Munich Area, Southern Germany Hit in Attacks On Rail Yards, Airfields

LONDON, July 19 (AP)—Nearly 2500 American heavy bombers and fighters in coordinated attacks from Britain and Italy attacked the Munich area and a large array of rail yards, airfields and war plants in southern Germany today.

More than 1200 Flying Fortresses and Liberators packed bombs from Britain. Up to 500 of their brothers of the U. S. 15th air force in Italy reached across the Alps and bombed aircraft factories, an airfield and an ordnance depot near the fourth largest German city.

A number of the targets were in the Munich area, where the nazis previously reported a

double attack from Britain and Italy. Munich, hub of five trunk railways, one leading through the Brenner pass to the melting German front in Italy, is believed to be one of the German sites for manufacture of flying bombs, hurled in strength against southern England today.

Objectives included the great bearings plant at Schweinfurt, a frequent American target earlier this year. Another was a chemical plant at Hellriegelskreuth on the outskirts of Munich, a plant making oxygen and hydrogen used for the robot bombs.

The great raid followed close upon assaults by up to 1000 heavy British bombers and an added number of Mosquitos on Berlin, Cologne, the Ruhr, rail targets near Paris, railroad yards 100 miles east of Paris at Revinny and other objectives.

Lyman Patrick and Carol Metler are both awaiting a call to report to Portland offices for physical examination for the merchant marines.

Mrs. Charles Schaaf of 4779 South Sixth had the misfortune to fall and break a leg. She will be confined to her home for some time and Mrs. Noel Patrick is caring for her.

Dorothy Lund has returned from Vancouver where she has been visiting friends and relatives for the past few weeks.

Halden Lloyd Sexton of Lacombe, Ore., is spending a few weeks at the home of his uncle and family, Lloyd Miller of 1540 Homedale.

One of the summer diversions of the youngsters of upper Homedale was a carnival produced by some energetic children of the neighborhood. A sideshow of freaks, consisting of a horned toad, a turtle, a water snake and a black rabbit, brought the most pennies. Games of skill and thrilling home-made rides swelled their treasury to a grand total of \$5.50 at the end of a two days' run.

Guests in the Harold Hornsath home Sunday were Mr. and Mrs. Andrew Perrson and Ted Hendrickson.

Mrs. Frank Fleet and son, Freddie, visited at the J. C. Grove home Monday.

Sincere sympathy is extended by this community to Mrs. Jack Hales of 1026 Homedale. She received a telegram from the war department Monday notifying her that her only son, John Turner, was killed in action during the French coast invasion, June 6. Turner was serving in the tank division. He enlisted from Klamath Falls following the attack on Pearl Harbor and had been stationed in England prior to the invasion.

Red Cross workers are urgently needed at the bandage folding center at Shasta school. Just what are you doing for these boys who are wounded and dying fighting your war?

JAPANESE RETURN TO HOMELAND URGED

WENATCHEE, July 19 (AP)—A statement by Third District Congressman Fred Norman demanding that all Japanese be returned to Japan under terms of the peace treaty brought loud challenges from delegates on the floor of last night's session of the Washington State Federation of Labor convention here.

Cries of "what about the Constitution?" and "what will you do with the American-born Japanese who are fighting the Ger-

mans in Italy?" interrupted Norman's speech.

"That would be a matter of treaty," Norman said.

He pledged opposition to labor draft proposals and reviewed labor matters at the capital.

Fire fighters in Oregon had also fight a pack of wolves. How did they get so far away from the big cities?
