# Gen. Bradley's Troops in Position to Slice Off Entire Brest Peninsula

By JAMES M. LONG  
SUPREME HEADQUARTERS ALLIED EXPEDITIONARY FORCE, Aug. 1 (AP)—The American breakthrough which covered 40 miles in seven days to Avranches and turned the battle of Normandy into a fight for France has put Lt. Gen. Omar N. Bradley's armor in a position where a wedge of 40 to 50 more miles virtually could cut off the Brest peninsula.

There is no way of telling whether this course is any more likely a part of allied strategy than any other, but it represents one more thrust to Field Marshal Guenther von Kluge's defenses and spreads them that much thinner along an arc where the allies may pick their spot and punch at will.

Except for road and secondary rail lines into the Brest peninsula along the south coast, the whole communications network into Brittany from interior France funnels through Laval, Vitre and Rennes.

Vitre is 40 miles due south of Avranches and Rennes is just over 50 miles south and slightly west. The country between Avranches and these two cities is more favorable for mechanized attack than most of the battlefields the allies have had in Normandy.

# FURTHER CUT IN PAPER SUPPLY EYED

WASHINGTON, Aug. 1 (AP)—Further curtailment of paper supplies for newspapers, magazines, books and commercial printers is possible in the final quarter of the year unless voluntary action by the entire pulp and paper industry boosts the output of military and essential civilian papers, the war production board warned Monday.

In addition, one of the other two stern types of control faces the paper producers themselves, unless prompt improvement is seen, Rex W. Hovey, director of WPB's paper division, stated.

The alternatives, Hovey said, are complete priority control of paper similar to that long exercised over metals, or mandatory production directives issued by the army.

The situation has been laid before three industry committees representing producers of groundwork, writing and book papers, by Hovey and Harold Boeschenstein, acting director of WPB's forest products bureau, it was announced.

# Bonneville Supplies Power to Electric Company in Portland

PORTLAND, Ore., Aug. 1 (AP)—The Bonneville power administration is supplying about 1,000,000 kilowatt-hours of power daily to Northwestern Electric company to conserve critical fuel oil and hog fuel it uses for steam generation of power in the Portland area.

Some 10,000 barrels of oil and 57,000 units of hog fuel will be saved in the next two months, Administrator Paul J. Raver estimated. He said an emergency temporary connection was made west of the J. D. Ross sub-station near Vancouver, Wash.

# RECEIVE REFUNDS

WASHINGTON, Aug. 1 (AP)—The internal revenue bureau said today more than 3,000,000 of the 18,000,000 persons entitled to 1943 income tax returns have received their checks. The remaining 15,000,000 are being prepaid at a rate exceeding 250,000 a week.

# ARRANGEMENTS FOR SALVAGE ATTEMPTED

OTTAWA, Aug. 1 (AP)—The Canadian and U. S. governments were attempting today to work out arrangements for the salvage of equipment used by American engineers in the construction of the Alaska highway.

Reports that valuable equipment was being destroyed prompted a demand in the Canadian house of commons for a government investigation, which disclosed that U. S. army engineers were closing about 150 construction camps along the highway and that they had specific instructions from the U. S. government to salvage any usable material.

Prime Minister W. L. Mackenzie King has told commons,

however, that such things as blankets and perishable food-stuffs were being destroyed.

King said it might be possible to reach an agreement under which the Canadian government would sell the equipment and turn the proceeds of the sales over to the United States after deducting expenses incurred. Under the law the equipment could not be sold in Canada by the U. S. government until customs duties have been paid.

Some bulldozers and other equipment already have been made available to the Canadian government, King said.

# Fish, Clark Slate Tries For Seats in Congress

By The Associated Press  
Two of congress' most colorful figures came up with re-nomination tries against tough opposition today—Rep. Hamilton Fish in New York's 29th district and Senator Bennett Clark in Missouri.

Fish's chances are affected not alone by the strength of his opponent, Attorney Augustus W. Bennett of Newburgh, but also by the fact that Governor Thomas E. Dewey and Wendell Willkie have called for his defeat.

Fish, outspoken republican who has been in the house since 1929, was quoted in a newspaper article as having said that Jews are "more or less for the New Deal" and that it would be better "if they split their vote between the two major parties."

Dewey, the GOP presidential nominee, accused him of having "raised religious and racial issues; Fish commented that he has simply stated facts.

Dewey's own campaign was marked by conferences in Pittsburgh yesterday with political business, farm, veterans and labor leaders. These, he said, were intended to speed up "the too-long delayed preparations for reconversion" of industry as war needs slacken.

After a stop in Springfield, Ill., Dewey is to arrive at St. Louis tomorrow for a long-heralded meeting with the country's 25 other republican governors.

From the republicans' national chairman, Herbert Brownell Jr., there came, meanwhile, a prediction that Dewey will

carry at least 25 states with 311 electoral votes against President Roosevelt in November. The victor needs but 266. Brownell placed Idaho and Oregon among the 25 states.

Senator Clark's opponent for the democratic nomination is Roy McKiltrick, Missouri's attorney general who has campaigned as a pro-Roosevelt man, attacking Clark's record on pre-war foreign policy.

Clark, who at times has dis-sented vigorously from administration actions during his 11 years in the senate, has the support of Senator Harry S. Truman, the democratic vice presidential nominee.

Governor Forrest C. Donnell is one of seven republicans contesting in Missouri primaries for their party's senatorial nomination. Nominees also are being selected for 13 house seats. New Yorkers are nominating for 45 house seats but the Fish-Bennett race overshadows all the others.

Checking Air Force Officers in Link Trainers

# The spirit that won the Army

**A**N AIR FORCE OFFICER came in for his routine checkup and was surprised to find a Wac in charge of the Link Trainer. "Why, that's no work for a woman!" he said.

"I've been trained for it, sir," the Wac answered with a smile. "And if I can't do it, I don't belong in this man's Army."

This Wac spirit isn't just one of brag or pride in the Corps. It's a spirit of confidence.

For the WAC hasn't been given jobs, it has won the right to do them. When the WAC was first organized, there were only four jobs the Army thought women could handle.

But the WAC rolled up its sleeves and showed the Army what women can do.

Job by job, they demonstrated their aptitude, their earnestness, and courage.

And the four jobs grew into 239. Today, wherever you find a Wac on the job, you find a job well done. G.I. Joe says it. The Colonel says it.

And the General says, "I wish we had a million more Wacs!"
