SERMONS DIRECT from the BIBLE THE BIBLE

Some reject the Bible as being inspired because of the number of miracles that are recorded. This is very poor ground for rejecting God's word. Consider these three questions:

FIRST. Is it unreasonable to believe that the God who created the universe can do anything He wanted to with it? Yes, He surely can temporarily suspend any law that He has made or He may employ higher laws that we do not understand.

SECOND. Would God perform a miracle? To deny that God would perform a miracle, one would have to know more about God's plans and purposes than finite mind can know. Some reject miracles that are recorded in the Bible because miracles are inconsistent with evolution.

THIRD. Did God perform the miracles in the Bible? If we believe that God can perform a miracle and might desire to do so we are prepared to consider with open mind the third question, namely, did God perform the miracles recorded in the Bible? The same evidence that established the authority of the Bible establishes the truth of the record of miracles performed.

CONCLUSION: "The heavens declare the glory of God; and the firmament showeth His handiwork." Psalms 19:1. "Many other signs therefore did Jesus in the presence of the disciples, which are not written in this book; but these are written, that ye may believe that Jesus is the Christ, the Son of God; and that believing ye may have life in His name." Jno. 20: 30-31.

HIGH SCHOOL
News Notes and Comment

By JUANITA SHINN
 The juniors and seniors met for a short meeting in the auditorium this morning to learn that they will be able to buy class rings for this year and next. However, because of the Sixth War Loan drive which is to begin shortly, both Stanley Woodruff, principal, and Bill Abbey, president of the senior class, spoke in favor of the stu-

dents turning their cash into war bonds and stamps instead of the rings. Bill told the classes that before the year was over, they would try to have pins available for the graduating class which would be considerably cheaper, and just as practical.

Members that had been elected to the traffic squad met with Paul Angstead, who is to be their adviser, this morning. Until the meeting, the names of the boys chosen for the squad had been kept secret. Sixteen seniors and seven junior boys were chosen to positions.

The vocational office has announced that one semester credit will be granted for each 90 hours of successful work completed in the CAP training course. Since the course is a

200-hour course, and it will undoubtedly be impossible for the complete course to be concluded before the end of the school year, it is possible that 14 credits will be granted.

The membership drive for the Parents and Patrons club will begin October 23, and will carry through the week until October 27. The Parents and Patrons club is open to all townspeople who are interested in the high school and its functions. For

those persons interested, who do not have children in school, they undoubtedly know some high school student who can answer questions they might want to ask, and to whom they can give their membership fee. A contest will be carried on between the various home rooms, with a surprise treat to be given to the home rooms who go over the top in the drive.
