Beauty IS YOUR DUTY
By RITA WHISENANT

GOOD grooming, which means superlative cleanliness and meticulous attention to personal daintiness, is an essential which may still be achieved in spite of hot, "muggy" days. The routine of good grooming should be as natural to a woman as brushing her teeth.

UNDER-ARM perspiration is an annoying problem which may be easily solved with a few minutes care daily. Du-Barry "Dainty Dry" is the best preparation I know.

FOR best results, bathe under the arms or where it's to be applied... rinse well, and dry. Apply Dainty Dry freely... let it dry for five minutes. To protect your clothing, rinse it off with clear water and dry before dressing.

DU-BARRY Dainty Dry also should be applied BEFORE shaving under the arms or before using a depilatory, not after. Dainty Dry comes from the Richard Hudnut laboratories. I think you'll like it.
