PFC JAMES GRAHAM HURT IN GERMANY

MERRILL—PFC James Lester Graham, 29, son of Mr. and Mrs. William Graham, Merrill, was wounded in action September 18 while on duty in Germany with the U. S. army infantry, according to word received by his parents from the war department.

His parents received letters also on the date of the arrival of the official telegram from the Red Cross and from their son who is a patient in a hospital somewhere in England.

He writes that both bones in the right leg above the knee were broken, that he has sprained in his back, but is getting along all right. He has been overseas since last March.

A native of Merrill, he was born on the old Libby place and graduated from the Henley high school. Prior to his induction he farmed with his father.

It is thought that the men are Tulelake residents, and it is hoped that this comes to their attention.

The Lewis family will leave soon for Albuquerque, New Mexico. Lewis has been working as welder at the Fort Klamath garage for the past several months, and will be engaged in similar work with his brother in New Mexico.

Lewis and son, Mr. and Mrs. Wilford Donnelly and daughter Gwendolyn Jane, Mr. and Mrs. Puri Fox and children, and Mr. and Mrs. Harold Wimer.

Portlander Escapes Nazis in France

PORTLAND, Oct. 23 (AP)—Capt. Thomas B. Kennedy escaped from nazis disguised as a Frenchman—but he was a little worried about it at the time.

The 6-foot-4-inch Portlander said he was given civilian clothes, a bicycle and a saw, after he landed safely in France, despite bullets aimed at his falling parachute. He bicycled past nazis closing in to capture him, trying to look like a French workman. "Only I didn't look like any Frenchman I ever saw," Kennedy said. "I had to run awful fast and hide awful quick."

Riflemen kept shooting at him as he "chuted to earth from his crippled Liberator plane. Some bullets hit the chute. "I felt," declared the former Oregon State college student, "like a clay pigeon."

Kennedy, here visiting his family, said it took him only 30 days to go from France to his outfit in Italy—but he can't disclose how.

Wishful Thinking

By EARL WHITLOCK

Every time that any new reform is proposed, the propose is always sure to hear from every direction that old cliché "wishful thinking." Said with a sneer and a smile of kindly indulgence, perhaps. But just what is this "wishful thinking" that the practical folk seem to think we should hold so far away from us? Isn't it, at base, the foundation for every great improvement the human race has seen?

The automobile was mere "wishful thinking" to the practical men of a couple of generations ago. The airplane—that, too, was "wishful thinking" of the wildest sort considerably after the turn of the century. Social security, pensions for veterans, every social step forward has been tagged "wishful thinking" by the stand-patters.

Maybe, then, we need more, much more, wishful thinking, instead of less. Because one thing is sure—whatever betterment humanity experiences must be a wish at first, then it must have some thinking done on it before it can be carried into our lives.

And that statement holds true alike for the small local charitable movement to that goal of the world's statesmen today—a peace that will last.

Next Monday Mr. Whitlock of the Earl Whitlock Funeral Home will comment on "Men Can Change."

Oregon Women!

"The U. S. Army Medical Department urgently needs you now"

MAJOR GENERAL
NORMAN T. KIRK,
Surgeon General U. S. Army.

If there burns within you a sincere desire to do something active and important to help win the war, here is your opportunity. Join the WAC—serve in the Army Medical Department, where women are vitally needed now. You can help bring the war to a quick, successful end. You can help bring our loved ones—your loved ones, perhaps—home sooner. And you can learn a valuable technical skill that may be the foundation of a career after the war.

With the biggest battles of the Pacific ahead, the West must take a still more active part in the war. You are needed here, in Australia perhaps, or elsewhere behind the battlefronts, to give our men the attention they require.

The care and rehabilitation of the sick and wounded is a woman's noblest work. Get into it if you can. If you are between the ages of 20 and 50 and have no children under 14, or other dependents, call at the nearest U. S. Army recruiting station to volunteer for this vital service. 219 Post Office Bldg., Klamath Falls, Oregon.

GREYHOUND SERVES, TOO

Greyhound is happy to publish this message throughout the West for the WAC. We are in war work, too—providing transportation for the WAC and other branches of the Armed Forces...aiding in troop movements...transporting wounded...at the same time carrying on an essential service for the traveling public.
