

BRITONS FORM OFFENSIVE ARG IN SOUTHWEST

(Continued from Page One)

The war in Europe might well continue into 1945. Fighting has been determined and fierce. The Germans threw their armor out of their hands at the entrance of the west-bank approaches to Metz on the Moselle. The nazis declared they also had washed a bridgehead across the Moselle-Turnhout canal west of the Nijmegen corridor. Against these reverses, first American and then British troops, in the pillbox-studded six-mile wide Aachen forest, 14 miles east of besieged Aachen, in a powerful effort to tear open a blocked way to Cologne. Canadian soldiers, wearing "Mac West" lifejackets, attacked through the canal lines around Aachen on the channel coast. They worked across the western bank into the factory area, converted into a stronghold, toward the port district. Almost everywhere, the Germans said, the allied attack was proceeding in force, from western Holland to the Belfort gap.

Tass Denies Postwar Plan to Divide Germany

LONDON, Sept. 28 (AP)—The official Russian news agency Tass denied today that the tri-power European advisory commission in London is considering cutting up Germany into small states upon her unconditional surrender. In a Moscow broadcast, the agency said, "the problem is often raised in the British and American press concerning the possibility of Germany's dismemberment into several independent small states. Projects of this kind, however, have not been and are not considered by the European advisory committee."

Bomb Damage in London Tops Million Mark

LONDON, Sept. 28 (AP)—The list of London's bomb damage is given today in the house of commons: Houses damaged beyond repair, 25,511. Houses seriously damaged and not habitable, 52,277. Houses damaged, but habitable, 77,030. Houses slightly damaged, 113,177. Total—1,027,995.

QUINTUPLETS always use this for CHEST COLDS

To Promptly Relieve Coughing
To Make Breathing Easier
To Break Up Congestion in Upper Bronchial Tract, Nose, Throat

Whenever the Quintuplets catch cold—their chests, throats and backs are immediately rubbed with Musterole. It works so good!

Musterole gives such prompt relief because it's more than just a "cure." It's what so many Doctors and Nurses call a modern counter-irritant. Musterole not only relieves coughs, sore throats, aching muscles due to chest colds but also helps break up congestion in upper bronchial tract, nose and throat.

Musterole is wonderful for grown-ups, too! And so much easier to apply than mustard plaster. Ready for instant use—just rub it on! "No Just No Musterole."

3 STRENGTHS: Children's Mild Musterole, Regular and Extra Strong.

NEUTRALS WARNED ON CRIMINAL AID

given assurances that they will not permit axis nationals to flee into their borders or that they are fully aware of the problems such action might provoke.

Other Views

"No indication has yet been received of the views of certain other governments," Hull said in a statement released at his news conference. "The department is continuing to impress upon those governments whose policy has not yet been clearly stated," it continued, "the importance of which it attaches to the taking of adequate measures to insure that axis war criminals do not find asylum in their countries."

British, Soviet Backing

In bringing pressure on these other governments, Hull disclosed, the United States has had "the support and approval of the British and soviet governments."

Hitler on List

Hull himself brought up the question raised frequently at previous news conferences as to whether Hitler actually is on the list of war criminals already drawn up by a special allied commission in London. Any suggestion, Hull said, that Hitler or any other axis leader has been or is about to be overlooked is answered by the year-old declaration of Moscow providing that (1) war criminals guilty of specific actions against people shall be returned to the scene of those actions for trial and (2) "those accused of more general crimes against nations or civilization itself shall be punished by joint action of the allies."

Tito would retain civil administration in the region of operations. "In the Danube bend, there was lively reconnoitering activity on both sides of the Iron Gate," said the official war bulletin, broadcast from Berlin. "Soviet forces who have advanced south from Orsova in a southern direction were repulsed and enemy formations which had crossed the Danube were smashed."

Orsova is on the river frontier and only Yugoslav territory lies to the south. Moscow has not yet confirmed an incursion into the territory where Marshal Tito's partisan army operates, but weeks ago told officially of reaching the Iron Gate—the wild mountain canyons through which the Danube courses through the Transylvanian Alps.

The Germans asserted that several thousand prisoners were taken in Warsaw and that another segment of Lt. Gen. Tadeusz (Bor) Komorowski's underground army surrendered.

European War May Continue Into 1945, Churchill Warns

"I shall certainly not hazard a guess as to when the end will come. Many persons of the highest technical attainment and knowledge and responsibility have good hopes that it will all be over by the end of 1944. On the other hand no one—certainly not I—can guarantee that several months of 1945 may not be required."
