. C. A. Bottolfsen of Idaho as having been set for Kansas

City August 2-3, was discussed at the national convention which nominated two state executives—Dewey of New York and John W. Bricker of Ohio, for vice president.

Gains made in recent years in the number of states governed by republicans were described at the convention by Gov. Earl Warren of California; the keynote speaker, as proof that the country as a whole will go republican in November.

CIO Committee
Politicians interested in the influence of the CIO's political action committee watched today's race between Mayor Maurice J. Tobin of Boston and State Treasurer Francis X. Hurley for the democratic nomination for governor of Massachusetts.

Tobin had the CIO's support, although Joseph A. Salerno of the CIO, said in a statement that the contention of some that the "issue" in his group is "flattering but untrue."

Chose Nominees
Utah, Washington, Michigan, New Hampshire and Oklahoma chose nominees for congressional and state offices.

In Minnesota, unofficial returns showed Gov. Edward J. Thye won republican renomination handily in yesterday's primary. Byron G. Allen also appeared assured of the governorship nomination of the combined democratic-farmer-laborer party.

Returns from 806 of the 3703 precincts gave Thye a 10 to 1 lead over John G. Peterson of Minneapolis, his nearest opponent. Allen had a 22,218-to-12,710 lead over Emil E. Holmes at the same juncture.

State Laws Afford Troops Opportunity for Voting

SALEM, July 11 (AP)—Chances of Governor Earl Snell's calling a special legislative session to facilitate soldier voting appeared extremely remote today after Oregon county clerks agreed with state election officials that existing state laws will afford ample opportunity to service men to vote in the November 5 general election.

The clerks, meeting here at the

call of Secretary of State Robert S. Farrell, Jr., agreed that they could mail ballots to service men within a day or two after the deadline for filing of independent candidates, which is 45 days before the election.

Some agreed to print ballots in advance, while the others agreed to begin printing ballots on the night of the 45th day be-

GOP GOVERNOR CONCLAVE SET FOR AUGUST

By CHARLES H. PALMER
ALBANY, N. Y., July 11 (AP)—Gov. Thomas E. Dewey announced today a conference of republican governors would take place August 2 and 3 in St. Louis.

Dewey, GOP presidential nominee, will attend the conference with the other 25 republican governors, including John W. Bricker of Ohio, the vice-presidential nominee.

Dewey said the conference would be concerned with the "area of responsibility and obligation as between states and the federal government and how these obligations to the people can best be performed."

Dewey made the announcement at a press conference. He said he had talked with 24 governors by telephone and that he had been in communication with Governor Walter E. Edge of New Jersey, who is in Quebec, by telegraph.

"Every single republican governor has indicated his great pleasure in coming and says he expects to be there," the governor disclosed.

Asked to outline the purpose of the conference, the republican standard bearer said: "There has been continuing debate ever since the new deal took office over the area of responsibility as between the states and the federal government."

"That discussion has covered topics such as employment services, the aids to agriculture, particularly centering around the use of land grant colleges, the responsibility for relief, the effort three years ago to federalize unemployment insurance entirely, and, of course, the very large field of taxation in general."

The purpose, the governor continued, is "to consider the areas of responsibility and obligations and how these obligations to the people can best be performed."

Secretary of State Farrell said that by using air mail, 36 days is the maximum time required to send and receive ballots.

He said that service men within the United States were no problem, as they are within two days time by air mail.

Farrell said that if a service man overseas does not receive his ballot by October 1, he can send in a federal ballot. Then, if he should receive a state ballot a few days later, he could mail that in, too. The precinct election board would count only the state ballot.

Farrell also cited an attorney general's opinion that service ballots could be counted up to an including election day, despite a law providing that absentee ballots shall be in the county clerk's hands at least five days before election day. Farrell said this law is not mandatory.

Some clerks objected to printing ballots ahead of time because they might have to destroy them and print new ones on account of the filing of independents, but Farrell said the state would pay for any destroyed ballots. The clerks agreed to appeal to independent to file their candidacies before the deadline to allow early printing of the ballots.

Farrell asked the clerks to begin immediately to address envelopes to the service men.

Potatoes

CHICAGO, July 11 (AP)—Potatoes were in demand today, with prices generally higher than last week.

U. S. shipments 452; supplies moderate; demand good; market local California 45-50; U. S. No. 1, 43-45; U. S. No. 2, 41-43; Arizona Bliss Triumphs U. S. No. 1, 44-45-46.

WHEAT

CHICAGO, July 11 (AP)—A high government crop forecast, including provisions for an all-time record wheat harvest, unsettled grain futures today.

Wheat was not as great as expected, however, and most prices rallied at times under short-covering.

Some clerks showed more strength than other, but prices rallied at times under short-covering.

Wheat closed unchanged to 1/2 cent lower, July 11, 50¢, was 1/2¢ higher to 1/4¢ lower, July 7-9, 77¢, rallied rather sharply to finish 1/2 to 1/4¢ higher, July 1, 1 1/4-1 1/2, and barley was 1/2 to 1/4¢ up, July 1, 1 1/2-1 3/4.

VFW Receives Complaints From Overseas Veterans

KANSAS CITY, July 11 (AP)—R. B. Handy, Jr., adjutant general of the Veterans of Foreign Wars, declares that some of the men returning from combat duty overseas have complained that:

- (a) They have been refused furloughs.
- (b) They are given little rest or liberty.
- (c) Some of the wounded and ill are being discharged from hospitals "with only perfunctory physical examinations."

