

**Martha Shops and Shops**

**Currin's**

**A** BIG new shipment of Chen-Yu lipsticks and nail polish has arrived at Currin's. . . . And that's very good news for lots of gals who have been asking and asking for them during the last month or so.

There are 15 shades of Chen-Yu nail lacquer, including the new "Black Cherry." . . . And all six of the lipstick shades, in plastic cases, which will harmonize with the 15 shades of nail polish.

The polish, or lacquer, comes in differently-priced sets. . . . A bottle of polish and a small bottle of "Lacquerol" polish base are 75c a set. . . . The lacquer and Lacquerol and a bottle of polish remover are \$1.00 a set.

The lipsticks are \$1.00 each. . . . And, oh, yes, there's quite a bit of the famous Chen-Yu Hand Lotion in the shipment, which costs only 60c.

All prices are "plus tax," of course.

Currin's For Drugs is at Ninth and Main Streets.

**Garcelon's**

**H**AVE you seen the new wooden dishes at Garcelon's? . . . Yes, they're really made of wood. . . . "Airplane" spruce, to be exact (and to make them light in weight). . . . Specially treated so they'll be good dishes, and be perfect for tea time or cabin use.

These were made in Hoquiam, Wash. . . . And you can get two sizes of dinner plates and two sizes of individual salad bowls, nutbowls and three sizes of trays. . . . One of the trays is for hors d'oeuvres.

Garcelon's also has decorated wooden trays and salad bowls, you know. . . . And is located at 407 Main Street.

**Shaw Stationery**

**B**EFORE long the mobs of school-agers will be piling in Shaw Stationery for their school supplies. . . . If you've ever been in there during the first few days of school, you know what a mob that is.

So. . . . If you can do it. . . . Get your grade schooler or high schooler to drop in early and pick out his or her items that can be obtained now, before school starts.

Things like fountain pens, 3-ring binders, filler paper, pencils, erasers, crayolas, drawing boards, T-squares and drawing sets, you know.

Then when school starts and the rush begins, the books can be bought in no time at all. . . . The youngster won't come home so late that you're worried. . . . The hurried salesperson at Shaw's can wait on more of them in shorter time. . . . And everybody ought to be happier!

Shaw Stationery is at 729 Main Street.

**Your Store**

**I**F you like lovely things that are unusual, too, you'll simply love the Caliente pottery vases and figurines, and things, at Your Store. . . . But maybe you know this pottery already, because the shop had it last Fall and the supply was sold out before the Christmas "rush" even started!

This is the first shipment since then, because the manufacturers can't begin to keep up with the demand. . . . Each piece is hand-made, you know, and that takes time and skilled work.

You'll find Caliente pottery candy dishes, ash trays, cigarette boxes, figurines, vases, low bowls. . . . Most of them with the exquisite roses that have made the Caliente name famous at the house that equalled the finest English imports in delicacy of line and detail.

The cigarette boxes and candy dishes, for instance, have lids. . . . And the "handle" to lift off the lid, you'll find, is a perfect little rose.

The low vases are the loveliest things. . . . Perfect settings for a simple, smart flower arrangement. . . . You'll have to see them to understand what I mean, though.

\* The Caliente colors are unusual, too. . . . Of course there's white. . . . But it's the soft pastels, two-tones and blends of pastels that show the Caliente originality.

Prices are from \$1.00 up to \$10.00 per piece. . . . And you really must see them to realize how exquisitely lovely they are. . . . At Your Store, 721 Main Street.

**Currin's**

**T**HERE have been so many inquiries lately about **WHEN** a shipment of Hartnell's colognes would arrive at Currin's, that Connie Baert asked me if I would please mention that a big carton came in a couple of days ago.

The Hartnell "White Shoulders" and "Menace" colognes are in two sizes. . . . \$2.75 and \$5.00. . . . And there also was some perfume in the shipment, too, she said.

(Add the tax to the price, of course.)

At Currin's For Drugs. . . . Ninth and Main Streets. . . . On the corner where so many people take the bus!

**Long's**

**I**KNEW that Nick Long's trip to the market recently would result in something new and unusual for his store. . . . And Tuesday when I saw the rack of junior-sized things waiting to be pressed, I realized that I'd have to hurry and tell all the high school and college girls about them. . . . Because they are just too divine to stay in the store for long.

