WE'RE TRAPPED! WE'LL DROWN! CAUGHT LIKE RATS! NO ESCAPE EXIT FROM THIS CHAMBER! NO TIME! LOOK!

THE TIDE CONTROL GATE HAS BEEN OPENED! THE WHOLE RIVER IS COMING! TO THE BOATS! WE MUST KEEP AHEAD OF IT!

IRREGULARITY NOTED IN CASH WHEAT MOVES

PORTLAND, July 25 (AP)—Irregularity, with sagging tendencies, marked the cash wheat situation in Portland for the week just ended, the war food administration reported today. Bid prices at the end of the week mostly were unchanged, but some lower quotations were noted for protecting qualities of hard whites. This reflected lack of any important inquiry. Receipts at Portland for the week were 106 cars, at other Columbia river and Puget Sound terminals, 238. The general Pacific northwest picture was dull, reflecting slow demand at terminals and light offerings from growers at country points. Weather was reported to be generally favorable for winter wheat harvest in earlier areas and good progress was reported for the spring crop. Some new crop wheat has arrived in Portland and Seattle, although movement is not yet general. Yields are reported to be about in line with earlier stage expectations. Country storage facilities are reported to be better able to handle the new crop than they were a year ago.

Lake County Tops E Bond Quotas

LAKEVIEW—Thursday the total E bond sales for Lake county was \$209,718.75, a figure which represents \$37.75 over the county quota of \$208,000. The grand total of sales of all issues for the county is \$707,373.25.

DECLINE IN WHEAT STOCKS NOTED BY WFA

WASHINGTON, July 25 (AP)—Wheat stocks in the four principal exporting countries were estimated by the agriculture department today to have declined from 1,738,000,000 bushels on July 1, 1943, to 1,170,000,000 on July 1 of this year. A review prepared by the foreign agricultural relations division of the department said the decline of 578,000,000 bushels is the greatest in any single year on record. It said the decline resulted from smaller 1943 wheat harvests in the four countries and from the demand for wheat for non-food purposes. The division estimated the stocks for this year compared with those for last year were: United States 350,000,000 bushels and 620,000,000 bushels; Canada 375,000,000 and 626,000,000; Argentina 285,000,000 and 307,000,000; and Australia 160,000,000 and 195,000,000. The review said virtually all of the decline occurred in the United States and Canada. In the United States, it continued, the disappearance of wheat during the 1943-44 season exceeded production by more than 400,000,000 bushels and that the United States also drew heavily upon Canada. It said the disappearance of stocks in Canada is expected to reach a record figure of 191,000,000 bushels.
