

THIRD OF AIR DROME TAKEN ON TINIAN

(Continued From Page One)

fire until the ninth landing wave, and then only with mortars and machineguns — "lightly, compared to Saipan." The marines progressed at least 600 yards during the first two hours.

Civilians Hide
Green said Tinian's civilian population of 15,000 apparently went underground as in the early days at Saipan, three miles north of Tinian. Hiding in the bushes were several children. They were taken to Saipan. Americans invaded Saipan June 14 and, suffering the heaviest casualties of the Pacific war, completed its conquest July 8.

Rota Hit
Only major island in the southern Marianas upon which Americans have not yet landed is Rota, midway between Guam and Tinian. It was attacked by carrier aircraft Sunday.

Bombers from the Nimitz area and from the New Guinea theater, commanded by Gen. Douglas MacArthur, continued joint assaults upon the Caroline islands, striking Yap, Palau, Woleai and Ponape. Two of eight intercepting enemy planes were destroyed at Yap.

Ventura search planes also attacked Shimushu in the northern Kuriles Saturday, starting a large fire near the airfield.

Japs Trapped
In British New Guinea, the vanguard of 45,000 Japanese trapped near Wewak again three times attacked American lines east of Titape in a desperate new attempt to break through to Japanese-held Dutch territory. They drove straight into American lines in a column of companies, only to be mowed down by 75 mm. and 105 mm. artillery fire. Quickly-closing Yank jungle fighters cleaned out the few who survived.

Visiting Here — Mrs. W. R. Pierce of Corpus Christi, Tex., is visiting here with her parents, Mr. and Mrs. Sol Hasbrouk. Mrs. Pierce's husband is a lieutenant with the United States navy.

President
Wade Newbegin, above, is president of R. M. Wade and company, which, with its manufacturing division, the Multnomah Iron Works, received the maritime "M" pennant, and the Victory fleet flag. Merit badges were awarded to all employees of the company by C. W. Eliason, Pacific coast industrial relations adviser for the maritime commission. The companies are engaged in building material for tankers, coastal vessels and Victory type ships.

NAZI CONTROL OF OFFICIALS STRONGER

(Continued from Page One)

war. No forces may be lent from either the armed forces or armaments.

Closing In
The government reorganization came with Russian army groups less than 50 miles from Warsaw, less than 150 from German Silesia, and within artillery range of East Prussia. In France, American and British armies were on the offensive. In Italy, two shattered German armies were reeling back toward the Gothic line in the north.

A leader of the battered German armies in the east, Field Marshal Gen. Walther von Model, sent a message of congratulations to Hitler today on his escape from assassination last week—perhaps in tacit admission that the nazis at least temporarily control the armed forces of the reich.

Tighten Grip
The message was broadcast by Transocean after the nazis had hinted they were preparing even more drastic measures to tighten their grip on the war-weary home front and Hitler's henchmen apparently had gained complete mastery of the German army.

At the same time Foreign Secretary Anthony Eden told the house of commons the reich government "had been at great pains" to prevent information on the upheaval in Germany from leaking out and that he was unable to estimate the full extent of the trouble "or to draw any inferences as to its likely development."

He added cautiously, however, that "we might justly draw encouragement from the recent news."

GROUND DRIVE BURSTS FORTH IN NORMANDY

(Continued From Page One)

fallen St. Lo to Lessay on the west coast.

(Berlin said the Americans attacked from the area northwest of St. Lo, and declared a small penetration had been sealed off.)

Towns Taken
The British second army, hammering along on a four-mile front down the road to Falaise, captured St. Martin de Foenatay and Verrieres and street fighting raged in May-Sur-Orne. These towns are some five miles below Caen.

Headquarters announced that the U. S. 115th infantry regiment, formerly the Maryland national guard first infantry, and the 134th infantry regiment, which was the fourth Nebraska infantry in the First World war, were fighting around St. Lo within the last week.

