CITIZEN SOLDIERS

don't waste a drop of gasoline

YOU, who have helped America build the mightiest war machine in the world, now proudly see it in action—attacking on every front. And like all machines it must be constantly fueled and lubricated. More than one-half of all war shipments overseas are petroleum products of one kind or another!

Two years ago, passenger cars used 4 1/2 gallons of gas for every gallon that went to war. Today, as the black combat lines on the map become a tighter noose about the necks of tyrants, that ratio has changed to 1/2 gallon of gas for every gallon that powers the machinery of war. That is why the conservation of gas is more important than ever now; why it will become increasingly so until Victory.

The part of every Citizen Soldier is this: *Share your car*, the enemy rides in an empty seat. *Don't apply for more gas than you really need*, you'll be taking a fellow-American's share. *Endorse your gas coupons*, and rationing will go on working successfully. *Don't take extra gas or coupons from anyone*, you'll be taking gas away from some essential use—hurting our war effort. Remember always, Gasoline Powers the Attack—Don't Waste a Drop!

"The gasoline Americans go without at home today is getting them the best 'mileage' they ever had... mileage on the road to Tokyo and Berlin!"

—ADMIRAL NIMITZ

The importance of Caring for Your Car increases in proportion to the length of the war. Rely on your Helpful Associated Dealer for the wear-protection of regular Veedol Safety-Check Lubrication. And, as a Citizen Soldier, do everything you can to speed Victory. Check your efforts against the wartime activities listed here.

Have a "Coke" = Tudo Vai Bem (EVERYTHING'S SWELL)

... or making friends in Rio

From the U. S. A. to Brazil is a long way, but you'll find many familiar things in both places. A friendly spirit for one. Coca-Cola for another. In Rio de Janeiro, to say *Have a "Coke"* is to say *We're glad to see you*, just as when you offer Coca-Cola to a guest in your own home. In many lands around the globe, the pause that refreshes with ice-cold Coca-Cola has become a friendly greeting between neighbors.

"Coke" = Coca-Cola
It's natural for popular names to acquire friendly abbreviations. That's why you hear Coca-Cola called "Coke".
