

STOP FOREST FIRES!

Here's a scene that would make our enemies happy - lumber is vital!

Every May Klamath Falls observes Stop Forest Fires Week, originated by your own local American Legion post. Hard working committees put on a bang-up program. There is plenty of public support and enthusiasm. The event is recognized as one of the outstanding forest fire prevention efforts in the state.

All this is as it should be. Klamath Falls depends upon her forest industries, and forest fires are the great enemy of our future welfare. But--it is not enough just to put on the big program, and then figure that our job is done until next year. "Stop Forest Fires" should be uppermost in the minds of every citizen throughout the forest fire season,--or at any other time when forest fires will burn.

Forest fire prevention is not something that can be accomplished by any one man,--or any one organization. It's "the everlastin' teamwork, of every bloomin' soul" that counts. From now until the fall rains forest fire prevention is "my business, your business, everybody's business."

The fine record of last year can be made even better this year, if each one does his part. How about it? All together, now,--
