

DECISION ON GENERAL WAGE BOOSTS LOOMS

By HOWARD FLIEGER

WASHINGTON, Sept. 15 (AP)—President Roosevelt may be called upon before election day to decide whether to abandon the administration's rein on wartime wages and open the way for a general pay hike for the nation's workers.

Whatever he decides—even should he put off a decision until after November 7—the question of wage earners' pay seems certain to become an election issue.

The CIO steelworkers' year-long drive to force a 17-cent hourly raise up through the "little steel" wage ceiling was laid before the war labor board last night in a fact-finding report. In it the majority held that the bureau of labor statistics figures do not show the real increase in living costs and that the president has the power to modify wage stabilization if he sees fit.

Another report was filed simultaneously by a three-man panel on the demand of the American Federation of Labor for a little steel modification. It summarized AFL's arguments that the cost of living has gone up more than 15 per cent and that wages should be hiked "if the nation is to fulfill its pledge to its workers and its fighting men," but made no recommendations.

A few hours later WLB announced that the week of October 9 would be set aside for executive session consideration of general wage stabilization. It will decide then whether to recommend that Mr. Roosevelt break the little steel formula limiting general wage increases to 15 per cent above the level of January, 1941. A board member said the wage issue probably will reach the president's desk by mid-October.

HE MIGHT HAVE graduated last June—might have been the president of his class, the valedictorian. He might have been started on a business career by this time.

But instead of a cap and gown, he was given—last June—the garb of a war prisoner. Instead of a diploma, he received a number. Instead of a business career, he started on the long, dreary existence of a prisoner of war.

Someday he'll be released. Someday soon, he hopes. But even soon is a long while to a boy who might have graduated last June.

He could continue his studies, of course. Through War Prisoners' Aid he could be supplied with books, paper, pencils—not only he, but thousands like him.
