means big business
for our recreation
area, IF we--**

KEEP KLAMATH GREEN

THE ROAD TO PEACE Will Be a Challenge to All of Us. It Will Be a Challenge Particularly to Builders,-- Builders of Civilization.

Here in the Klamath country we are well equipped to make important contributions to this re-building. Our forests will provide prime materials for the re-building of a war wrecked world. The heavy demand for forest products will continue into the postwar period--and this will contribute to the welfare of all of us.

Even more important will be the task of re-building war weary minds, and war torn bodies. Here again our forests will play a vital role. The peace that passeth understanding will be found in the cool green beauty of our forested hillsides--along the banks of our forest lakes and streams. Nature, the great physician, will contribute much to this healing task.

and its

"Stop Forest Fire"

Committee
--working to keep Klamath's
forests growing

Walt Wiesendanger, chairman
Clarence Williams, Hal Ogle, Mac Epley,
Ranger John Sarginson

Here, again, are important and most vital reasons to prevent forest fires. Fires destroy all of the things that forests give to civilization. As we travel the road to peace, let us make sure that the enemy, FIRE, is forever banished from our forests. These forests will repay us richly for this care and protection.