Handy said the VFW bureau in Washington had written the army and navy about ten days ago for an investigation of these complaints.

"These men are being put through a 'reconditioning' program which does them and the armed forces no good," Handy said in an interview yesterday.

"Some of them are being shunted into the infantry, for which they are not fitted."

Handy's office made public a letter which a spokesman said had been sent to the VFW Washington office by Secretary Stimson.

"I think you will agree that mistakes and abuses of the nature you mention are inevitable

WPB AMENDS ZINC SHEET RESTRICTIONS

WASHINGTON, July 11 (AP)—The war production board today amended restrictions on zinc sheet for printing plates to permit the use of 100 per cent by weight of the amount of zinc used by the plate maker in the corresponding quarter of 1941. Formerly the use of only 60 per cent was permitted.

Today's order also permits consumption of as much as 250 pounds of zinc in any calendar quarter.

WPB emphasized that zinc for printing plates must be calculated by weight. Zinc is defined as including any alloy which contains 50 per cent or more of zinc.

The amended order revokes a provision permitting unrestricted use of zinc for plates or printing ordered by a government department or agency.

At the same time WPB released for use in making copper plate engravings, whatever sheet copper was in the hands of suppliers on December 31, 1942. Also, copper plate engravers now need turn in only one pound of old copper plate engravings as scrap, instead of the three pounds, for each pound of copper going into new engravings.

WPB said this does not increase the permitted usage of copper by an engraver, which total usage is limited to not more than 60 per cent by weight of 1940 quarterly usage of both copper sheet and old engraved plates.

OBITUARY

DONALD LAMONT WICKER
Donald Lamont Wicker, resident of Klamath Falls for 10 years, passed away suddenly today, July 11, 1942, at 2:40 p. m. following a very brief illness. He was a native of Hull, Wisconsin, and was 28 years, 6 months and 14 days of age at the time of his passing. Besides his widow, Mrs. Hazel Wicker, 1831 Gary street, Klamath Falls, the deceased is survived by three daughters, Elaine, Donna, and Sandra Wicker of this city, and two brothers, James Wicker of Medford, Ore., and Howard Wicker of California. The remains rest at Ward's Klamath Funeral Home, where friends may call after 7 p. m. Wednesday evening. Funeral arrangements will be announced later.

Australia supplies an average of 2800 horses a year to the military service in India in normal times.

Before his invention of the steamboat, Robert Fulton was a portrait painter.

VITAL STATISTICS

BOTKIN—Born at Klamath Valley hospital, Klamath Falls, Ore., on July 11, 1942, to Mr. and Mrs. L. F. Botkin, Jr., Box 2345, a girl. Weight, 7 pounds.

BETTER CARE FOR BABY

Relieve the torturing discomfort of your baby's diaper rash—even help prevent it—by sprinkling on MESSANA after every change. He'll rest comfortably—sleep better—and you'll get more rest, too. Messana is a soothing medicated powder for the itching and burning of heat rash and other simple skin irritations. Messana's special base helps absorb moisture often the cause of heat rash—thus often prevents it. Costs little. Saves in larger sizes. Today—for baby's sake get Messana.

THERE IS ONE

In a former study we pointed out that the scriptures teach there is one God, and one Lord, the Christ. These facts are generally accepted by most religious people. Today we shall see what the scriptures teach relative to the One Spirit. The same text that says there is one God and one Lord, says there is one Spirit. In Jno. 16:13-15 Jesus speaks of the Holy Spirit as a personal being whom he would send to the apostles to guide them into all truth. Please notice that the mission of the Holy Spirit was to guide the apostles into the truth.

It is inconceivable that the Holy Spirit could speak the truth and at the same time speak all of the different and contradictory doctrines that are taught in religion today. One group of people claim to speak under the direction of the Holy Spirit while others teach that Saturday is the day upon which God requires his children to worship Him. Others teach that the Sabbath has been changed from Saturday to Sunday, while others teach that the Sabbath was a part of the old covenant which was abolished in the death of Christ, and that the Lord gave a new day to His people. Here are three distinct and opposite doctrines relative to the day which the Lord would have us keep in His memory. Does the one Spirit teach all of these opposite doctrines? If so, he failed in the mission on which he was sent by the Lord, and has become an agent of falsehoods, because the truth never contradicts itself.

There are also those who teach that the Holy Spirit in the baptismal measure is poured out today upon the children of God, enabling them to perform all kinds of miracles, while others strongly affirm that this is not so, but that the baptism of the Holy Spirit is given to sinners to give them enabling power that they might believe the gospel, and be regenerated or born again, and that no miraculous gifts are imparted. There are still others who teach that the Holy Spirit convicts and converts sinners, through the Word of God, which is the sword of the Spirit, and that miracles and gifts of healings were only given in part, to the apostles and those on whom they laid their hands, in order to confirm the words spoken, and that when the apostles and those on whom they laid their hands died, these miraculous gifts ceased. Surely no one believes that there is any consistency in affirming that the Holy Spirit taught all these different and contradictory doctrines concerning his own work. The only way that all of these different doctrines can be justified is to admit that more than one spirit directed them, and since there is only one Holy Spirit, then some of these positions are false. John the Apostle warned us that we should "try the spirits for many false prophets have gone out into the world." More tomorrow. Because of the damage to the tent, resulting from the strong wind last Saturday, services are being held temporarily each evening at the building of the Church of Christ, 2205 Wentland Ave.