Savage Fighting
Fighting also swirled for the town of Tilly-la-Campagne. Front dispatches said there was savage, close-quarter fighting in indecisive battle after the British-Canadian cracked through the outer crust of German defenses and ran into a bristling series of anti-tank positions and machinegun nests. The Germans threw in batches of tanks to hold their lines.

The British jumped off before dawn, and the American attack opened shortly before noon. Huge artillery barrages supported both drives.

Spray Defenses
Besides the big bombers, the American air fleets aiding Lt. Gen. Omar N. Bradley's troops included medium and light craft spraying German defenses with bullets and fragmentation bombs.

The double offensives broke a four-day stalemate in France. Gen. Sir Bernard L. Montgomery, side-stepping a formidable German anti-tank screen south-east of Caen, sent his forces piling southward on the road to Falaise along a four-mile front, heading toward firm, open ground excellent for tank battles.

Highway to Falaise
The ridge highway which the British and Canadians were following leads to Falaise, birthplace of William the Conqueror, and to Paris. In the early hours of the push, while the advancing troops still were shielded by ground mists, the British and Canadians reached May-Sur-Orne for an advance of 700 yards and Verrieres for a gain of 1500 yards. They also reached Tilly-la-Campagne, nearly a mile east of the road. All these points are about five miles below Caen. Bad weather checked Gen. Montgomery's offensive last week.

Falaise is 20 miles southeast of Caen and 110 air line miles west of Paris.

Allies Smash Toward Florence

ROME, July 25 (AP)—Steadily driving the Germans from one defensive position after another, allied armies pushed within 10 miles of Florence and made limited gains elsewhere today along the Italian battlefield.

Official reports from the battle sectors said the tempo of the fighting had dwindled as the Germans gradually gave ground while preparing their defenses along the north bank of the Arno river between Florence and the west coast. However, a brisk fight developed east of San Miniato when the Germans launched two counterattacks in an unsuccessful effort to prevent the fifth army from extending its lines eastward toward Florence.

OBITUARY

EUGENE W. GARRETT
Eugene W. Garrett, Machinist Mate 1/c United States Merchant Marine, a former resident of Tulelake, Calif., passed away at Port Chicago, Calif., on Monday, July 17, 1944. He was a native of Grants Pass, Ore., and at the time of his death was aged 21 years 4 months and 7 days.

Surviving are his parents, Mr. and Mrs. Commodore Garrett of Tulelake, Calif.; one brother, Elmer L. Garrett, United States army transport service; one sister, Miss Velta Garrett of Tulelake, Calif.; and the grandparents, Mr. and Mrs. Eugene Witherell and Mrs. Lulu Garrett of Grants Pass, Ore. Upon arrival in this city the remains will rest in the Earl Whitlock funeral home, Pine at Sixth. Notice of funeral to be announced at a later date.

HARD AND QUICK if they can ever catch us at a disadvantage.

THE 45,000 trapped Japs on New Guinea are apparently reaching the suicidal stage. They are described today as driving STRAIGHT into our lines in a COLUMN OF COMPANIES. They were MOWED DOWN by our 75s and 105s, and "quick-closing" Yank jungle fighters cleaned out the few who survived.

IN a news conference today, the reporters tried to lead Forrestal into a statement as to when the Jap war might be expected to end. He side-stepped wisely. The Jap war will end when the Japs are licked.

IN New York today, the stock market revived a LITTLE—but not much. The speculators (like the rest of us) aren't sure yet what has happened in Germany.

AFTER THE WAR industry note: Kaiser is to make steel-framed prefabricated house sections. It has always been said that houses can't be satisfactorily prefabricated. Until Kaiser and others DID IT, it had always been said that SHIPS couldn't be prefabricated.

THE latest skirmish of the home front political war: The Western Union accepted for transmission a congratulatory message from FDR to Truman (no one ELSE can send 'em). We Republicans are shocked by such discrimination. The New Dealers take it in stride.

SENATOR TYDINGS, of Maryland, wouldn't be surprised, he says, if congressional leaders decide to defer all controversial legislation until after the election. He's spoofing us. Neither would anyone else. That's the way we do things on the home political front.

