The Nazi counterattack caused some losses in casualties and prisoners.

Meanwhile it was disclosed that the American seventh infantry regiment, which was organized in 1798 and saw its first action against the British at Villiere's plantation in Louisiana in 1814, was participating in the pursuit of the Germans.

Watermelonaires

Swap coathangers for a big hunk of watermelon? Who wouldn't? And these New York City kids did, when the Children's Aid Society made the bargain offer to get wooden hangers for servicemen at Halloran Hospital. The ordinary wire ones just won't bear up under the weight of GI coats.

Police said she had been shot near the heart, and that a high-powered rifle was found on the floor about three feet from the body.

Officers quoted the husband, Delbert O. Woster, as saying he and the boy had spent the day in nearby Milwaukie while his wife remained at home with their 20-month-old child. They returned at 9 p. m., he said, and found the younger child crying at a barricade at the top of the cellar stairs.

POLICE SEEK ONE-EYED MAN IN THEFT CASE

Police are looking for a one-eyed man who may know something of the mysterious theft of \$3000 from a pool hall at Crescent Lake.

The story of the one-eyed man was given officers at Eugene by two youths who were detained for questioning because they had suddenly left Crescent Lake the day of the theft.

The youths convinced officers they had nothing to do with the disappearance of the money, but said they had seen a one-eyed man who caught a south-bound freight from Crescent Lake the day of the theft.

Sheriff's officers and state police are probing the case. J. V. Acuff, proprietor of the pool hall, said the money, in a cigar box, was stolen from the back bar last Friday.

"17 Babies this week—and he hasn't seen his own grandson!"

TONIGHT the Doctor was hoping to finish early, so he could take a two-hour train trip and snatch a look at his new 4-day-old grandson. But now—the phone caught him again. So now he's off to deliver Mrs. Johnson!

Doctors have always been 'round-the-clock men. But since Pearl Harbor, with half of our physicians in the armed forces, each civilian doctor is more in demand than ever. He is on call today to an average of 1700 people.

Your doctor's minutes may be life-saving time... too precious to waste. Help him save time for people who need him urgently, for yourself in an emergency, by remembering these four helpful things when you are ill:

PHONE HIM FIRST. Tell him as clearly as you can what's wrong. Let him decide whether he should come to see you, or you should go to him.

GO TO HIM whenever you are able. House visits take lots of your doctor's time—time when someone else may really need him urgently.

KEEP YOUR APPOINTMENT promptly, don't postpone it; make it at his convenience, so that he can plan his crowded hours better.

FOLLOW YOUR DOCTOR'S ADVICE to the letter—so that your trouble doesn't drag on, get complicated, or need extra attention from him.
