The new Girl Scout executive, Mrs. Emma Carter, led the group of intermediate Girl Scout leaders for instruction on badge work. Mrs. Don Holloway presided. The Brownie leaders with program planning.

Mrs. K. E. Hutchinson explained registration of a troop and asked that registration forms be returned to the office on Monday or Tuesday between 9 and 5, or Saturday morning between 9 and 11. Mrs. Carter will be on duty in the office.

Mrs. Carter then explained that there would be a leader's election at least once every two months, put out by the program committee of the Girl Scout council, to which leaders may contribute any story of their troop's current activities or ask for help with any project.

An announcement was made concerning a coming dinner for Girl Scout and Brownie leaders, assistants, troop committee members and councilmembers in the banquet party room on October 1 at 6:30. It is to be an all-door meeting at the home of Mrs. Carter, 512 S. 6th, between 9:30 and 1 o'clock, where the leaders will put on a demonstration of outdoor cookery which will be used on Girl Scout picnics. WAVE RECRUITER TO DESCRIBE WORK

How the WAVES have taken over vital and important navy jobs in nearly every phase of navy activity, which opens up many new opportunities for young women in this women's service, will be described by Petty Officer Evelyn Moore of the WAVES at the Klamath Falls U. S. navy recruiting station, from October 2 to 13, inclusive, yesterday announced Recruiting Specialist D. T. Schreiber, recruiter-in-charge of the Klamath Falls U. S. navy recruiting station, which handles WAVES applications in this area.

WAVES are now handling 250 different jobs in the navy formerly handled by men, thereby releasing thousands of men for fighting assignments with the fleets.

Experience or aptitude in nearly any civilian occupation qualifies a young woman for enlistment in the WAVES. Requirements have been relaxed so that a young woman in normal health can qualify, if she is between 20 and 36 years of age, is a United States citizen, and has no children under 18 years of age.

Appeal Made for Documents Of Overseas Service Men

An urgent appeal to members of the armed forces, and their families to submit data to be included in Oregon's history of World War II has been made by L. S. Cressman, chairman director of the World War II history project for Oregon. Cressman stressed the fact that all documents submitted will be returned to the owners after being copied.

Important types of information for future study are letters written by soldiers on duty, either in this country or abroad, but especially abroad and in combat zones. Any war diaries or journals kept by men overseas are especially desirable.

Cressman, in his appeal to families of Oregon to help out in the project, said: "There are many records of this nature available and they are important as a part of the history of World War II and its effect upon the people of Oregon. Many fathers will return to Oregon from the armed forces to see their sons and daughters for the first time. They will, in years to come, when these children have grown to womanhood and manhood, want them to have a permanent record of their state's participation in the war."

Civic and community leaders throughout the state, as well as individuals, are asked to get behind this project. All data should be mailed to the World War History Project, Museum of Natural History, University of Oregon, Eugene. It should be definitely stated whether the return of the original documents is requested.

WHEAT

CHICAGO, Sept. 30 (AP)—Grain futures markets held strong throughout today's session and the advance made during the week was maintained on the futures but a broad short covering movement apparently was underway and the offerings were absorbed readily.

The trade in all markets was nervous as operators awaited announcement of a wheat price ceiling revision and new subsidy rates to be paid millers on wheat ground during the week.

Some of the demand for wheat came from mills, apparently in anticipation of large flour sales after announcement of the expected higher subsidies.

The futures hit the net levels in weeks in an active trade.

Corn and oats advanced in sympathy with other grains.

At the close, wheat was 1 1/2 to 3/4 higher than yesterday's finish, December \$1.63 1/4. Corn was up 1/4 to 3/8, December \$1.14 1/4. Oats were 1/4 to 3/8 higher, December 64 1/2. Rye was up 2 1/2 to 3 1/4, December \$1.08 1/4. Barley was 1/2 to 3/4 higher, December \$1.04 1/4.

Market Quotations

By VICTOR EUBANK

NEW YORK, Sept. 30 (AP)—Selected stocks, paced by aircraft and auto stocks, kept on the recovery trail today with sizable blocks of low-priced issues putting volume at one of the largest for a two-hour session in the past two months.

Hays Mfg., liveliest performer, came out in deals of 1000 to 10,000 shares, apparently further buoyed by word the company was planning to expand its business by acquiring controlling interest in another manufacturing concern.

Transfers were around 500,000 shares. Customers got back on the buying side as most credence was given to long war talk. Stretching out of the European conflict, it was figured, would obviate many reconversion problems.

At peaks for 1944 were Hays Mfg., Bucyrus-Erie, United Aircraft, Douglas Aircraft, Gammann, Lockheed, Consolidated Vultee and Sears Roebuck. Ahead most of the time were U. S. Steel, Bethlehem, U. S. Rubber, American Cyanamid, Refining, Oliver Farm, American Telephone, Southern Pacific, Du Pont and Westinghouse. Laggards were Chrysler, Republic Steel, International Harvester, Consolidated Edison, General Electric and Johnson & Johnson.

Bonds were steady and commodities improved.
