Lumber Production Increase Continues

SEATTLE, Aug. 7 (AP)—West coast fir lumber output maintained its approximate five per cent increase over 1943 output during July, the West Coast Lumbermen's association reported today.

The report was coupled, however, with a warning that the production lead is now in danger of being lost because of shortage of men and equipment—particularly logging truck tires.

Total production during four weeks in July was 130,322,000 board feet, bringing the cumulative 30-week total since the first of the year to 4,642,756,000 board feet. Production at this point in 1943 totaled only 4,427,851,000, the association reported.

Unfilled orders stood at 1,006,090,000 board feet at the end of July with gross stocks at 439,207,000.

Bonanza

Mrs. Mary Malone has returned from a week's visit at the home of her brother in Ashland.

Gilbert M. Brown, WT 3/c, accompanied by his friend, Melvin Humpal, F 1/c, are spending their furlough visiting with Brown's parents, Mr. and Mrs. Earl Brown and family. During their stay here Brown's two sisters, Mrs. Opal Davidson of Coquille, Ore., and Mrs. Delpha Preston of Richmond, Calif., have also made visits with their parents. Harold Brown, a younger brother, returned to Coquille with his sister for a short visit.

Mr. and Mrs. Roy Wright and son Paul, of Idaho Falls, Idaho, arrived Wednesday for a visit with Mrs. Wright's sister, Mrs. Frank Bramwell and family. Another visitor at the Bramwell home this week is Mrs. Kenneth Bramwell of Astoria, Ore. Kenneth Bramwell is with the American forces serving with the fifth army in Italy, and is the youngest son of Mr. and Mrs. Frank Bramwell.

It has been impossible so far to estimate damage inflicted by the sudden hail and rainstorm which struck the country just east of Bonanza Saturday night. Heavy hail and torrents of rain followed a north and south direction in a narrow strip, damaging crops and roads and irrigation facilities. On the Lorella market road, three miles east of Bonanza, at what is known as Crapser Point, tons of rock and debris were washed down the hillside, washing and ridging and considerably damaging the new fill in the county road, and completely obliterating the main canal of the Irwin unit of the Horsefly Irrigation district.

At many points, for a distance of two miles, dirt and rocks were washed onto the main road. The storm struck with even greater ferocity on the north side of the river, washing away fences, covering the road to running-board depth, and washing channels through grain and potato field some 60 feet wide and of the depth to which the land had been plowed.

WHEAT

CHICAGO, Aug. 7 (AP-WFA)—Commission houses sold persistently today and all wheat and rye futures dipped to new seasonal lows, losing more than 2 cents at times. Oats and barley also declined.

Favorable war news was the main depressing influence, although heavy movement of spring wheat and oats also were factors. Wheat rallied at times under short-covering.

Oats dipped further near the finish to send December and May futures to new seasonal lows also.

Wheat closed 1¼ to 1¾ cents below the previous finish, September $1.53¾, December $1.53¾-⅞, May $1.54, all seasonal lows. Rye was off 2 to 2¾ cents, September $1.01-1.03¼, December $1.04½-⅝, May $1.06¼-⅜, also new lows for the season. Oats lost 1⅛ to 2⅛, May 66½c, December 66½-⅝, May 68⅛. Barley was down ⅞ to 1½c, September $1.10½.

The protective isolation of our war plants cannot be taken for granted in another war, because of the almost certain development of heavy bombers capable of reaching any objective in this country. — Undersecretary of War Robert P. Patterson.
