eynoter Answers ewey Challenge of Tired Old Man"

By THOMAS A. REEDY

ICAGO, July 20 (AP)—In- d by the rip-snorting key- speech of a towering, som- -wearing oilman-governor, ourth term democrats laid 1944 campaign strategy ely on the line today and ounted to this as Republican Thomas E. ey says, President Roose- velt and his new deal coneagues are "tired ole men," so are Churchill, Stalin and Chiang Kai-Shek.

The 42-year-old Dewey raised are age issue when he became the republican nominee; the democrats threw it right back at him as they prepared to give Mr. Roosevelt his fourth consecutive nomination and offered to fight out the election on just that line.

Spokesman for this challenge was Oklahoma's Governor Robert S. Kerr, who roused the democratic convention delegates to their highest pitch of the week last night by his 4000-word keynote address.

It was built around one theme—a change in administration while the nation is at war.

Six-foot-three and beaming beneath a snow white 10-gallon hat, Kerr depicted his party under Roosevelt as the party of achievement; the republicans as exemplified by Dewey as untested with no program except to "oppose."

The Oklahoman brought down the crowded house with references to "12 long years when America 'hardened' under Harding, 'cooled' under Coolidge and 'hungered' under Hoover."

Dewey is Hoover's candidate, said Kerr.

The keynoter did the unusual with his many references to Dewey. He hit most at the New Yorker's blast about the "tired ole men" of the new deal.

He said:

"Shall we discard 59-year-old Admiral Nimitz? Sixty-six-year-old Admiral King? Sixty-four-year-old General George C. Marshall? Sixty-two-year-old Admiral Halsey?"

"No, Mr. Dewey," Kerr exclaimed, "we know we are winning this war with these 'tired old men,' including the 62-year-old Roosevelt as their commander-in-chif. What diplomatic or minitary experience have you had that justifies you or us in believing that you can handle the most difficult and important responsibilities and duties ever placed upon the shoulders of any American?"

Churchill, Stalin and Chiang will be at the peace table, he said—their countries' "greatest and wisest" men.

"Who will represent the United States?" he asked. "An untried leader who has not even told his own people what his views are? Or the man who has from the start declared his position in clear and certain words and who has the respect and esteem of all the United Nations?"

FRESH PLUM JAM IS EASY TO MAKE

This Delicious Recipe Saves Sugar and Fruit

(Using Sour Clingstone Plums)

6 Cups Crushed Plums
8½ Cups Sugar
1 Package M.C.P. Pectin

Wash and pit 3½ pounds fully ripe plums. Do not peel. Cut into small pieces and crush thoroughly. Add ½ cup water and simmer, covered, for 5 minutes. Measure exactly 6 level cups of the crushed plums (add water to fill last cup, if necessary) into a large kettle. Add the M.C.P. Pectin, stir well and bring to a boil, stirring constantly. NOW, add the sugar (which has been previously measured), mix well and bring to a full rolling boil. BOIL EXACTLY 4 MINUTES. Remove from fire, let boil subside, stir and skim by turns for 5 minutes. Pour into sterilized jars, allowing ½-inch space for sealing with fresh paraffin.

(Using Sweet or Freestone Prunes)

4½ Cups Crushed Plums
7 Cups Sugar
½ Cup Lemon Juice
1 Package M.C.P. Pectin

Sour clingstone plums make the best jam. If sweet or freestone prunes are used, be sure to use the recipe given directly above, following the same method of handling as for sour plums.

Maverick Warns Coastal Problems May Get Tough

SEATTLE, July 20 (AP)—Victory in Europe before cessation of hostilities in the Far East will make west coast industrial reconversion problems tougher than in the rest of the country, Maury Maverick, chairman of the Smaller War Plants corporation, warned today.

In a report which he termed neither final, complete nor perfect prepared for delivery before the Seattle chamber of commerce as "a post-war plan for the west," Maverick asserted that "the adjustment of plant production, from war to non-military goods, should be gradual and continuous. Any other policy is both stupid and dangerous.

"If the war in Europe ends, or ends partially, before the end of hostilities in the Far East, reconversion will undoubtedly begin on a large scale. It is estimated that military requirements will be reduced sufficiently to cut back total war production at least 35 per cent at the successful conclusion of the European phase.

"However, the prospect of a European victory or victories has a different meaning to the industries on the Pacific coast because the cutbacks in that area will probably be much less proportionately than in the nation as a whole. That is because shipbuilding and aircraft production will probably be needed in nearly as large quantities as now, for prosecution of the war against Japan alone.

"All this means that ultimate problems of the west coast will be tougher and more sudden than the rest of the nation."
