## A Day of Reckoning in France

Photos above show in dramatic fashion the end of the trail for 10 young Frenchmen who, during the four long years of Nazi domination of their country, chose to side with the enemy. Two were sentenced to five years in prison, two to hard labor for life. The remaining six were condemned to death and, as seen in the photo above, were summarily executed by a French Force of the Interior firing squad.

## Mail Christmas Parcels Overseas Early, Warns PO

Christmas packages to members of the armed forces overseas should be wrapped for mailing soon, postoffice officials warn. The official mailing time for Christmas packages begins September 15 and ends October 15. There has already been considerable Christmas mailing to navy personnel as they are not bound by the same regulations as the army, which require a request from the man or woman in service for articles being sent. During the time of the official mailing period, no request is necessary.

The following suggestions were made to mailers:  
Packages to be sent overseas should not exceed 5 pounds in weight and should not be over 15 inches in length and not over 36 inches in length and girth combined. The number which may be mailed to one person is limited to one parcel per week from one individual during this period.

Canned goods being sent to members of the armed forces will be inspected, sealed, and labeled by the home demonstration extension service, if so desired.  
**Cushion Articles**  
Mailers should put plenty of cushioning around each article in the package to prevent damage and breakage. Boxes sealed with tape should also be tied with stout twine. All parcels should be plainly marked "Christmas parcel."

It is also a good idea for the sender to put the address of the recipient inside the package, as well as the outside so, if the package is damaged and the address obliterated, the postal authorities may still ascertain the correct destination.  
**Write Legibly**  
It is imperative that the address be legible and it is better still if it is neatly printed instead of written. The address of the sender should be put on the upper left hand corner of the parcel.

The Pelican Bay Lumber company furnishes boxes for mailing purposes and they may be obtained at the banks, the chamber of commerce, or the Willard, Wine-ma, and Hall hotels. Many of these boxes are in use already, it was reported.

Postmaster Burt E. Hawkins stated that it is a good idea to mail Christmas gifts to service men and women as early as possible because of the shortage of help at the present time. If people wait until the last minute to mail their parcels, there is no assurance that the gifts will arrive by Christmas, he said.

If it's a "frozen" article you need, advertise for a used one in the classified.
