To Cross On Plank

In my last hour on earth, I shall throw away all the sermons I ever preached and all the prayers, all the calls on the sick and all the help I ever gave. And I will look to the good plank Grace to carry me across to my Father's house.

Grace is everything for the man who deserves nothing and who could not pay for anything. God is the God of all grace. Many a time we have set ourselves against his holy will...

Having laid our many sins on Christ, God is free to do for us as he wills. So it is that to all who receive Christ as Saviour from sin, God acts in grace to impart eternal life.

More of grace. When you said yes to God and received Christ as Saviour and Lord, you had a flock of sinful habits. Now by his Spirit, God and Christ come to keep house in your heart.

So we ask—What is God's grace to you? Do you merely profess Christ or do you actually possess Him?

BROWDER EYES GOP VICTORY AS WAR PEG

NEW YORK, Sept. 30 (AP)—Election of Gov. Thomas E. Dewey, republican candidate, to the presidency, Earl Browder, American communist leader, asserts, would be "an American invitation to Europe to plunge immediately or soon into the most devastating civil war."

Browder called for the reelection of President Roosevelt last night at a rally in Madison Square Garden sponsored by the communist movement in the country.

He added that Dewey's election also would end United States cooperation with Russia and terminate America's participation in a world peace organization.

"Hitler's and the Mikado's ambition to engulf our American election campaign with the wildest and most irresponsible forms of the anti-communist crusade is in the process of being realized," Browder said.

TOPEKA, Sept. 30 (AP)—A speech in New York last night by Earl Browder, communist leader, urging support of President Roosevelt's fourth term bid was described today by Alf M. Landon in a statement today as the product of "an organized fifth column in this country."

Landon, 1936 republican presidential nominee, said the speech "completes the evidence, if any is necessary, of the close tieup between communist groups and the Roosevelt administration."

ROTARIANS HEAR TALK ON HOMES

Rotarians heard an interesting speaker at the Friday noon luncheon when William C. Bell, managing director of the Western Retail Lumbermen's association, spoke on "Your Home and Mine."

Bell discussed the post-war home and the house of the future, debunking a great many of the promises of the "miraculous home" which would be created after the war. He prophesied that the new home would be much like that under construction in pre-war years. Bell observed that pre-fabrication and the house purchased and occupied in an eight-hour day, would not be an immediate factor in view of the public's antipathy toward change.

Cost production of the post-war home would depend a great deal on the attitude of building trade groups, Bell stated. Regardless of fairy tale homes of the future, the builder would still need an architect, contractor, building materials, and workmen to put up his new residence.

Alfred Collier was chairman of the day. Chet Lindley of Pacific Fruit Express was introduced as a new member.

HIGH SCHOOL News Notes and Comment

By JUANITA SHINN Wednesday, October 4, will afford many a laugh for KUIHS and Klamath Falls when the Peppers have their annual initiation.

With only city and county school teachers going to school Friday, students were seen everywhere in town, but near the schools. Probably even more would have been loafing around town, if the weather were better.

The Marines vs. Willamette university game to be held this afternoon on Modoc field should be well attended, judging by the conversation of the girls. It will be the first opportunity for many Klamath Falls residents to see a college calibre football game.

Students are already planning ways and means of getting to Medford for the game between the Peppers and the Tigers, traditional rivals. With so many former KUIHS students now attending Medford high school, it will be an old home week for them.
