### Lower Gift Taxes May Cut Revenue

SALEM, Oct. 10 (AP)—Reduced gift taxes, which are effective on 1944 gifts and which are payable next year, will cut the state's gift tax revenue to such a low point that the tax may not justify the costs of administration, State Treasurer Leslie M. Scott said today.

Gift tax revenues so far this year total only \$27,602, and with lower rates, next year's collections probably will be even lower, Scott said.

The gift tax has yielded \$966,631 in the past 11 years.

There is an old saying that sales the inner nature of every civilization and explains why of the quirks that pop out human nature again and again down the great, long, innumerable stream of human activity. It is simply, "People will do what they want." Nothing but of the phenomenal has

happened that illustrates this very point.

In the midst of daily and almost hourly governmental pleading with people to save gas, to save rubber, to conserve energy, to buy bonds and in the face of innumerable restrictions and regulation, the New Pine Creek game license agency has sold more game licenses than ever before.

This same fact is no doubt true of other districts and proves that people will have what they want regardless. Over \$1000 worth of licenses have been sold here! Around \$700 in California and \$307 in Oregon.
