Do you feel headachy after eating?    
Do you get sour or upset easily?    
Do you feel tired—listless?

Do you feel headachy and upset due to poorly digested food? To feel cheerful and happy again your food must be digested properly.

Each day, Nature must produce about two pints of a vital digestive juice to help digest your food. If Nature fails, your food may remain undigested—leaving you headachy and irritable.

Therefore, you must increase the flow of this digestive juice. Carter's Little Liver Pills increase this flow quickly—often in as little as 30 minutes. And you're on the road to feeling better.

Don't depend on artificial aids to counteract indigestion—when Carter's Little Liver Pills aid digestion after Nature's own order. Take Carter's Little Liver Pills as directed. Get them at any drugstore. Only 10¢ and 25¢.

"MINNEAPOLIS (UP)—Mrs. Windsor Watson, Edmonton, Alta., Canada, had so many children she didn't know what to do, so, entirely by oversight, she left Michael at the station Sunday night.

"Halfway to St. Paul, Mrs. Watson finished checking up on her family. It was determined through a great deal of telephoning that Michael was at police headquarters. Then another train was delayed at Minneapolis, until Michael and a policeman could ride to St. Paul and a family reunion.

"The Watson family then continued their trip to Worthington, Minn., for a vacation which Mrs. Watson said she already had needed."