There are soft, all-wool jerseys and crepes with darling applique or embroidery. . . . Some using the new two-tone treatment of materials. . . . In one and two-piece styles.

And the cleverest suits for young girls. . . . Some of them with matching coats to make three-piece outfits. . . . Suits and coats with original touches that will make the girls who get them the envy of their friends. . . . Really.

There are unusual and individualistic combinations of colors in skirts, jackets, linings, etc. . . . And, as I said, in junior sizes. . . . Made especially for the "campus trade."

The new topcoats, with fur revers clear down the front as well as fur collars, really are beautiful.

And so are ones with big fur collars. . . . Many of the coats are made of the famous Forstman material. . . . As are lots of the suits.

Incidentally, I saw one coat at Long's that was of beautiful soft, gray wool, with a big silver fox collar. . . . And the gray material made silver fox, for the first time in my knowledge, a "young" fur!

I guess I'd better stop raving. . . . But you'll see what I mean if you drop in at Long's yourself and look at those junior-size clothes. . . . 719 Main Street.

**ABOUT-FACE ACTION STUNS NAZI LEADERS**

(Continued from Page One)

reported. Diplomats of both the Balkan countries have uttered inflammatory remarks, even the Romanian dictator, Marshal Antonescu, who was reported to have fled to a German sanctuary.

**Abolishes Politics**

Hungary, occupied by Germany and gravely threatened by the Romanian capitulation allowing Russian troops to reach her frontiers, abolished all political parties, apparently in fear of intrigue which might take her from the war.

Swedish correspondents in Berlin said all communications between Bucharest and the German capital had been cut since last night, indicating the Nazis were only guessing at what was happening within Romania.

**Meetings Held**

Hungarian and Slovakian cabinets were reported in urgent meetings. The expectation in London was that Bulgaria might capitulate in a matter of a few days, or even hours. Bulgaria was outflanked by Romania's switch, and also by the recent Turkish severance of relations.

The German foreign office threatened reprisal for "Romania's treason," but added:

**Measures Unknown**

"The nature of measures to be taken against Romania cannot yet be revealed. Developments in Romania still are in a fluid state."

Swiss newspaper reports said the Romanians were fighting the Germans in the streets of the Black Sea port of Constanta.

Bucharest broadcast said Romania in fact had turned cobelligerent and there were reports of spreading fighting in the rich oil and wheat kingdom between Romanian and German troops.

**Outflanked**

Bulgaria, already outflanked in the south by Turkey's severance of relations with Germany, now was periled from the north as well and in an entirely untenable position.

Yugoslavia and Greece, where patriot armies have waged long and bitter guerrilla war against the Nazi yoke, were in positions for quick liberation.

Russian armies driving swiftly toward the heart of Romania signaled the punch which finally blew down the house of cards which deposed Premier-Marshal Antonescu had built in Romania.

**Farrell Appointed District Attorney**

**SALEM, Aug. 24 (P)**—Thomas S. Farrell of Lakeview was appointed by Governor Earl Snell today as district attorney pro tem for Lake county, replacing Robert L. Welch, who has been granted a leave of absence to enter the armed forces.

The term expires in January, 1947.

**Fire Blackens Hills Behind Hot Springs**

Fire blackened quite a sizable area of grassland in the hills behind the Hot Springs district Thursday afternoon, but according to latest reports it had been put out.

Another fire near Worden was being brought under control after it had covered 25 to 30 acres. The KFPA said that there was little danger of it breaking out again but six men were being left to watch it.

**SPECIAL PROBLEMS DISCUSSED AT MEET**

Herman Kehrl and Arthur McVoy were guests at a special meeting of the city planning commission Wednesday night. Kehrl is secretary of the League of Oregon Cities and McVoy is a member of the planning board of Portland. During the meeting special problems of Klamath Falls and other cities in Oregon were discussed.

Also talked over at the meeting was the problem of parking lots in downtown Klamath Falls and the question was raised whether these lots should be run privately or by the city.

Vern Moore and Rose Poole were appointed as a committee to publicize the proposed Veteran's Memorial park by arranging talks and publicity before various club meetings.

**Barracks Medical Program Progress Told At Luncheon**

(Continued from Page One)

program at the Barracks is to promote physical fitness among the men, and that plenty of rugged activity is underway there as ample proof that the men are not "sick" in the usual meaning of the term.