Appeal to Nazis Printed by Reds

MOSCOW, July 25 (AP)—Moscow newspapers printed today over the names of 16 captured German generals an appeal to all German officers and soldiers to renounce Adolf Hitler and bring the war to a close by refusing to fight further.

Reproductions of the signatures of the generals were headed by that of Gen. Velkers, former commander of the 27th army corps.

The statement declared that the signers, through long service in the German army in two wars, had come to the conclusion that the present struggle is hopeless.

Ivory to Speak On Convention Events

E. P. Ivory, chairman of the local democratic central committee, will speak on the highlights of the democratic national convention at Chicago, which he attended last week, at a meeting tomorrow night (Wednesday) of the central committee at 8 p. m., in the courthouse.

Several other important matters are to come up at the meeting. Anyone interested in democratic politics, even though not a member of the committee, is invited to attend.

MT. DOME FIRE UNDER CONTROL

(Continued From Page One)

initial suppression crew to hold it, and the blaze raced wildly through the dry grass and brush lands. In addition to marines from Klamath Falls, soldiers from Camp Tulelake, and sawmill crews, Modoc forest officials called for heavy farm equipment from the Tulelake valley in constructing the trails that finally checked the blaze.

According to the office of Ranger George Fisher of Tulelake, the fire was prevented from burning into valuable timber or grain lands. Timber mountain lookouts first sighted the fire, just after the bolt of lightning. First crews to go to the fire were from Mt. Hebron and Double Head district.

Catastrophe Prevented
Ranger Fisher said at Tulelake that the forest service is deeply grateful to the Marine Barracks, Klamath Falls, Camp Tulelake, lumber camps and the Tule valley ranchers who cooperated in preventing a catastrophe. Forest service "overhead" from Alturas, Shasta National forest and Klamath National forest, assisted in the fire fight.

Fire hazards continued high throughout this region today, with more lightning threatened this afternoon.

9 Fires Started
Shasta National forest offices at Mt. Shasta City reported nine fires started from lightning yesterday near the head of the Scott and Trinity rivers. A reconnaissance plane was used in spotting these blazes.

Klamath Forest Protective association reported no new fires.

Red Troops Fifty Miles From Warsaw

(Continued From Page One)

groups from the northeast Bug river and from captured Lublin were about to join in a coordinated assault on the capital, 319 miles from Berlin.

The German communique reported bitter fighting continuing inside Lwow, third city of Poland already bypassed and 60 miles behind red army vanguards. The nazis asserted that their Lublin garrison still was resisting "superior enemy forces attacking from all sides."

Positions of other Russian army groups as shown by communique were:
Within two hours forced march of East Prussia.
Frontally attacking by-passed Brest Litovsk, cut off and isolated far behind the front.
Less than 70 miles southeast of the Baltic port of Riga.
Frontally attacking Bialystok on the Leningrad-Warsaw railroad.

Eighty miles west of invested Lwow with the capture of Moseyshka.
Virtually surrounding Daugavpils in the Latvian republic after capturing 80 towns to the northeast.
Outflanking Kaunas in the Lithuanian republic.
Virtually at the border of southern Estonia after advancing nine miles northwest of Pskov.
Thirteen miles southwest of captured Lublin at Zelhitze.
Fourteen miles north of Stanislawow, gateway to the Carpathian passes into Czechoslovakia.
One hundred and eight miles east of Krakow.
One hundred and twenty miles east of Lodz and 42 miles east of Radom.

Hengyang Battle Nears Climax

CHUNGKING, July 25 (AP)—The battle for besieged Hengyang on the Canton-Hankow railway appeared near a climax tonight as the Japanese compressed their ring about the city and were reported to have repelled attempts of Chinese relief columns to pierce the encirclement.

Fall of Hengyang probably would presage a full-scale offensive southward to close the 170-mile gap in the Canton-Hankow railway, permitting an unbroken Japanese band of 1000 miles from the north to the south of China.

STRIKE CONTINUES AT KESTERSON MILL

Production was still at a standstill today at the Kesterson Lumber corporation's big mill here, where a strike occurred late last week.

