

THIS CURIOUS WORLD

DID YOU KNOW THAT
THE MOON DOES NOT
RISE EVERY DAY?

T. M. REG. U. S. PAT. OFF.

THAT THE
SO-CALLED "WET"
AND "DRY"
POSITIONS OF
THE MOON CAN
BE PREDICTED
CENTURIES IN
ADVANCE.

THAT THE MOON COMES UP
ON AN AVERAGE OF
FIFTY MINUTES LATER EACH
SUCCESSIVE TRIP.

THAT A FULL MOON
CAN RISE ONLY
AT SUN SET.

THAT THE MOON
CIRCLES THE EARTH
FROM WEST TO EAST.

THAT THE HIGHEST TIDES ARE
NOT DIRECTLY UNDER
THE MOON, THOUGH IT'S THE
MOON THAT CAUSES THEM.

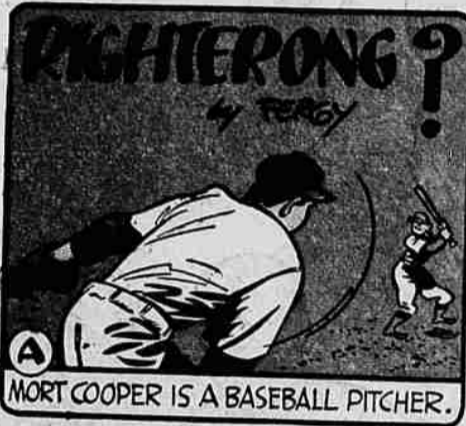

THAT THE MOON TURNS ON ITS
AXIS IN SPITE OF THE FACT
THAT WE SEE ONLY ONE SIDE.

THAT
IT'S POSSIBLE
TO HAVE TWO
FULL MOONS
IN ONE
MONTH.