He also gave as incidental medical information that the incidence of venereal disease among marines here is running well under the average of communities in the United States.

Colonel Dubel told of administrative details of the big mountain cave installation and described its various physical features and their cost. He mentioned the possibility of continuation of the Barracks as a marine corps installation for a considerable period after the end of the war.

**Klamath Helps**

The people of Klamath Falls, he said, have made his work easier by their "splendid cooperative attitude and hospitality."

Colonel Dubel and Commander Coggeshall are honorary members of the Kiwanis club. Proceeds from the Kiwanis luncheon above ration costs will go into the troops' recreation fund. The club members were given exactly the same ration given the men, and the meeting was held in the huge mess hall at the Barracks.

**FRENCH HOLD PART OF CAPITAL CITY**

(Continued from Page One)

five provides that no field commander can negotiate an armistice with the Germans unless Gen. Eisenhower gives his consent.

The feeling was expressed at supreme headquarters that the underground in Paris and the subsequent call for help resulted in the use of allied troops which might well have been employed in operations of greater military significance.

It is expected at supreme headquarters, however, that German resistance before the city will be of a "rear guard" character.

In announcing the "liberation" of Paris yesterday, Gen. Koenig said "50,000 armed men, supported by several hundred thousand unarmed patriots," had gone into action.

Toward 8 p. m. yesterday, August 22, after a four-day struggle, the enemy had been beaten everywhere and the patriots occupied all public buildings." Koenig's communique said, "representatives of Vichy were arrested or are in flight. Thus the people of Paris have taken a prominent part in the liberation of the capital. Long live France!"

**FINNS SPEED MOVES TO TERMINATE WAR**

(Continued from Page One)

Russia, Finn reactionaries were reported cooperating with the argument that "we had better wait because once the Germans have launched their counter-attack, we will be in a better position to negotiate with the Russians."

Finnish sources said Procopie last Thursday told a secret session of parliament that there was strong "pro-Finnish and anti-Russian sentiment" in the United States and that if Finland holds on, this sentiment "may make itself felt, despite the attitude of the American government."

The U. S. ordered Procopie to leave Washington for actions inimical to the United States.

**Bodies Removed From Wreckage**

**FRECKLETON, England, Aug. 24 (P)**—With 54 bodies removed already, fear was expressed today that 30 more persons might be buried in the wreckage of a school and nearby snack bar destroyed yesterday when an American Liberator bomber crashed in this Lancashire gardening village.

Known dead included 35 children—all but six of the village's 41 youngsters between four and six years of age. The other victims included nine American servicemen, two RAF men and eight civilians.

The tragedy occurred when the Liberator was caught in a sudden storm on a local flight.

**RUSSIANS CAPTURE CHISINAU, ROMAN**

(Continued from Page One)

dreds of German war factories, 150 of them in Debica alone. Red Star said the Lwow-Krakow railroad bristled with German war plants of all kinds. The advance moved within 17 miles of Tarnow. Further north, Russian columns were within 35 miles of Krakow and 75 of German Silesia itself.

Northeast of Warsaw, the red army drove within five miles of the important communications hub of Lomza, 20 miles below the East Prussian frontier, in an offensive gradually splitting German armies defending that rich province and Warsaw.

**ROCK BASE PLACED ON OLD FORT ROAD**

Rock is now going on the Old Fort road between Klamath Falls and the Marine Barracks, preliminary to paving that well-traveled route.

Shovels and other equipment are knocking out the steep banks at the dangerous curve about a mile this side of the barracks, where the road is to be straightened.

Some filling already has been done inside the barracks area. Construction is moving rapidly on the six married officers' houses at the barracks, and officers and their families may be able to move in by the end of another week.

**Jeffers Asserts Suit Unfortunate**

**OMAHA, Aug. 24 (P)**—William Jeffers, president of the Union Pacific railroad, today termed the government's anti-trust suit against western railroads as "unfortunate," and declared that it comes "in the midst of the most serious transportation crisis in this war effort."

"It is unfortunate," he said in a statement, "that the department of justice has seen fit to attack the honesty, loyalty and business integrity of the railroads of the nation and those responsible for their management and operations."

**PLASTIC-COVERED PILLARS**

Development of a new organic cement makes possible a method of covering metal pillars with an extremely thin layer of plastic, finished and colored to resemble marble, wood or other material, for use as postwar building material.