"No developments" was the report from both the IWA union and the management in a dispute over contract tenure, vacations, and union maintenance questions. A government conciliator, who came here Sunday night, left for Portland, apparently without accomplishing anything toward settlement.

Stark Appointed Coordinator of Civilian Defense

Charles R. Stark, executive secretary of the chamber of commerce, Tuesday was appointed coordinator of Klamath county civilian defense by County Judge U. E. Reeder, general civilian defense chairman for this county.

Stark succeeds Judith Brown of the chamber of commerce, who had been acting coordinator since Earl C. Reynolds, former chamber secretary and civilian defense coordinator, left Klamath Falls this spring for San Francisco to take over his new duties as assistant manager of the western division of the U. S. chamber of commerce.

Erdmann Explains Marine Training Program to Lions

The vocational training for men of the Marine Barracks being given at the high school was explained at the regular Tuesday noon meeting of the Lions club by Leroy Erdmann, chamber secretary, left Klamath Falls this spring for San Francisco to take over his new duties as assistant manager of the western division of the U. S. chamber of commerce.

Being stressed are typing and different kinds of shopwork. This is the first school of its kind in the United States, according to Erdmann, and if it is successful, others may be started.

Guests of the club were C. M. Burrows, Al Hatten, and W. L. Kessler.

for not yielding to such compulsion." The judge said that whether an internee's confinement under the presidential order "is lawful or not is beside the question."

"The issue raised by this action is without precedent," the decision pointed out. "It must be resolved in the light of the traditional and historic Anglo-American approach to the time-honored doctrine of due process. It must not give way to over-zealousness in any attempt to reach via the criminal process those whom we may regard as undesirable citizens."

Assistant U. S. District Attorney Emmet Scawell entered an exception to the decision, keeping open the way for an appeal.

Indian Action Shifts to Hills

SOUTHEAST ASIA COMMAND HEADQUARTERS, KANDY, Ceylon, July 25 (AP)—The main action in the Manipur hills area just inside the northeastern frontier of India has shifted to the Palel-Tamu road where allied troops now are attacking strong Japanese defenses barring their progress southward from Imphal, an allied communique announced today.

"Seven hills all within eight or nine miles of Palel have been taken so far," the announcement said.

Volcano Becomes More Violent

MEXICO CITY, July 25 (AP)—Paricutin volcano has been erupting with greater violence during the last two days than at any time since it rose from the plain in February, 1943, the communications ministry was advised today by representatives there.

Representatives of the National Geological institution in the area, seeking to obtain a forecast of the volcano's future, are continuing.

Refugee families are being located by the ministry for health and public welfare. Some were reported to have reached Guadaluajara, 150 miles west of Paricutin valley.

Workers Idle at Lockwood Plant

CINCINNATI, July 25 (AP)—new labor dispute broke out today at the Lockwood plant of Wright Aeronautical corporation and officials of the United Automobile Workers (CIO) announced they had been "locked out of the plant."

An independence source estimated that 750 to 1000 workers were idle in the four-day strike. Both sides attributed the lockout to suspension of a union committee member, Gilbert Thomas. The company said he used "obscene and obscene language" to a supervisor in the presence of a woman employee.

NEW kind of ASPIRIN tablet doesn't upset stomach

WHEN you need quick relief from pain, do you hesitate to take aspirin because it leaves you with an upset stomach? If so, this new medical discovery, SUPERIN, is "just what the doctor ordered" for you.

Superin is aspirin plus—contains the same pure, safe aspirin you have long known—but developed by doctors in a special way for those upset by aspirin in its ordinary form.

This new kind of aspirin tablet dissolves more quickly, lets the aspirin get right at the job of relieving pain, reduces the acidity of ordinary aspirin, and does not irritate or upset stomach—even after repeated doses.

Year this out to remind you to get Superin today, so you can have it on hand when headaches, colds, etc., strike. See how quickly it relieves pain—how fast you feel after taking. At your druggist's, 15¢ and 39¢.
